FRIDAY MORNING, JULY 21, 1899.

PUBLISHED AT NELSON, BRITISH COLUMBIA. DAILY (BY MAIL) $5 A YEAR; WEEKLY, $2.

HE FOUND WHAT HE WAS TOLD

Fairbanks Reports on Alaska.

CHICAGO, July 20.—A Tribune special from Washington says: "Senator Fairbanks of the joint high commission, had a conference with president McKinley and secretary Hay at the White House on the Alaskan boundary dispute. The senator reports that from personal observation he is firmly convinced that the contentions made by this government are correct, and, if the modus vivendi is agreed upon it must be upon the terms of the United States. Senator Fairbanks has been all over the country in the vicinity of Klukwan, Dyea, Skagway and the territory in dispute, and finds incontrovertible evidence that the contentions of this government are correct.

It was said that this government will not yield a foot of territory, and that unless the British government agrees upon a modus vivendi on the terms which this government offered there will be no meeting of the joint high commission on August 2nd.

While senator Fairbanks declined to discuss the subject of the position occupied by the Canadian police, because he may again be called upon to deal with the Alaskan question, it was learned that members of this force are now in the Porcupine region, which unquestionably belongs to this government.

The orders which were given some time ago for sending American troops to Pyramid Harbor have not been recinded, but are still held in abeyance at the request of the British government. In view of the latest information furnished the state department at this point, it would be surprising if the British government is not notified that American troops would be sent to Pyramid Harbor whether Great Britain objects or not. The government is determined to protect the interests of American citizens no matter what the position of the British government may be.

News Notes From Honolulu.

HONOLULU, July 13, via San Francisco, July 20.—The volcano of Mokuawoweo, on the island of Hawaii, has become active after several years' quiet. There is an immense flow of lava and great excitement prevails all over the island. It was rumored in Honolulu that the lava flow was within five miles of the city of Hilo.

The hospital ship Solace arrived from San Francisco on the 8th, and the transport Pennsylvania arrived this morning. Both vessels will coal at this port and then resume their voyage to Manila.

The charter of the First National bank has been approved and signed by president Dole and the minister of the interior. The cruiser Boston will be due here on the 15th on her way to San Francisco. Captain Charles B. Satterlee of the Sixth artillery commanding battery K at this port, died on the 10th of brain trouble. He leaves a wife and child at Fortress Monroe, Virginia.

A Northwest Territory Windbag.

OTTAWA, July 20.—There was a slim attendance in the house when it met this morning. Without any preliminaries the debate on the preferential trade resolution was resumed by Davin. He proceeded to sketch the growth of imperial federation from its inception to the present time. Bell (Prince Edwards Island) was speaking when the house rose for recess at 1 o'clock. The department of trade and commerce has made a provisional arrangement with the Elder-Dempster company for carrying the British mails for the summer season, but no contract has been entered into. The government is determined that when a contract is entered into that there must be faster service.

Unknown Man Found Suspended.

KAMLOOPS, July 20.—An unknown man has been reported hanging from a limb of a tree near the Indian reserve here. Indians came to town and reported the case to the authorities and said the man had evidently been hanging for days, as the body was in an advanced stage of decomposition. Police have gone to the scene to bring the body to town. It is supposed to be a case of suicide, as no person is missing at present.

Heat in London.

LONDON, July 20.—The prolonged spell of unprecedented heat which has prevailed over the country, reached a climax yesterday and today, registering 128 degrees in the sun and 87 degrees in the shade. There have been numerous cases of sun stroke, many ending fatally. Horses suffered almost as much as human beings.

Secretary Alger Has Resigned.

WASHINGTON, July 20.—Alger, the resigning secretary of war, will turn the war department over to assistant secretary Meiklejohn on Monday next, having today received a telegram from the latter at New London, Wisconsin, stating that he would arrive in Washington Saturday night.

Has Not Left the O. R. & N.

NEW YORK, July 20.—Regarding the current reports that A. H. Mohler, now president of the Oregon Railway & Navigation Company, has accepted the presidency of the Big Four, William L. Bull, a leading director of the Oregon Railway & Navigation Company, said today: "I have several telegrams today from Mohler at Portland and in none of them has he said anything about any intention to retire from the presidency of our company. In addition to our business relations, Mohler is a close personal friend of mine and I think he would not have taken such a step without letting me know about it. I do not believe the report is true."

EXPERT YACHTSMAN'S OPINION

On Shamrock's Qualities.

SOUTHAMPTON, July 20.—It is reported that the New York yacht club has consented to the Shamrock being towed by the Erin in the event of being becalmed in crossing the Atlantic. Two strong hawsers are being made for use in this eventuality. The Shamrock is a mere shell and quite empty below her deck. When the prince of Wales boarded her and went below he found himself in a vessel destitute even of ordinary partitions, and looking from end to end he said in a surprised way, "Why, she is like a street, perfectly empty."

