NELSON, B. C., THURSDAY, JULY 25, 1901

FIVE CENTS

NELSON MINES AND MINING

WILL SPEND \$10,000 ON YMR'S CYANIDE PLANT.

Estimated It Will Save Enough to Pay for Its Cost in Seven Months' Operation.

Development at the Silver King mine continues to progress at a satisfactory rate. Captain Gifford has made increases to his working force within the past two weeks and the indications are that still further additions will be made as the property is more fully opened up for stoning. About 150 tons per day are now being shipped to the company's smelter. Just what the average rate of shipping will be will, of course, be determined by the manner in which the new stopes open up. The ore body which caused the stock to climb up on the London Stock Exchange has not yet been caught on the 1000 foot level. It is being drifted from the bottom of the shaft, but it will be two or even three months before the management expect to strike it.

The Ymir shareholders are in receipt of a circular from their directors informing them that they have decided to proceed at once with the erection of the large cyanide plant for the treatment of the Ymir tailings. The cost of this plant, which is now going up on the company's property, is estimated at \$50,000, and its operation is estimated to effect an annual saving upon the company's operations of \$5,000, or a sum equal to 8 1/2 per cent. on the company's capital. The circular further sets out that it has always been the policy of the directors to pay for all improvements out of the profits of the mine. The shareholders will doubtless be pleased to learn that the cyaniding mill will be installed without any increase of capital or without encroaching upon the funds required for the payment of the quarterly dividends. The circular further adds that the news from the mine continues to be of the most satisfactory character, and the high returns are being maintained. On the exchange the stock has made big gains since the new ore body was discovered and the indications are that it will go even higher.

The successful flotation of the Snow Shoe mine on the London market shows that there is still money available for British Columbia mining properties provided the investors think they will get a chance for their money. This company has been floated for the purpose of developing the Snow Shoe property. In the boundary district. The capital of the company is placed at £250,000 in £1 shares, of which 150,000 shares represent the purchase price. This left 100,000 shares, of which one-half were offered to the public at par and were fully subscribed.

The vendors of the property set out that they have spent £25,000 in opening up the property, and that 4921 feet of development work has been done, of which 1782 feet are in ore. What is probably the most significant statement appearing in the prospectus of the Snow Shoe company is that which sets out that the owners of the property have received an offer from the British Columbia Copper Company of \$3 per ton for freight and treatment of the Snow Shoe ore.

EASTERN CANADIAN NEWS

Wired in Brief.

BARRIE, Ont., July 24.—Robert King, sr., one of Barrie's most esteemed citizens, is dead, aged 78 years.

GRIMSBY, Ont., July 24.—The house and barns of L. L. Hargreave were burned to the ground this afternoon. Loss, \$18,000; well insured.

GOODRICH, Ont., July 24.—Captain William Gundry left this afternoon to join the West African mounted constabulary, to which he has secured an appointment. He was given a send-off at the station.

MATANE, Quebec, July 24.—Armed Rioux, a dentist of Sherbrooke, Quebec, and Miss Bechard of Compton, Quebec were drowned here this morning. They were going out in a small boat to a steamer when it was overturned by the heavy sea.

TORONTO, July 24.—The Evening Telegram's Bissley cable gives the following British Columbians, among others, who won sums of money for themselves or for the Canadian team: Sergeant Bodeley, 5th R. C. A., Victoria, personal, \$16 10s.; for team, 46s.; Gunner Fleming, 5th D. C. A., personal, \$21 10s.; for team, 35s.; sergeant for McDougall, 5th R. C. A., personal, £2, for team, 51s.; color sergeant Richardson, team £49 10s.

TORONTO, July 24.—The Board of Trade wants the Dominion government to retaliate on Germany because of that country's tariff, which discriminates against Canadian goods. Secretary Russell of the Canadian Manufacturers' Association is in receipt of a letter from an English business man, which says that Canadians should wake up; that in spite of the big demand for Canadian products, Canadians are slow to take advantage of it. He says Americans are invading the country with their products.

TORONTO, July 24.—Mrs. Mary O'Rourke, arrested a few days ago on a charge of making a business of leaving babies on door steps, was convicted

this morning on three charges. In the witness box she admitted that she had disposed of eight children that way. She gave this as an explanation in one case: "The mother of a young girl was to pay her \$5 a month for keeping her child. She paid \$4 and then disappeared. 'I would not keep the baby without being paid,' said Mrs. O'Rourke, 'and it was better to leave it on a door step than throw it into the bay.'"

Feminine Extravagance.

PARIS, July 24.—Consul-general Goudy says: "I have just finished calculating the exports from Paris to the United States for the fiscal year. There is an increase of \$3,289,305 over last year. Half the total exports from France go from Paris. There is an even greater increase in the imports from the United States, the increase during the last year being \$22,000,000. Our largest purchases from France are things pertaining to ladies' dresses, hats, shoes, jewelry, etc. \$54,000 worth of corsets, \$200,000 worth of jewelry, about \$30,000 worth of human hair and we bought over \$1000 worth of poodles. The great houses of female fashion in the Rue de la Paix are much indebted to our women."

FROM PROVINCIAL POINTS

Globe Trotter Arrives.

VICTORIA, July 24.—Lorenzo Prince, traveling around the world in the race for La Presse of Montreal, arrived by steamer Rio Jun Maru. He left Montreal on May 27th, going via New York to Cherbourg and through Europe to Moscow, thence via trans-Asiatic to Manchuria. Not going via Amur, he proceeded by the Manchurian railway now under construction, being forced to use horses, 72 being used to make 460 miles between sections to Vladivostok. Thence he went to Nagasaki and by rail to Yokohama, where he caught the steamer for Victoria. He has now been out 68 days. He leaves for Vancouver en route home tonight. While in Manchuria he was arrested with Marion, his comrade, under suspicion of stealing 8000 roubles. Marion's passport was taken and he was held for traveling without a passport. Prince telegraphed to the Russian minister of railways and was released under his orders. He left Marion in jail at Kheila and proceeded to Manchuria. He saw signs of unrest and says that Southern Manchuria is in a state of insurrection and Russian officers are powerless to stop it. He says the Manchurian railway is solely a military project, for nothing in the commerce of that province justifies it. Forty thousand Chinese are working on it.

Vancouver News Notes.

VANCOUVER, July 24.—[Special to The Tribune.]—Five men were seriously injured this morning in another elevator accident in the new building to be occupied by William Braid's wholesale house. Two men had their legs broken and the other was badly shaken up. This is the third accident in the same elevator within a few days.

Crown prosecutor Wade arrived this morning from Dawson by the steamer Hating. News was brought that eight men were missing in White Horse rapids, it being thought all were drowned. There is still a great crowd of people at St. Michael on account of mountains of ice still running and prohibiting navigation. The Sullivan barges from Vancouver had a narrow escape from destruction off Kadiak Island.

Thomas McCaffry arrived this morning from the east to take charge of the Dominion government assay office here. There is a probability of the government arranging to purchase gold out and out from the miners without issuing certificates on the banks.

Another Trial of the Yachts.

NEW LONDON, Conn., July 24.—In a fine southwest breeze over the 39-mile course from New Haven breakwater to Sarah's ledge at the mouth of the New London harbor the Constitution once again showed what a superb racing craft she is in light weather and smooth water. She beat the Columbia today, 23 minutes, 8 minutes 23 seconds fairly and squarely. The Constitution finished a good mile in the lead, having gone the 39 miles in 4 hours 32 minutes and 27 seconds, while it took the Columbia to go over the same distance 4:40:50. This was remarkably fast when the comparative lightness of the breeze is taken into consideration and also the tide being against them over the greater part of the course. Yachting is now convinced that the Constitution is faster than the Columbia on every point of sailing in light weather, but in a rough and tumble sea many believe that the Columbia will prove the speedier.

Must Ride to Win in Russia.

LONDON, July 24.—Cash Sloan, the American jockey, who has been riding in Russia, had an exciting experience at the Moscow races, where he narrowly escaped death at the hands of a furious mob. Sloan had been riding with such continuous success that his mounts were always favorites. On the occasion in question he rode a horse which had no chance of winning. The unsophisticated crowd, however, backed the American's mount as usual and when he was beaten their indignation boiled over and a raging mob of males and females savagely attacked the jockey, who was rescued with difficulty by a military contingent and a powerful detachment of police.

QUEENSTOWN, July 24.—The White Star liner Majestic, from New York July 17th for Liverpool, arrived here at 7:55 o'clock this morning.

SCHLEY WANTS TO BE HEARD

INVESTIGATION WILL BE HELD AT ONCE.

The Distinguished Admiral Has Become Weary of Slanderous Attacks on His Character.

WASHINGTON, July 24.—Secretary Long has received the following letter from Admiral W. S. Schley asking for a court of inquiry: Great Neck, Long Island, N. Y., July 22.—Within the past few days a series of press comments have been sent to me from various parts of the country of a book entitled "The History of the Navy," written by one E. Stanton Macleay. From the review it appears that this criticism is a third volume of the said history, extended to include the late war with Spain, which the two first volumes did not contain and were in use as text-books at the naval academy. Second—From excerpts quoted in some reviews, in which the page and paragraph are given, there is such perversion of facts, misconstruction of intention, such contemptible abuse of subjects Mr. Macleay to action in civil law. While I admit the right of fair criticism of every public officer, I must protest against the low flings and abusive language of this violent, partisan opponent, who has infused into the pages of his book so much of the malice of unfairness as to make it unworthy the name of history or of use in any reputable institution of the country. Third—I have refrained heretofore from all comment upon the innuendoes of enemies uttered or murmured in secret, and therefore with safety to themselves. I think the time has now come to take such action as may bring this entire matter under discussion under the clearer and calmer review of my brothers in arms, and to this end I ask such action at the hands of the department as it may deem best to accomplish its purpose. Fourth—But I would express the request in this connection, that whatever the action may be that it occur in Washington, where most of my papers and data are stored. Very respectfully, W. S. SCHLEY.

Rear Admiral U. S. N. To the secretary of the navy, Washington, D. C.

Secretary Long replied to admiral Schley as follows:

Navy Department, Washington, D. C., July 24.—Sir: I am in receipt of yours of the 22d inst. with reference to the criticism upon you in connection with the Spanish-American war, and heartily approve your action under the circumstances in asking at the hands of this department "such action as may bring this entire matter under discussion under the clearer and calmer review of my brothers in arms." The department will at once proceed in accordance with your request. Very respectfully yours, JOHN D. LONG.

To Rear Admiral W. S. Schley, U. S. N.

WASHINGTON, July 24.—Secretary Long, in accordance with a request from Admiral Schley, today advised that officer that he would order a court of inquiry to examine into the entire matter. Later the secretary announced that owing to the extremely hot weather, the court would not meet until September and that he would turn over his reception room to the court. The secretary said: "It is too hot season now and I do not believe it would be very comfortable for officers to sit in their heavy full dress uniforms during August. I issued an order some time ago dispensing with the wearing of full dress uniforms during a court martial, but this case will be so important that every form of official dignity will be observed and a guard will be at the door. I propose to give the court the use of the large reception room adjoining my office, which is a convenient and commodious place."

"Will the sessions of the court be open?"

"Unquestionably," was the emphatic reply. I propose to make that fact very plain. The country has the right to know all that transpires in the way of testimony offered. Personally, I would like to have a court composed of a large number of officers, but the naval regulations restrict me to the selection of three. I hope to name the personnel of the court tomorrow and this will give the judge advocate and recorder ample time to prepare a list of witnesses who are to be summoned. This list will be quite lengthy and it will take some time to assemble the court. I am confident, however, that the session of the court will be prolonged, because, after all, a great deal of the talk over the Santiago campaign is like the gen's vapor, which can be condensed into a small bottle."

"Will Admiral Schley be allowed to name witnesses?"

"Admiral Schley," was the reply, "will be offered every opportunity for the appearance of all the witnesses he may desire. He is also entitled under the naval regulations to be represented by counsel."