The correspondent of the Associated Press had an interview today with captain Carter who besides sailing the Britannia, commanded the Genesta when she sailed in American waters. When told that sir Thomas Lipton could have won by half an hour yesterday, captain Carter replied:

"Yes, I believe she could. She is a splendid boat. With regard to the criticism that she did not sail as well as might have been expected before the wind, it must be remembered that she only carried her topsail. Nobody would be more pleased than myself to see the Shamrock win as well as she did on both days this week, and the prince of Wales would be well pleased. He undoubtedly was delighted to have the Shamrock prove such a flyer, as we want to capture the America cup if we can. Without the slightest doubt the Shamrock is magnificent in beating to the windward.

Anglo-American Athletics.

BRIGHTON, July 20.—The meeting between the representatives of the English and American University athletes proved most satisfactory, the greatest good feeling being displayed on both sides. The status of Burke and Quinlan of the American team was roughly discussed and the conclusion arrived at was that no objection to them would hold for a moment. Mr. Jackson was very emphatic in denouncing the English newspapers that originated the controversy. He asked the Associated Press to make it plain to the American newspapers that neither he nor his colleagues would in any circumstance have considered any objection to either Quinlan or Burke.

"The fact that these gentlemen, Mr. Wendell and his fellow-committeemen, who are of such high standing in amateur athletics, vouch for them is entirely sufficient," said Mr. Jackson, "and if any objection should be raised again to either it will not proceed from the Oxford-Cambridge officials and will not have the sympathy of the Oxford or Cambridge men."

The main object of today's meeting was to harmonize the Anglo-American amateur athletic rules, which vary in some minor particulars. In order that the contests may be carried out under conditions that shall be indisputable, it was agreed that the hurdle race should be run under American conditions, over loose instead of fixed hurdles, and that each side should follow its own custom in hammer throwing. It was also agreed that the high jump should be taken from the turf in the center of the grounds instead of the cinder path. Some minor details with regard to the long jump were also adjusted.

German Press Less Hostile.

BERLIN, July 20.—The celebrated economist, Dr. Kuhland, has, in the agrarian Deutsche Tageszeitung this morning, his second article scoring "the seven great American packing firms, which by their low prices have monopolized the meat market of the United States and dictate to the American farmer." Now, he declares, the same seven are trying to get control of the European market and to dominate the continental agriculturists.

Presumably following in their tone the drift of the Anglo-German agreement, the Berlin papers are slowly changing their attitude on the Transvaal question. The National Zeitung this morning says that while Great Britain's policies in Egypt and South Africa may be attacked from the point of view of ethics, yet one is forced to admire the nation's resoluteness and force of will in executing its intentions.

Dixie H. Ross Dead.

VICTORIA, July 20.—The United States training ship Adams on her annual cruise arrived here this morning from Honolulu via Port Angeles.

Dixie H. Ross, well known throughout the province as a pioneer of the Cariboo gold fields and latterly a leading citizen of Victoria, died today. His death was the result of an operation.

KOOTENAY MINES AND SMELTERS

Collecting the Paris Exhibit.

F. M. Chadbourn is making good progress with the collection of the exhibit to be sent from this and the Goat River mining divisions to the Paris exhibition. The Hall Mines have furnished a very handsome exhibit of about 1500 pounds representative of the different classes of ores found on their properties. Captain Duncan has engaged to forward him samples from their mines on Eagle creek, and an exhibit is expected daily from the Athabasca. While in Ymir recently Mr. Chadbourne arranged for the exhibit from that district, and about 300 pounds of specimens are now at the Nelson & Fort Sheppard depot, and more are expected. The samples come from numerous properties, including the Dundee, Porto Rico, Tamarac, Blackcock, Willcock and Fairmont. The Ymir ores are mostly a quartz carrying iron sulphurets, and some carry quite a percentage of lead. J. Roderick Robertson will send in samples from the Ymir mine, as will the managements of the Yellowstone, Second Relief, Arlington and Canadian King. Mr. Chadbourn leaves tomorrow for Creston and Port Hill, where he will get specimens illustrative of the ores of that district. All exhibits must be in Nelson by August 1, when the provincial mineralogist will be here to pass upon the collection.

CONCENTRATES.

The Marmion and Maryland, recently purchased by R. R. Bruce and situated on Springer creek, are to be developed. John McKinnon is in charge. The first pack train with supplies went up yesterday from Slocan City.

Mr. Hind of Vancouver, with an expert, is examining the Highland Light and Silver Cliff, two Slocan City district properties.

Messrs. Provost and Newlans are driving a tunnel to crosscut the lead on the Black Hussar, Slocan City district, and will know in a few days what their big surface showing amounts to.

Fritz Cirkel, M.E., came into town yesterday from Vancouver and let a contract for driving fifty feet of a tunnel on the Humbolt group on Hunker creek. Mr. Cirkel represents J. B. Maclaren and his associates, and leaves this morning to look after their interests in Republic. On his return he will make arrangements for further development on the Humbolt.

Alderman G. Frank Beer returned Wednesday from a trip to the Lardeau district. He reports that there are several feet of snow at the Beatrice which will delay the resumption of work upon that property for at least three weeks. While in the district alderman Beer learned that a good strike had been made on the Terrible claim which he is developing on Gaynor creek. Three veins have been uncovered and stripped at intervals for a distance of 1000 feet. Satisfactory assays have been had from the leads which carry good lead and silver values.