While secretary Long was not asked whether the court of inquiry would be asked to form and submit an opinion upon the facts disclosed by investigation, it is considered reasonable that this course will be pursued. Unless the order convening the court expressly requires this opinion to be expressed, its report will be confined to stating the facts found.

A Family of Murderers Located.

TOPEKA, Kansas, July 24.—Four persons, said to be members of the noto-

rious Bender family, accused of committing a score of murders at their home near Galena, Kansas, over 15 years ago, have been located near Fort Collins, Colorado, and governor Stanley has issued requisition papers on the governor of Colorado for their return to this state. The first steps toward bringing the suspects to Kansas were taken up on the representations of Frank Ayers of Fort Collins, who asserts that one of the quartet, Kate Bender, was once his wife. Governor Stanley issued the requisition upon affidavits of four men who went to Colorado to identify the suspects. The Benders committed a series of the most atrocious crimes ever recorded. They lived on a small farm near Galena, and for years, as it developed after their flight, they had lured travelers and buried their bodies in the yard around their home or under the house. All four members of the family were accused of aiding in the murders. The family consisted of man, wife, daughter and son. The parents would now be in the '70s and the children about 50 years old.

Exposition Notes.

BUFFALO, July 24.—The British flag incident, which was transferred by sensationalists from a mole hill to a mountain, has been settled. The flags which were originally taken out of Ontario's booth in the Ethnology building because they did not conform to a general scheme of decoration—not because they were British—have been restored. Richard Harcourt, minister of education for Ontario, was in Buffalo yesterday and he had a conference with Dr. Benedict, superintendent of ethnology, with the result that the incident which never was of any particular importance was closed for good and all.

Lord Leamington, governor of Queensland, Australia, visited the exposition yesterday. He is on his way to England. He expressed great admiration for the fair and could not, he said, do justice to the beauties of the illumination. He says he will return to the exposition with a party of Englishmen later in the season.

MINING CASES IN COURT

DISPUTE OVER VALUABLE MINERAL CLAIMS.

White Grouse Development Waits Upon the Issue of the Case of Fisher vs. Harris.

Mrs. Jennie E. Harris, one of the defendants in the celebrated mining case of Fisher vs. Mrs. Harris and Philip Corcoran, was examined for discovery yesterday. This may be regarded as the opening move in the legal battle which has been commenced for possession for some very valuable mining property in the White Grouse Mountain district. George Henry Fisher, the plaintiff in the action, is suing the defendant, Mrs. Harris, for a declaration that he is the owner of a half interest in the White Grouse Mountain and Phoenix mineral claims in the White Grouse, said claims being a portion of a group of properties which Mrs. Harris has bonded to the defendant Corcoran of San Francisco for \$150,000. Corcoran has been added as a party to the suit merely for the purpose of having him declared a trustee for Fisher insofar as Fisher's interest may be involved in the dispute between the two parties.

The dispute between the two parties is really with respect to one claim only, as Mrs. Harris admits the claim of Fisher to a half interest in the two claims is entirely governed by an irrevocable power of attorney from Fisher to herself, which was given in July, 1897. This document also sets forth the Fisher interest in the properties in question, as well as the manner Fisher should receive in the event of a sale being effected by Mrs. Harris. With respect to the Fisher claim to a half interest in the Phoenix claim the defendant denies that Fisher had any interest whatever.

The plaintiff, Fisher, will be examined for discovery tomorrow. W. A. Macdonald is appearing for the plaintiff and P. E. Wilson for the defendant, Mrs. Harris.

Weather Bureau Report.

WASHINGTON, July 24.—The officials of the weather bureau hold out no hopes for immediate relief from the drought and intense heat prevailing throughout the middle west. Indeed, the temperatures reported at 1 o'clock this morning show that the heat is generally higher than they were at the same hour yesterday. At that hour today St. Louis reports a temperature of 88 degrees, a rise of 8 degrees; Kansas City 84, a rise of 4; Chicago 82, a rise of 8; Indianapolis 80, an increase of 4; Dubuque, Iowa, 82, an increase of 10; St. Paul, Minnesota, 78, an increase of 2. According to weather bureau reports there were light showers in northwestern Dakota last night, but with this exception the skies over the stricken region were clear.

A thunder storm in the northern part of the states in the central west today gave some relief in that locality from the intense heat. In the corn belt the intense heat still continues and no prospect of rain. The maximum temperature line of 100 degrees today again encircled the upper Mississippi valley, lower Missouri valley and the middle and lower Ohio valley. St. Louis reports a temperature of 108 and St. Paul 104 degrees, both record breakers.

STRATEGIC STRIKE MOVES

SHIPPING OF NON-UNION MEN TO WELLSVILLE.

Leading Officials of the Amalgamated Association in Conference—May Be Injunction Proceedings.

PITTSBURGH, July 24.—Two moves, it is reported, were made by the aggressive officials of the American Sheet Steel Company towards breaking up the strike. One was the shipping of some non-union men who have been employed in the Vandergrift mills of the company to Wellsville to assist in the starting of the plant there. It was stated that the men were to be shipped to Wellsville during the early evening and would reach there after dark. As a consequence of this report there is a suppressed excitement prevailing in Wellsville which at any moment may break out into a serious affair. Both strikers and officials of the company are on the alert and ready for any emergency. The impression is strong tonight that the general officers of the United States Steel Corporation have become determined on the subject of early breaking the strike and to ultimately force the operation of all the idle plants. The second move that is understood to have been initiated today is the starting of the long idle Hyde Park plant of the American Sheet Steel Company. This plant was taken into the combine with objectionable contracts made by the former owners and has remained idle since the American Sheet Steel Company took hold of the property. The long idleness of this mill has caused most of the men formerly employed there to leave Hyde Park for other places and the company believes there will be less difficulty in starting this plant than where the Amalgamated Association has control.