H. R. Bellamy returned yesterday from a visit to the Daisy group, consisting of the Daisy, Edith and Florence claims, situated on the north fork of Hall creek, on which he has had a force of five men doing development work. There is now on the property a 20-foot shaft and a 50-foot tunnel, the face of which is in copper ore. Work on the Daisy group has been suspended for a few weeks, the men being moved to the Royal Oak group on Wild Horse creek, work on which will be commenced on Monday next.

May Build to Balfour This Year.

It is understood that while here Mr. Whyte made arrangements with Harold Selous and T. G. Proctor for the purchase of portions of land belonging to them over which the railway would have to pass on going from here to the lake. Mr. Mr. Selous' pre-emption is situated at Nine Mile creek, and Mr. Proctor's on the outlet opposite Balfour. This is taken to mean that the Crow's Nest Pass road may build from Nelson to a point opposite Balfour this year.

Rioting in Spain.

BARCELONA, July 20.—There was a serious demonstration here today. A mob of about 800 seized the opportunity afforded by the presence of the French admiral Fournier at an official lunch, to parade the streets carrying the French tri-color and shouting seditious cries. The crowd was dispersed by the police after some trouble and a number of arrests were made.

Alger's Resignation Accepted.

WASHINGTON, July 20.—Secretary Alger has received the president's acceptance of his resignation, to take place August 1st. The secretary did not make the terms of the letter public, but read it to a few intimate friends.

THE TOWN AND THE DISTRICT

Where the Gas Mains Will Go.

The engineer of the gas and coke company filed with the city clerk yesterday a plan showing the streets upon which the company desires permission to lay its gas mains. The plan shows the site of the works as a block of land bounded by Silica, Slocan, Victoria and Railway streets. From this site a pipe line is to be laid on Railway street to Baker, along Baker to Cedar, down Cedar to Water street, and along Water street to the eastern limits of the city. A circuit is also made of block one, the pipes running from Baker to Vernon in Ward, along Vernon to Josephine and up Josephine to Baker. Another line runs up Stanley street from Baker to Observatory, with lateral lines of pipe for varying distances on each of the intersecting streets.

Coupled with this plan the gas company asked for permission to commence on Monday the laying of pipe on Stanley street from Victoria to Silica street; on Victoria street from Stanley to Josephine street; and on Silica street from Stanley to Hall street.

When the communication came before the members of the council yesterday an informal discussion was indulged in as to whether the company should be allowed to lay its pipe on the main streets of the city or be compelled to lay them in the alleyways. Although no action was taken, the general feeling of the members of the council appeared to be that the company should not be allowed in any event to lay their pipes on either Baker or Vernon streets.

NELSON.

The raffle for H. C. Cummins' Mersey canoe will take place at the Bodega on Saturday evening at 8 o'clock.

The William Hamilton Company have twenty-five men at work on the foundation of the mill for the Duncan Mines, Limited, and expect to have the work of construction completed in about two months.

David McBeath, who, in partnership with L. Peters, has the contract for the completion of the electric light flume from Cottonwood lake, returned yesterday from a visit to the work. His company have fourteen men at work and expect to have the water flowing over the summit in about four weeks.

Other Breaches of the Bylaw.

A special meeting of the city council was held yesterday afternoon for the purpose of discussing matters in connection with the enforcement of the fire limits bylaw. The Traves prosecution was first taken up, and on motion of alderman Hillyer, seconded by alderman Beer, the council decided to empower chief Thompson of the fire department to pull the Traves building down as soon as the time set for its removal expires. This, of course, will be conditional upon the application for an injunction being refused.

The violation of the fire limits bylaw in the erection of J. Y. Griffin's smokehouse was also talked over. The owner of this building received a permit to erect and maintain a temporary building in the rear of the Macdonald block for six months. The time expires on the 27th of the present month, and the council will take steps to secure its removal if it is not removed in the meantime by the owner.

The Salvation Army's breach of the bylaw was also discussed, alderman Fletcher expressing the opinion that the army officials had overstepped the permit which was granted by the city, but there was no suggestion of going after them.

In the matter of the permit granted to P. Burns & Co. to move a frame building in the fire limits, alderman Beer said that there had been a great deal of talk over this action of the fire wardens, and he thought it should be definitely stated to the people that when the new Burns block is ready for occupancy the frame building at present used should be torn down. All the members of the council agreed that this should be insisted upon, and the meeting shortly afterwards adjourned.

Will Welcome Lacrosse Players.

A. E. Suckling, a noted lacrosse player and a member of the Vancouver Lacrosse Club, is in town and informed a TRIBUNE reporter that the Vancouver club were making every preparation to give the Nelson players the heartiest of receptions. The match is arousing a great deal of interest and the Nelson club will be allotted the whole of the net gate receipts. The date selected is Saturday, August 12, this being the only free Saturday of the season. The exact dates of the Nanaimo, Victoria and New Westminster fixtures will be settled by the British Columbia Lacrosse Association so as not to clash with any of the league games. Each of the four teams in the league play the other three, four times, and the winner of the greatest number wins the championship. New Westminster, last year's champions, are in the lead again this year, so the game against them will be awaited with great interest here. The team are training and practising steadily and should give a good account of themselves against the best. The new sticks ordered by the club have arrived, and have every appearance of being what they were represented to be—the best to be got for money.