At the Amalgamated headquarters the two leading officials of the association were absent during the greater part of the day. It was stated that president Shaffer was away on personal business. The absence of secretary John Williams was also accounted for in the same manner. The conference held on Tuesday night, which kept president Shaffer and secretary Williams out until early this morning, remains as mysterious as before. Whatever the object of the meeting, it is believed to have continued today and much of importance is expected to be developed from the conference. The question of the manufacturers securing injunctions against the association was discussed generally during the day. Those best acquainted with the feelings of the manufacturers say that there is in their opinion little cause for believing that such harsh measures will be resorted to at this time.

SUFFOLK, N. Y., July 24.—It was announced this afternoon at the office of superintendent Dodge of the Delaware, Lackawanna & Western railway that the strike of the machinists employed by the company had been declared off and that the strikers were applying for reinstatement.

Crooked Mail Clerk.

BAKER CITY, Oregon, July 24.—At 11 o'clock yesterday morning United States postoffice inspectors Perkins and Butler arrested in the postoffice Henry J. Kinnison, a trusted employe, on whose person were found marked letters containing money, stamps and checks. Kinnison belongs to an old pioneer family that came here in 1862 and is well-to-do. Young Kinnison has money in the bank and had money on his person, which was returned to him. He was in the postoffice under the last Cleveland administration and only left the office last July. He re-entered the service May 15 at the request of postmaster Butler at the time of the death of the late chief clerk, Carl Jones. The inspectors claim that shortages were going on prior to last July, when Kinnison was a former employe of the postoffice and that on his re-employment this time a watch was set. The department did not re-employ the postmaster doing it on his own responsibility in an emergency case. Kinnison is under bonds of \$1000 and claims to have no money. His friends believe that he can prove his statements and that there will be found another explanation of the unfortunate matter.

A Conscientious Bandit.

MODOC, Cal., July 24.—The stage from Cazadero to this place was held up this afternoon at Park gulch, five miles south of here. The highwayman was evidently a stranger on the Coast, as this line has carried no express box for several years. He commanded the driver to throw out the box and when he was assured there was no box he made an investigation. After carefully looking over the wagon he asked the three passengers if they were workingmen. They informed him that they were and he replied: "You may go on; I never rob workingmen." The robber was armed with a single-barreled shotgun and masked with a bandana handkerchief. He was nervous during the holdup.

Jim Corbett and His Gall.

PARIS, July 24.—James J. Corbett, ex-champion pugilist of the world, said to the correspondent of the Associated Press recently: "I hope to be as great an actor as Henry Irving or Coquelin the elder. I am ambitious and there's

no future for me in the prize ring, because neither Fitz nor Jeffries will ever consent to meet me. They know their victories were chance ones. I am the only man who ever lost the championship of the world without a black eye or a bloody nose. Now I mean to study very hard and conquer in the highest paths of tragedy and comedy. My habits are good and I am always in good condition for intellectual work. Sarah Bernhardt is the most conscientious student of dramatic art in the world; this, combined with her genius, is why she is the greatest actress. It makes me weary to hear Americans say Maude Adams is the equal of Bernhardt. Maude is my townsman and will be a good actress when old enough and when she has studied hard enough. Coquelin is also a severe student. All great artists are hard students. Sometimes they change the monotony of their lives by big sprees, but this is exceptional. Americans are not good dramatic artists; as a rule success requires study as well as temperament, and Americans usually lack the former. I should like to play 'Hamlet' some day when I shall have studied it closely. My stage presence is better than that of any impersonator of Hamlet whom I can recall. Just now I am making arrangements to spar with the champions of France."

TELEGRAMS IN BRIEF FORM

From Various Sources.

LONDON, July 24.—King Edward held a privy council at Marlborough House this morning, when Cecil Rhodes was re-sworn as a member of the council.

BUFFALO, July 24.—Frank M. Rickert of New Orleans was caught in the shaft of an elevator at the Iroquois House and was so badly injured that his recovery is doubtful.

PHILADELPHIA, July 24.—The firemen employed on the line of the Philadelphia & Reading railway have been granted an increase in wages from \$2.35 to \$2.50, together with important concessions.

COLUMBUS, Ohio, July 24.—The sectionmen of all railroads entering Columbus, with the exception of the Norfolk & Western, struck and their places were immediately filled by men imported here from headquarters.

NAPLES, July 24.—A bulletin issued this morning says the condition of signor Francesco Crispi continues to improve and that the nervous depression and affection of the heart from which he suffers are less accentuated.

MADRID, July 24.—Premier Sagasta has announced the government's program, which will include the reorganization of the army, the establishment of bases for naval operations and the construction of an arsenal on a vast scale.

LONDON, July 24.—According to native intelligence, says the Shanghai correspondent of the Standard, Chinese and Russian troops have been seriously defeated by insurgents in the southeastern part of Manchuria and the rebels are now destroying the telegraph wires.

QUEENSTOWN, July 24.—Mr. and Mrs. Gould have been visiting the marquis of Ormonde at Kilkenny castle. They are accompanied by an architect who took the dimensions and made plans of the castle with a view to the construction of a similar mansion in the United States.

CHICAGO, July 24.—The eleventh annual convention of the International Baptist Young People's Union began in this city today. Over 15,000 delegates and visitors from all parts of the United States and Canada are expected to be present at the meetings, which will be concluded Sunday night.

LONDON, July 24.—A parliamentary paper issued today gives the number of persons in the concentration camps in South Africa in June as follows: White, 85,410; colored, 23,488. There were 77 deaths among the whites in the camps, the list including 576 children. The deaths among the colored number five.

ST. PETERSBURG, July 24.—A hail storm in the district of Schlatk government of Tarnoboff July 23rd destroyed the crops over a wide area. Three men and many cattle were killed, while an entire flock of sheep and two shepherds were carried off by the flood. Some of the hail stones weighed three pounds.

NEW YORK, July 24.—Strong opposition to the ship canal project was expressed at a meeting yesterday of the sub-executive committee of the produce exchange. The chairman of the meeting, Mr. Herberts, said that serious doubts were entertained as to whether the deep waterway proposition could be carried.

PITTSBURGH, July 24.—The status of the strike this morning remains unchanged, except for the rumors of intended injunction proceedings and of efforts being made by disinterested parties to bring the leaders of the two contending forces together with a view of bringing the conflict to a termination by a compromise of some sort.

LONDON, July 24.—The valleys of the Danube and other Austro-Hungarian rivers have been flooded by violent rains since the Vienna correspondent of the Daily Express. In Buda Pest 30 were made homeless. Entire towns have been washed out. Twenty-six persons were drowned at Lippitz, where houses of two stories were submerged.

VIENNA, July 24.—Albanian insurgents and Turkish regulars have had several encounters on the Turkish frontier. Many have been killed and wounded on both sides. It is reported that the Albanians cut off the heads of their prisoners and triumphantly carried them on poles. It is also reported that the Turks massacred their prisoners.

CONSTANTINOPLE, July 24.—The recent attack by Albanians upon the Russian consul in Uskub has created considerable excitement. It appears that while the consul was proceeding to investigate the trouble in the Kolashin district, a party of Albanians pursued him and forced him to take refuge in a school building, which they besieged until troops effected his release.

THE HOSPITAL SHIP MAINE

LADIES' COMMITTEE A LITTLE TOO PREVIOUS

And Stir Up a Small Sized Hornets' Nest—Bernard N. Baker, the Donor, Is Indignant.

LONDON, July 24.—The presentation July 22 of a medal commemorative of the work of the hospital ship Maine to king Edward by the duchess of Marlborough, Mrs. George Cornwallis-West, Mrs. Donalds and other American women of the Maine committee and king Edward's reply to the members of the committee, in which he thanked them for bringing their valuable services to a culmination by presenting the ship to the British government, threatens to become an international incident. The Atlantic Transport Company and the friends of Bernard N. Baker, president of the company, are generally very indignant. C. F. Torrey, managing director of the Atlantic Transport Company, today expressed himself as more than surprised to see that king Edward has been misinformed regarding the actual donor of the Maine, since what surprised him still more was that the ladies accepted the thanks of the king for the gift, knowing well that at no time had they owned the ship, and that president Baker alone was entitled to any thanks. Mr. Torrey said Mr. Baker was not even informed of the intention to present this medal to the king, nor up to today had any intimation been conveyed to him that such a presentation had occurred nor has any expression of regret been made that this misunderstanding occurred as to the donor of the vessel. "The whole transaction is on a par with the seizure of the Maine's flag by Mrs. George Cornwallis-West," said Mr. Torrey, "who appropriated the emblem presented by the late queen Victoria to the vessel. It will not surprise us if this flag is now presented with equal acclat to queen Alexandra. Throughout there has been an utter lack of appreciation on the part of some of the Maine's committee of Mr. Baker's assistance and with apparent deliberation the committee has taken unto itself the royal thanks for which it has no shadow of a claim."

Court Officials Under Arrest.

BUTTE, Mont., July 24.—Judge E. W. Farney of the district court is constructively under arrest tonight for refusing to testify before a notary public. He had been called to give a deposition in the application for a new trial in the Minnie Healy mining case, which he recently decided in favor of F. Augustus Heinze and against Miles Finlen and the Boston & Montana Company. He denied the jurisdiction of the notary. Mrs. Ada H. Brackett, a stenographer in the office of Heinze, and deputy sheriff J. W. Rowe are also in the sheriff's custody for the same offense.

Eastern Baseball.

National—Philadelphia 4; Boston 1; Pittsburgh 11, Cincinnati 2; New York 15, Brooklyn 8; St. Louis 2, Chicago 1. American—Philadelphia 11, Detroit 5; Milwaukee 4; Boston 3; Chicago 17; Washington 3; Baltimore 9, Cleveland 6.

A MANIAC'S DEADLY WORK

With His Revolver.

LEAVENWORTH, Kan., July 24.—Michael Kelly in a fit of insanity today shot four men, of whom one has died and the other two are probably fatally injured. The victims are: John Garrett, president of the meeting; Mike McDonald, detective; Mike McDonald, and Dr. Charles McGee. McDonald alone is expected to recover. Kelly, harboring a fancied wrong, entered Garrett's office unannounced this afternoon and without warning leveled a pistol at Garrett, who sat at his desk. Five shots resounded through the building in quick succession, each bullet taking effect in Garrett's body. Garrett fell from his chair. Dodge and McDonald hurried to the scene. Kelly had reloaded his revolver and when the officers entered the office he turned upon them. Sergeant Dodge was shot through the throat and detective McDonald received a bullet in the leg. A moment later Dr. McGee, summoned to attend Garrett, stepped into the office. Kelly raised his revolver and as the physician turned to summon help Kelly fired. One bullet struck McGee in the back near the spine. The whole affair consumed five minutes. Other officers finally arrived, overpowered Kelly and placed him in jail. Several years ago Kelly made an assault on Garrett's father and today he evidently mistook John R. Garrett for the elder Garrett in attempting to repeat the assault. Garrett died late this afternoon at the hospital.

Agreement Reached.

LONDON, July 24.—A complete agreement has been reached between the Vatican and the United States government, says the Rome correspondent of the Daily Chronicle, with regard to the religious orders in the Philippines. According to this agreement the Dominicans and Augustians will remain for the present, but the Spanish monks will be replaced from time to time by others. Moderate compensation will be given for the property handed over.

Special Sale Cotton Goods

AT LARGELY REDUCED PRICES.

500 Yards of Good Prints, 27 inches wide 5 cents.

The government is being censured for its action in offering New Denver for sale at public auction. The original townsite was platted by the government and a number of lots were sold at a public sale held in 1892. The bidding was spirited and prices ruled a trifle high. Purchasers were required to pay one-third in cash, and the remainder was to be paid in two equal short-time payments. Many of these payments have never been made, although the purchasers have improved and are occupying the property. These people claim, as the government has not lived up to its implied promises and the town has not become what it would have had the promises kept, it would only be fair to them if the government would cancel the deferred payments and issue crown grants for the lots. The government, on the other hand, contend the purchasers made their own bargains; that they have been leniently treated, and that it would be unfair to those who have complied with the terms of the sale and paid in full to concede what the delinquents demand. The lots on which full payment has not been made will be resold, the upset price being fixed at \$100, the purchaser paying for any improvements that may be on the lots at a price fixed by a valuator. The result of the sale, which takes place today, will be that all lot owners who have made improvements will be able to get title on payment of \$100 and the crown grant fee, as no one will be mean enough to bid against them. Hardships may be worked in some cases; but on the whole the government has acted fairly in the matter.