MOTORMEN STILL ON STRIKE

In Two Big Cities.

NEW YORK, July 20.—The strike in Brooklyn up to 10 o'clock this morning resulted in no important changes. More cars were running on various lines after than prior to that hour, and the lines were freely patronized. Motormen and conductors express themselves unwilling to run out to the suburbs unless accompanied by police, and the police are becoming weary of the continued strain.

Although general master workman Parsons said yesterday that today was to be a big day for the strikers in Manhattan throughout, this morning opened in the quietest way so far as the strikers were concerned. Almost without exception the cars on all lines started from their barns on schedule time. Parsons issued a statement today declaring the strike was practically won. He said 1500 were out and more were going out hourly.

CLEVELAND, July 20.—Nine of the lines of the big consolidated system were in operation this morning. Up to 11 o'clock no disturbances had been reported.

Gave Kootenay the Go-by.

CALGARY, July 20.—All Calgary and hundreds of cattlemen from the ranches tributary to the "Sirloin of Canada," as this foothill city is called, welcomed the National Editorial Association of the United States when the specials arrived at the Canadian national park today. The day was spent on the spacious race course, where was congregated one of the most picturesque crowds seen in Alberta for many a day. Several hundred Indians of the Blackfoot, Stoney, Blood and Cree tribes formed a mounted regiment, and the cowboys, mounted police, and other horsemen joined in the programme arranged for the instruction and amusement of the newspaper men. The latter expressed themselves as delighted with the reception and the country generally. Their stay at the Banff springs was an especially pleasurable one, and it was with much regret they were forced by limit of time to leave this beauty spot in the Canadian mountain park. The visitors left tonight for Manitoba, and after a visit to Winnipeg will leave for St. Paul, Minneapolis and Chicago.

Professor Schiller Reinstated.

BERLIN, July 20.—General satisfaction is expressed at the action of the Hessian government in reinstating Prof. Schiller, of the University of Giessen, who was ousted for criticising the government's policy. The government in restoring the professor yields to the remonstrances of the deans of the university. A number of newspaper men point out the fact, startling by contrast with professor Schiller's case, that the government of Hesse for a long time protected Herr Keuchler, a high official who abused his governmental position for personal gain.

Cloudburst in Texas.

DALLAS, Texas, July 20.—A report from Childress in Texas Panhandle, two hundred miles north of Dallas, states that a cloudburst has occurred in that region with disastrous results. It is known that the property loss is very heavy but nothing has been learned of the fate of the people of the inundated section which embraces portions of eight counties. The section is thinly settled and the towns are small and far apart.

Died in Chile.

VALPARAISO, Chile, July 20.—The Rev. Dr. Allis, president of the American Presbyterian mission in Valparaiso, died this morning in the English hospital. His malady was softening of the brain. Dr. Allis was in his 61st year.

J. W. Tomlinson Elected.

CHICAGO, July 20.—The National Bi-Metallic committee met here today and elected John W. Tomlinson of Alabama to succeed the late Senator Harris. No other business of importance was transacted.

Redistribution Bill Defeated.

OTTAWA, July 20.—The redistribution bill was defeated in the senate by 36 for Bowell's amendment to 14 against, a majority of 22 against.

Baroness Rothschild Dead.

PARIS, July 20.—Baroness Nathaniel Rothschild died suddenly today of heart disease.

Earthquake in Rome.

ROME, July 20.—There was a slight earthquake shock here at 5 o'clock this morning.

TRAVES FINED ONE HUNDRED

Fire Limits Bylaw Upheld.

Police magistrate Crease delivered judgment yesterday in the prosecution brought by the city against E. C. Traves for a breach of the fire limits bylaw in connection with the erection of the addition to the Broken Hill block on Ward street. The police magistrate upheld the validity of the bylaw and imposed a fine of $100 upon the defendant for his breach of it.

S. S. Taylor, Q. C., made a vigorous fight for the defendant, and immediately issued a writ for an appeal which will probably be heard early in September. In the meantime he will make application before judge Forin for an interim injunction restraining the corporation of the city from proceeding with the demolition of the building, as threatened in a notice to the defendant Traves. The application for this injunction will be heard by judge Forin this morning. Should it be granted matters will probably remain as they are, but otherwise the building will be torn down when the clock strikes twelve this evening.

The judgment of police magistrate Crease was as follows:

The municipality of the city of Nelson has lately gone to considerable trouble and expense in having its bylaws revised and consolidated, and this has been effected by the aid of experienced counsel. To declare revised bylaw No. 7 invalid, a clear case must be made out. E. C. Traves, according to the evidence, has erected a structure on lot 7, block 9, in the city of Nelson, said lot being part of subdivision of lot 95, group 1, Kootenay district, which structure adjoins the Broken Hill block, erected on said lot 7, and fronts on Ward street, a principal street in the said city. On the 14th inst. the walls were up and the roof on. It is a framed one and roofed with tin; its outside covering is rustic; its size is 16 feet by 40 feet and 35 feet high from the ground sill. This I consider to be a building and an addition to the Broken Hill block, a frame building now in existence.

No authority in writing was obtained by Mr. Traves from the fire wardens and building inspector for the additions to and alterations in the way of repairs or otherwise of the Broken Hill block. The two crucial sections of the by law are 18 and 20, which are (18). No wooden building shall be erected within the fire limits, and no alterations to any existing buildings, either in the way of repairs or otherwise, unless the authority in writing of the fire warden and building inspector be first obtained. (20). That subject to section 18, additions may be constructed to frame buildings now in existence, such to have an outside covering of corrugated iron, not more than one story high of 14 feet, and no such addition shall be constructed fronting on any street within the fire limits.

Lot 7 and the contiguous portion of Ward street are within the fire limits of the City of Nelson. Section 18 speaks of wooden buildings; evidence shows the structure in question to be of wood. Section 20 treats of frame buildings. A distinction was sought to be drawn in the argument between wooden and frame buildings. Wooden and frame buildings are synonymous terms in the building trade and I regard them as such. Stress was laid in argument that the city has no power to define fire limits. Where the municipal clauses act by section 50, subsection 28 speaks of wooden buildings within the fire limits and of other buildings in specified parts of the municipality. I take it that power is intended to be and is given a municipality to define what these fire limits shall be. In reference to the objections to the penal clause of the bylaw, I hold that under sub-sections 42 and 43 of section 50, municipal clauses act, the penal clause is good. Section 81 of said act and Regina vs. Petersky, 1, C. Criminal Cases at page 91, bearing upon this last section, sustained this conclusion. I find that bylaw No. 7 as affecting the matter in question to be valid and the revision thereof effectual. An infraction, according to the information, has been committed; it was deliberate and in face of notice to discontinue. This is the only case before me to consider. With the others mentioned in the evidence I have now absolutely nothing to do.

I find E. C. Traves guilty and fine him $100, and in default of payment thereof forthwith, distress and sale of said Traves' goods and chattels, and in case of no sufficient goods and chattels, I order him to be committed to the common gaol of the County of Kootenay at Nelson for the period of two months.

A Terrible Rainy Season.

WASHINGTON, July 20.—The following has been received at the war department:

"Manila, July 20.—To the adjutant general, Washington. The storm is still prevailing but the barometer is rising, indicating improving weather conditions. The average rainfall for July for several years has been fourteen and a half inches. For the twenty days of July now closed 11 inches have fallen. The country is flooded, troops on outposts have suffered and former lines of communication have been cut in some instances, but not seriously. No material increase in sickness is reported. Telegraphic communication is maintained with San Fernando, Bacor and nearly all the other points. I am unable yet to coal the returning transports

NECKWEAR!

A WORD OF SOME NEW ARRIVALS

We thought this part of our stock complete until these were brought to our notice last week. They are the prettiest either you or we have ever seen. Prices from 20 cents to $1. Call and see them.

The Tribune.

DAILY EDITION.....FIRST YEAR, No 169
WEEKLY EDITION.....SEVENTH YEAR, No. 36

LAX enforcement of the city's laws will cause no end of unpleasantness. Had the fire limits bylaw been rigidly enforced, E. C. Traves would not now be fighting the city. The time to have stopped Traves was when he commenced building the wooden addition to the Broken Hill block. A little show of firmness then on the part of the mayor, the chief of police and the chief of the fire department, would have saved both Mr. Traves and the city money and much bad blood. Where a law is violated by one, another imagines he has an equal right to break it. Enforce the bylaws without fear or favor, and the chances are the only persons injured will be the lawyers—and the Lord will take care of them.

THE Miner is paving the way for its successor, the Economist. David Mark Carley is to be the literary head of the Mackenzie-Mann-Macdonald-Elliot daily organ in Nelson. The change is to be made on the arrival from Toronto of the Mackenzie-Mann end of the combination. David, may the gods treat you kindly.

J. RODERICK ROBERTSON and his political followers in the board of trade are so largely representative of Nelson's business wealth that they are altogether assessed for $50,750 in real estate and improvements in the city of Nelson, while the members whom J. Roderick and his crowd characterize as of little or no account, but who want to keep politics out of the board of trade are assessed for $91,418.

Fort Steele to Have a Bank.

Fort Steele Prospector.

G. A. Cox president of the Canadian Bank of Commerce, accompanied by J. W. H. Smythe manager of the Cranbrook branch, arrived in town on Thursday. The business men of Fort Steele met the gentlemen Thursday evening and Mr. Cox informed them that the bank would put in a branch at Fort Steele at an early day, or as soon as matters could be arranged. The party left yesterday morning to see the North Star and Stemwinder mines.

Increased Activity in Mining.

Fort Steele Prospector.

It is certainly gratifying to note the increased activity in mining in this section. There is less talk of what "we purpose to do" and more talk of what has been done in the way of substantial work.

Admiral Dewey's Movements.

TRIESTE, Austria, July 20.—The cruiser Olympia with admiral Dewey on board, arrived here yesterday. The principal newspaper, Il Picolo, has a flattering article welcoming the admiral to Austria. The Olympia will remain here about two weeks. Dewey's health is perfect. He has not decided whether he will go to Carlsbad as has been announced, but it is not probable he will do so. The admiral intends to visit Vienna. Upon her arrival here the Olympia fired a salute of 21 guns which was returned from the fort and four Austrian and one Greek warships. Dewey received a visit from the local authorities, the United States minister to Austria, Addison Harris, and staff of the legation and the consuls of the United States in Austria. The foreign consuls were received by Dewey on board the Olympia during the forenoon. The Olympia had a bad run to Aden against a monsoon, but from that point on the weather was fine. Dewey expects to remain on board his flagship with the exception of occasional trips on shore. Americans here find the weather cool and refreshing. Most of the chief government officials are absent on leave. British consul Chirchill was the first caller on Dewey and was saluted in a most cordial manner.