Over in Idaho the towns like Bonner's Ferry are villages, under the business management of a board of trustees, whose powers are much the same as those of a board of school trustees in this province. The treasurer's report of Bonner's Ferry for the three months ending June 30th last shows receipts of \$812.70, of which \$772.70 were received from the county treasurer, the remainder being fines collected by the village marshal. The total expenditures for the three months were \$248.50, most of which was for cash advanced on piling. The village marshal is also road overseer, and during the three months he drew \$50 for his services. Ambitious "cities" in British Columbia should take lessons in economy from practical, if slow-going, "villages" in Idaho.

At the last session of the legislature the "Inspection of Metalliferous Mines Act" was amended. One of the sections of the amended Act requires owners, agents, managers, or lessees of mines to make a report on or before the 15th day of each month to the department of mines, in the city of Victoria, specifying with respect to such mine the following: (a) The name of the mine and its extent in acres, together with the name of the mining division in which it is situated. (b) The name of the company or person operating the same. If the same company or person operates more than one mine in the same mining division, the returns may be given en bloc, but the names of all the mines must be specified. (c) The quantity of ore shipped or treated during the previous month and the assay values thereof. (d) Any other particulars deemed necessary by the minister of mines. The end sought to be obtained

FOUNTAIN PENS

A fountain pen is not a necessity, neither is the telegraph, telephone or the railway, but

IT PAYS TO USE THEM

because they get there quick. The Swan Fountain Pen is the reliable "get there quick" pen. We have it at \$3, \$4, \$5, and buy back without question any pen bought from us not proving absolutely satisfactory.

THOMSON STATIONERY CO. LTD.
 PIANOS TO RENT. NELSON, B. C.

by getting the above information was to enable the department of mines to make returns that would be understood by the public. As the Act only went into effect the 1st of this month, there has not been sufficient time to prove its worth. Mine managers should give it a fair trial before condemning it. The information required is simple in the extreme, and surely the work of preparing it once a month cannot be very onerous. But if the information is given promptly, as the Act requires, the minister of mines should be equally prompt in compiling and publishing it.

A congress of mining men are in session at Boise, the capital of Idaho. The principal object of the congress is to secure the establishment of a department of mines in the United States, to be presided over by a member of the cabinet. There is great rivalry between Butte and Los Angeles as the place for the next meeting. Delegates are in attendance from nearly every state and territory in the Union.

Strict economy should be the watchword of the city council for the remainder of the year. No one should be kept on the payrolls merely as a favor. The police force should be cut down to three men, as times are quiet and there is no need of a day patrolman. Like economy should be practiced in every other department. Now is the time to begin.

There is one natural resource that British Columbia has, and it is a resource that will make Kootenay prosperous for many years. The resource is silver-lead ore. There may be periods of depression, brought about by various causes; but the men who will stick to the silver-lead mines will come out all right.

Betrayed Country.

Public ownership of the public railways which public lands and public credit have built or are building for Mackenzie & Mann would have removed the main obstacles to profitable commerce between the west and east. A railway commission can expose wrongs, but no railway commission can supply any remedy at all comparable in value to the simple, expedient of public ownership of every railway which public money built. A railway commission has been the Globe's means of chloroforming the public during the development of conditions which will enable monopolies to laugh at a railway commission. Public ownership of the lines which the public resources have built for Mackenzie & Mann would have made it easier for a railway commission to adjust all grievances arising out of commerce between Eastern and Western Canada. The principle of public ownership applied to these lines would not have been a complete cure, but it would have been a step in the right direction and would have done more to right the wrongs of commerce, agriculture and industry than all the Globe's empty heroics in favor of a railway commission. —Toronto Telegram.

From the Philippines.

MANILA, July 24.—Colonel Zurbano with 29 officers, 519 men, 243 rifles and 100 bolos have surrendered to Lieutenant Hickman of the First Cavalry in Tayabas province. These former insurgents have taken the oath of allegiance to the

United States and their surrender clears that district of the revolutionary element.

A civilian named Finnich has been sentenced to one year's imprisonment and to pay \$1000 for receiving stolen supplies from the commissary department.

Correspondence from the Hong Kong junta dated June 26 and addressed to the insurgent leader Bellarmine, which has been recently captured, says that the junta has received messages of sympathy and assurances of support from Messrs. Winslow and Levison, anti-imperialists, and urging the Filipinos to continue their resistance in the hope of eventual independence, saying the American people are groaning under war taxes and that the Democrats will win at the next election.

Should Be Set to Music.

In the War Eagle company's office at Rossland is a poet. The poet is "Charlie" Jenkins, and one of his poems reads as follows:

AS IT STRIKES THE OFFICE.

When the Agitator's agitation agitates a settled truck,
 And he strikes a stricken Striker to strike without excuse;
 When the Miner leaves his drills to rust,
 From long drawn out disuse,
 And takes his little lay-off with a locating spell's abuse;
 When the Mucker ceases to muck the muck he used to muck,
 And the Sorter feels himself all out of sorts and luck;
 When the Nipper nips his tools no more,
 But nips of liquid truck,
 And the Carman carries care around like a drought imperilled duck;
 When the Blacksmith leaves off striking and his Helper strikes instead;
 And the big steam striking hammer has gone where strikers led;
 When the ore has ceased its striking where the ore bins once were fed,
 And the skip hangs idly striking in the shaft up at its head—
 THEN the staff is strictly in it, serenely a la mode,
 A striking illustration of a Striker's moral code.
 The Boss he strikes an attitude, the Supe strikes his abode,
 The Bookkeeper strikes a balance, and the Clerks—they strike the road.