Won His First Race.

LIVERPOOL, July 20.—The American jockey Martin made his first appearance on an English track today at the Liverpool July meeting. In the race for the St. George's stake, Martin finished first on sir R. Waldie Griffith's Sweet Marjorie. The betting in the case of Sweet Marjorie was 10 to 1. Martin created a most favorable impression and was heartily cheered after winning. He has been engaged to ride sir R. Waldie Griffith's Ista for the Liverpool cup tomorrow.

Aguinaldo Still Fighting.

MANILA, July 20.—Lieutenant J. Moore of the Iowa regiment, shot himself today while temporarily insane. The steamship Saturnus has returned from Aparrie and reports that Aguinaldo, hearing that the inhabitants were prepared to welcome the Americans if they came, concentrated 2000 troops there and fortified the town and coast approaches strongly.

SHERIFF'S SALE.

Province of British Columbia, Nelson, West Kootenay, to-wit:

By virtue of a warrant of execution issued out of the County Court of Kootenay, holden at Nelson, at the suit of Malone & Tregillus, plaintiffs, and to me directed against the goods and chattels of W. H. Swerdfeger, defendant, I have seized and taken in execution all the right, title and interest of the said defendant, W. H. Swerdfeger in the "Eureka" mineral claim, situate on the south side of Kootenay river, between Eagle and Sandy creeks, and about two miles from the Poorman mill, to recover the sum of three hundred and seventy-one dollars and forty-five cents ($371.45), amount of said execution, besides sheriff's poundage, officer's fees, costs, and all other legal incidental expenses.

All of which I shall expose for sale, or sufficient thereof to satisfy said judgment, debt, and costs, in front of my office, next to the court house, in the said City of Nelson, on Thursday, the 27th day of July, 1899, at the hour of eleven o'clock in the forenoon.

NOTE—Intending purchasers will satisfy themselves as to interest and title of said defendant.

Dated at Nelson, this 20th July, 1899.

S. P. TUCK, Sheriff of South Kootenay.

INTOLERANT YANKEES.

The following will be a trifle amusing to citizens of the United States who now live or have lived in British Columbia. Here the stars and stripes float side by side, or are entwined side by side, with the cross of St. George on all public occasions. It is the right spirit. It shows that the people of British Columbia are on good terms with their neighbors to the south, and it shows our neighbors to the south that they are among a tolerant, neighborly people when they visit us:

GREENWICH, Connecticut, July 7.—Because a girl refused to be dared a riot was narrowly averted at Shippan Point, near here, on the fourth. Miss Muriel Russell, an English girl, a guest of her uncle, Robert A. Fosdick, was dared to run up the British colors from the flagstaff in front of her uncle's house on the fourth of July. She did not wait for the dawn of Independence Day, but flung the colors to the breeze on Monday. That night flag and pole disappeared.

Miss Russell made another flag, and, nothing daunted, displayed it from an upper window. There it waved triumphantly until sundown, while neighbors raged, and one even went so far as to display a revolver while talking with Mr. Fosdick.

Mr. Fosdick who ran for mayor of Stamford on the democratic ticket last fall, upholds his niece in her action.

The household was aroused early Tuesday morning by the sound of some one sawing wood. When she looked out of the window the pole was missing and a crowd was running across the lawn. Miss Russell immediately started out for Stamford for another British flag, but none was to be had, so she purchased material and by noon had made one.

The attention of mayor Tupper and selectman Holly was called to the sight of the waving British colors, and they went to see Mr. Fosdick. "I told him," said mayor Tupper today, "that there was fear of a disturbance. He gave me a short answer, and when I told him that the neighbors objected to the flag and that it might be well for the public peace if it were taken down, he said, 'The people can go to the devil.' That ended my talk with him."

Selectman Holly and Mr. Brown, a neighbor of Fosdick's, went to the latter's place, but say they were ordered away after being threatened with a whip. Another caller drew a revolver, but went away without using it.

Mr. Fosdick said today: "The incident was a huge joke. My niece, who is loyal to her home, was dared by several of our neighbors to fly the British flag on the fourth, and they said if she did it would be torn down. I advised against it, but I decided to uphold her. I told her that there was no law against it, but that it was a foolish thing to do."

It is said that Mr. Fosdick intends to erect two flagpoles of the same size, flying the stars and stripes from the one and the British flag from the othe.

Flowers at Dinner.

Who would ever have thought that the way of arranging flowers on a dinner table could influence the gayety of the guests? A few days ago M. and Mme. X—— gave a little dinner at which there were eighteen people, acquainted, in sympathy with one another, and several of them of a very lively disposition. To the surprise of all conversation flagged. It was a series of asides without echo. The master of the house, haunted by the perpetual smile of his wife, whose lips he could see move, though he could not hear the slightest sound of her voice, wondered what friends she could be pulling to pieces.

The company had scarcely retired to the drawing room when gayety broke out and the contrast was immediate and striking. A young doctor, versed in the study of the nerves, was being accused of having hypnotized all the guests when a well known professor of the Conservatoire exclaimed: "I think I have found it out. It is the fault of the flowers."

"Yes," replied a young lady, "it's the smell of the roses. The Romans wore wreaths of them in order that they might drink freely without talking foolishly."

"I respect your opinion, madame," said the professor, "but mine is rather different. The row of flowers which extended

THE BANK OF BRITISH COLUMBIA

NELSON

down the table, was surmounted by tall grasses, the stems of which came about to the height of your lips, and these formed a screen, which broke the waves of sound and prevented the voice carrying."

To test the matter the same company was invited to dine again a day or two later, and this time the table was decorated with cut flowers laid flat. The room recovered its acoustic properties, and the conversation and laughter were as lively as could be desired.

PECULIAR WAGERS.

London Daily Mail.

Quite an astounding number of annual occurences are made the subject of wagering. Years ago, before the vagaries of the weather had brought the four seasons into discredit, wagering that snow would be found on the ground on Christmas morning was very popular. Even now, when the weather behaves with a sublime indifference to the time of year, wagers are still made as to its raining forty days if St. Swithin's be wet.

One enthusiastic supporter of this hoary legend a few years since wagered all he possessed on one wet anniversary that there would be rain every day during the prescribed period. It did rain twenty-two days, but the twenty-third ruined him.

A well-known bookmaker who lays himself out for what he calls "fancy wagering" has stated that the amount of money which was wagered on the late Right Hon. W. E. Gladstone reaching the age of ninety was simply enormous. He also says that being a believer in the unexpected happening in politics, he accepted at the time of the Home Rule split in the Liberal party three wagers of £3000 to £1000 each that Mr. Chamberlain would one day be prime minister of England. The stakes are deposited in a bank under a deed which provides for the drawing of the interest until 1904, the date when the wager expires.

During the building of the Tower bridge, one of the workmen wagered to cook a big pudding ten feet under the surface of the Thames. Needless to say, so impossible a feat led to a deal of money being laid that he couldn't. On the appointed day the pudding was tied in a sack and sunk to the required depth, the assembled crowd being greatly amused with the careful manner in which the performer handled the sack. At the end of three hours the pudding was drawn to the surface and was found to be thoroughly cooked, the only fault being that it was a little too well done. The sack was half full of lime.

A Credit to Canada.

Hamilton Herald.

What is meant by the term "sportsmanlike" is the spirit of manliness. An all-round manly man is a good sportsman if his tastes and talents run in the direction of sport. On the contrary, a man may be a world-beater in any particular branch of sport, or in more than one, and yet be a poor sportsman. What makes a good sportsman is not physical qualities, but moral. The Argonaut oarsmen of Toronto, who went to Henley to compete for honors with the best amateur oarsmen in Great Britain, are good sportsmen, for they are manly men. They failed to capture any of the prizes; they were beaten; but they took their defeats in a right manly spirit. No excuses, no complaints, no claims of unfair treatment, no attempts to belittle the victories of their opponents. "We were defeated on our merits by faster scullers"—that was their only explanation. The fellow countrymen of the Argonauts would have liked to see them return home crowned with victory; but better even than victory is the knowledge that these fine young Canadians are men who would wear the honors of victory modestly if they had won them, and who can accept defeat cheerfully and without envy. And it is also pleasant to know that even in their defeat they showed themselves to be oarsmen not unworthy to compete with the best. When the Argonauts come home, Toronto should receive them, not as vanquished men, but as Canadians who have worthily upheld the honor of their country in the field of aquatic sport.

Pawned His Legs.

"Your honor, this man pawned his legs to buy liquor," said an officer in magistrate Foster's court in Chicago the other morning. Every one present craned forward to catch a sight of the prisoner charged with the unusual offense. "What man? Where?" demanded the magistrate. And a couple of policemen satisfied his curiosity by holding up H. W. Harrington for inspection. The prisoner was without both lower limbs. The officers explained that he was found on Clark street the night before in a hopeless state of intoxication and unable to propel himself. After being locked up he told the officers that he had pawned his cork legs. The magistrate dismissed the prisoner and instructed the police to assist him in the recovery of his artificial limbs.

Had Clothes to Spare.

WASHINGTON, July 20.—Investigation of the complaint that the Oregon troops were not properly clothed brings out the fact that the quartermaster of that regiment turned into the quartermaster at San Francisco a considerable amount of clothing, including more than 700 greatcoats, a number of blankets and heavy underclothing. This clothing when received by the United States is not charged to the regiment and is accepted if it has not been used.

Claim a Diplomatic Victory.

BERLIN, July 20.—The Cologne Gazette's Apia correspondent cables that the Germans there are highly pleased over the successes achieved by baron Von Steinburg, the German member of the Samoan commission, against the opposition of the commissioner of Great Britain, Elliott. The German commissioner, the despatch adds, acceded to the demand of United States commissioner Tripp for the confirmation of chief justice Chambers' decision merely as a matter of form, and in order to preserve valuable American friendship. Germany's influence with the natives, according to the Gazette's despatch, is stronger than ever. It is added that the Samoans demand privileges from Mataafa.