AUCTION SALE

OF TOWN LOTS IN NEW DENVER

The undersigned have been authorized to offer for sale the following lots in the government portion of the townsite of New Denver for sale at public auction at the Newmarket hotel, New Denver, at 2 o'clock in the afternoon on

THURSDAY, JULY 25th, 1901.

G—1, 2, 3, 4, 5.
 4—1, 2, 3, 4, 6, 8, 9, 10, 11.
 5—2, 3, 4, 6, 10, 11, 12.
 9—1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12.
 10—1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12.
 11—1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11.
 12—2, 3, 4, 5, 7, 8, 10, 12.
 13—2, 3, 4, 5, 9, 10, 11.
 14—4, 5, 10.
 15—1, 2, 3, 4, 7a, 8.

TERMS AND CONDITIONS OF SALE

- The upset price on each lot offered is \$100.
- Subject to the upset price the highest bidder will be the purchaser, but the government may withdraw any lot from sale if the government agent is not satisfied with the competition.
- The title will be that of Crown Grant, for which a fee of \$10 beyond the purchase money will be charged.
- Each and every purchaser is required at the drop of the hammer to pay a deposit of fifty per cent of the purchase price in cash to the Auctioneer attending the sale, who will give an official receipt for the same.
- The remainder of the purchase moneys will be payable at the office of the Government Agent at Nelson, on or before Tuesday the 31st day of December next, with interest at the rate of 6 per cent per annum.
- Where lots for sale adjoin, each purchaser of a lot will have the privilege of taking the next adjoining lot at the same price.
- As regards the deferred payments, time will be deemed the essence of the contract and any purchaser making default of payment at the time fixed by these conditions, will absolutely forfeit his deposit and claim to be deemed the purchaser. Lots upon which default shall have so happened will again, if the government so determine, be put up for sale and re-sold at some future auction, the time to be determined by the Government, of which due notice will be given, on which occasion may also, if the Government so decide, be again offered for sale any other lots which may remain undisposed of.
- In case any dispute shall arise as to the highest or last bidder, or any default or question as to the deposit, the property will again be put up at the former highest bid.
- All lots will be sold subject to payment by the purchaser of the value of the improvements erected thereon, if any, as the same may be appraised by the Government.

HERBERT HENRY ASQUITH**How He Made Political Fortune.**

Mr. Asquith has drawn ahead of his colleagues on the front opposition benches some of whom have just given him the second chance of his life. His earliest opposition reached him through the medium of the "Fifty Club," one of those militant associations for the propagation of political opinions and the launching into public life of blue-chinned young men who prefer not to hide their light under a bushel. For the run of ambitious youth, the "Fifty Club," including its Barmecide banquets at London restaurants, and the occasions when it is received at the houses of the great is quite the most depressing, disappointing venture conceivable. Yet it has had its triumphs. Mr. Haldane, K. C., was nearly another. It was, indeed, as president of an "Fifty Club" dinner that Mr. Asquith first attracted the attention of Mr. Gladstone.

The Grand Old Man, escaped for a few brief hours from the burden of premiership, gazed pensively at the pineapple in front of him, prepared, no doubt, to doze decorously through the platitudes of the young politician on his left hand.

The platitudes came later in the evening, when Mr. Gladstone actually went to sleep. But as for Mr. Asquith, he proved himself above the blameless, dead level of political presidents. His opening sentence served to kindle the slumbering fire in those old brown eyes. The prime minister listened bolt upright. From that day forward Mr. Asquith's political fortune was made.

His critics complain of him that he lacks imagination, sympathy; the minimum of romance required to be anything beyond an capable home secretary—which office, by the way, he held from 1892 to 1895. Why, the man's career is a romance in itself.

Go back to the later sixties and you will find hidden away somewhere in Highgate a young Yorkshireman, a Congregationalist, not having a penny to bless himself with in the wide world. His father, who belonged to Morley, near Wakefield, is dead. The young Asquith wins a scholarship at the City of London School; from that hour forward keeps and educates himself by his own sheer ability leaving the London foundation as very much the ablest boy of his year, and gaining a scholarship at Balliol College, Oxford, where even exhibitions are not to be had for the asking.

After brains, luck is more desirable than wealth. This young scholar soon attracted the attention of Benjamin Jowett, that famous tutor, and, later on, famous Master of Balliol. Those whom Jowett loved live long—and go far; though Jowett has his peculiarities it was not enough, for instance, to be a scholar of his college to attract attention. A man had to have some individuality, some character, some ideas. Asquith probably needed no protection. His Oxford career could only be brilliant. He became president of the Union, rather more of a distinction in those days than now. His first in "greats" went without saying. Among the university prizes—glorious, but of no peculiar value—which he won, was the Craven Scholarship. His son Raymond gained the same distinction a few years back.

Mr. Asquith took his degree in 1871, becoming about the same time Fellow of his college. It is interesting to note that one of his chief competitors at Balliol was the late B. F. C. Custolton, the equity lawyer, whose undoubted abilities never got him higher than the county council.

Now comes the most romantic part of Mr. Asquith's story. Between 1871 and 1876, when he got himself called to the bar, he actually earned his livelihood as an assistant master at his old school! Let him obtain the premiership, as he may do after his great speech to the South Essex Liberals and he will be almost the first premier who at the age of 34 was not either still at the university or doing the grand tour.

Fortunately humble beginnings have no power to keep a man back in law. Blue chins are no more plentiful in the Temple than blue blood. Moreover, Asquiths do not pay their entrance fees merely to adorn briefcases and chambers and back benches. In this particular instance it needed only 14 years to gather a practice both in town and on the Northeastern circuit sufficient to justify silk. But though Mr. Asquith made his living at the law, he still looks like a lawyer and, contrary to all precedent, is back at the law after his interval as home secretary, and he has always been a politician before anything.

He entered parliament as member for East Fife in the midsummer of 1886. His most important brief was political, when he acted as junior to Sir Charles Russell in the Parnell commission. The Eighty Club monopolized much of the time which a less capable man would have had to devote to the intricacies of Order XIV and Byles and Bills.