Honors for Sir Henry Irving.

NELSON

THE FINEST PLEASURE RESORT IN KOOTENAY

THE LOCAL NEWS OF THE TOWN

Recreation Grounds Fade Away.

L. A. Hamilton, land commissioner for the Canadian Pacific railway company, was interviewed yesterday by aldermen Hillyer, Thomson, Beer and Fletcher upon the time worn subject of the title to the recreation grounds which the railway company agreed with the provincial government to make over to the city. The visit to the city of land commissioner Hamilton puts an altogether different face upon the matter so far as the present recreation grounds are concerned, in that he says that there was no agreement on the part of the railway company to give the land in question. He then offered a new proposition which was that the railway company should place a value upon the present recreation grounds and allow the city to take acreage up to this full valuation from the railway company's land to the southwest of Nelson. No definite arrangement was come to in the matter, but the probabilities are that this offer of land commissioner Hamilton is the best which the railway will make.

NELSON.

Men were sent out yesterday to get the new rifle range into shape and it will probably be finished by the end of this week or the beginning of next. To begin with targets at the 200 yard and the 600 yard range will be erected. The markers will be protected by a four foot wall of masonry. As soon as things are in shape, an association will be formed and civilians invited to join.

The safe peddler who got out of the town just in time to avoid the information laid against him, disposed of seven safes to merchants and others in town. This is not as it should be, for the identical safes could have been got at the same price from the local agents of the company who are in Nelson to stay.

The Kootenay Supply Company has been reorganized as a joint stock company, with a capitalization of $100,000, the bulk of the stock being held in England. H. F. Pollock, who recently returned from a visit to the old country, found no difficulty in floating the company, and he and G. E. C. Martin will be the resident directors in Nelson. M. McKay, formerly with A. Macdonald & Company will be business manager. The new company will engage in the wholesale grocery and produce business.

The board of trade has ordered a large cabinet in which to display the mineral collection that is to be formed.

All trouble between the Crow's Nest Pass and the Kootenay Valleys roads is now at an end, and it is expected that the latter line will be in operation in sixty days.

A special meeting of Court Kootenay Belle, No. 743, Canadian Order of Foresters, will be held tonight to receive D. E. McKinnon, district high chief ranger for British Columbia, Manitoba and the Northwest Territories.

The tramway company has not yet filed the plans of its proposed road with the city engineer. It was expected that the plans would have been turned in yesterday, but instead the statement was made that the company would be unable to secure the delivery of the necessary ties for at least one month, and consequently there is no necessity for haste in the submission of plans.

Alfred Burmash pleaded guilty yesterday when arraigned before stipendiary magistrate Crease upon the charge of assaulting Martin Habegard at Lapointe's brickyard, the particulars of which appeared in yesterday's TRIBUNE. The magistrate sentenced the prisoner to one day's imprisonment, and to pay a fine of $50 and costs, or in default to a further term of three month's imprisonment. Burmash paid the fine and costs, amounting to $64.25, of which sum $10 go to the physician who dressed Habegard's injuries.

The engine of the C. P. R. train from Slocan ran off the line last night about four miles above Slocan junction, but the tender did not follow and no serious damage was done. A train was sent down from Nelson and brought in the passengers.

The eleven which will represent Nelson in the cricket match against Rossland tomorrow has not yet been quite settled upon, but it will probably consist of J. Elliot, F. Fletcher, C. M. Brown, K. Mackenzie, H. M. Williams, H. and E. Wilson, J. J. Norcross, H. B. Haines and two others.

BUSINESS MENTION.

A grand moonlight excursion, under the auspices of the committee of Fraternity hall, will be given on Friday, July 21st, 1899. The steamer Moyie will leave the city wharf at 8:30 p.m., and return about 10 p.m., and again leave at 10:30 p.m. and return at 1:30 a.m. A magnificent dancing floor will be provided upon the scow which will accompany the excursion steamer. Secure tickets early from the Thomson Stationery Co., and Mills & Lott, as only a limited number will be issued. Tickets $1 each.

Diamond Prices Are Climbing Up

BUT HAVE NOT REACHED TOP NOTCH YET

Diamonds have advanced about 35 per cent in price since last fall, and another advance is expected next month with the limit not yet in sight. You cannot go astray by buying on a rising market, as your goods will be worth more tomorrow than they are today, and the difference in price will be a clear gain to you. As I made large purchases before the advance, we are in a position and willing to give our customers the benefit of the advantageous terms on which I purchased of different value, all kinds of Diamonds, Rubies, Emeralds, Oliveens and Pearls. Being direct and large importers, with the best facilities for buying right in eastern markets, we are in a position to offer a choice selection of stones, either loose or mounted, at right prices. Would it not be to your advantage to anticipate your wants rather than pay a little more.

Lawrence Hardware Co.

NELSON, B. C.

One-half price sale of Crockery and Glassware for the week commencing July 17th.

You who have visited this department during a sale know what this means.

The reason for this sacrifice is, that goods cabled for from England and Japan will arrive in a few days and we must have space in our show room for the samples.