In August, 1892, when the Salisbury cabinet came back from the country with a minority, Mr. Asquith was deputized by his leader to move the "no

confidence" amendment to the Address to the Throne. His reward was the post of home secretary in the new Liberal administration. Several of his party considered he had received more than he deserved.

He succeeded as an administrator, but showed himself hard and unbending, gaining many enemies who may have to be reckoned with. The fatal coal strike riot at Featherstone in August, 1893, when the mob was fired on by military and two men killed, is perhaps forgotten by laboring men. Is it forgotten by the leaders? Ghosts of excited murderers may not rise to stir between an ex-home secretary and his legitimate ambitions, yet very few respites came from Mr. Asquith, a fact which indicates the uncompromising temper of his mind in little things.

This modest estimate of his prospects would not be impartial were it to ignore unpalatable truths. Mr. Asquith is generally esteemed for his brains and decisive character. But he is not a popular personality in the house of commons, or he used not to be, to within a very recent date. His eloquence is of the mind, not of the heart. He is called cynical. He lacks genial ways. "What can you expect from a cabinet, Dizzy asked once, "that is not even in society?" Mr. Asquith at the start was not even in society. Society has taken him up since; a little too much, some of his friends may think, who recall that almost royal wedding at St. George's in the Whitsun of 1894. London flocked to it without distinction of party or class.

Miss Marot Tennant, who then became the second Mrs. Asquith, enjoyed great reputation for brilliance; her place in London society was, and no doubt remains, an enviable one, as the intellectual equal and associate of those who have helped to govern the nation. The great and ultimate public, without actual taste of her wit, were interested and the official position of the bridegroom helped.

Since that brilliant summer morning Mr. Asquith has been, so to speak, "hung up" in a little side street, the press train to fame and supreme power—and he boarded it so early—has had the signals dead against it. Parties suffer for their inefficient personnel, and efficient men suffer for their parties. Mr. Asquith has chosen to come back to the drudgery of the law courts. He has brought with him a more brilliant countenance, perceptibly aged, and longer hair. Of afternoon Mrs. Asquith may be seen driving him back from chambers, in an elaborate phaeton harnessed to two fiery steeds. Mr. Asquith sits on her right hand. He strikes the onlooker as calm, but prepared for emergencies.

And that may stand for his present attitude in the political world.

Special Bargains IN Boots and Shoes

Notwithstanding that there are two bankrupt stocks of boots and shoes now being offered in this city, I am prepared to meet the prices listed for same, and as my stock is fresh—just opened up—from the manufacturers, I would solicit an inspection before purchasing.

The results that I have obtained since advertising my discontinuance in business have been most satisfactory. The great variety of my stock of clothing and gents' furnishings, with all prices marked in plain figures, has proven an irresistible factor in securing sales.

Those who have not taken advantage of my reductions should call and compare prices and quotations with those offered in any other store in the city. Everything is offered at eastern wholesale cost.

CERTIFICATE
OF THE
Registration of an Extra Provincial Company.
"Companies Act, 1897."

I hereby certify that the "German Mining and Milling Company" has this day been registered as an Extra Provincial Company, under the "Companies Act, 1897," to carry out or effect all or any of the objects herein set forth, to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situated in the City of Tacoma, State of Washington, U. S. A.

The amount of the capital of the Company is one hundred thousand dollars, divided into one hundred thousand shares of one dollar each.

The office of the Company in this Province is situated at Nelson, and Richard Papp, Laborer, whose address is Nelson aforesaid, is the person in charge of the Company.

The time of the existence of the Company is fifty years.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 10th day of June, one thousand and one hundred and one.

(Sd.) S. Y. WOOTTON
Regist. Secy of Joint Companies.

The objects for which the Company has been established are those set out in the Certificate of Registration granted to the Company on the 1st day of February, 1899, and which appears in the British Columbia Gazette on the 15th February, 1899.

He succeeded as an administrator, but showed himself hard and unbending, gaining many enemies who may have to be reckoned with. The fatal coal strike riot at Featherstone in August, 1893, when the mob was fired on by military and two men killed, is perhaps forgotten by laboring men. Is it forgotten by the leaders? Ghosts of excited murderers may not rise to stir between an ex-home secretary and his legitimate ambitions, yet very few respites came from Mr. Asquith, a fact which indicates the uncompromising temper of his mind in little things.

This modest estimate of his prospects would not be impartial were it to ignore unpalatable truths. Mr. Asquith is generally esteemed for his brains and decisive character. But he is not a popular personality in the house of commons, or he used not to be, to within a very recent date. His eloquence is of the mind, not of the heart. He is called cynical. He lacks genial ways. "What can you expect from a cabinet, Dizzy asked once, "that is not even in society?" Mr. Asquith at the start was not even in society. Society has taken him up since; a little too much, some of his friends may think, who recall that almost royal wedding at St. George's in the Whitsun of 1894. London flocked to it without distinction of party or class.

Miss Marot Tennant, who then became the second Mrs. Asquith, enjoyed great reputation for brilliance; her place in London society was, and no doubt remains, an enviable one, as the intellectual equal and associate of those who have helped to govern the nation. The great and ultimate public, without actual taste of her wit, were interested and the official position of the bridegroom helped.

Since that brilliant summer morning Mr. Asquith has been, so to speak, "hung up" in a little side street, the press train to fame and supreme power—and he boarded it so early—has had the signals dead against it. Parties suffer for their inefficient personnel, and efficient men suffer for their parties. Mr. Asquith has chosen to come back to the drudgery of the law courts. He has brought with him a more brilliant countenance, perceptibly aged, and longer hair. Of afternoon Mrs. Asquith may be seen driving him back from chambers, in an elaborate phaeton harnessed to two fiery steeds. Mr. Asquith sits on her right hand. He strikes the onlooker as calm, but prepared for emergencies.

And that may stand for his present attitude in the political world.

confidence" amendment to the Address to the Throne. His reward was the post of home secretary in the new Liberal administration. Several of his party considered he had received more than he deserved.

CITY LOCAL NEWS

Rossland, come over on Saturday and Nelson will wallop you at a game of base ball.

Paul Johnson returned home to Greenwood yesterday afternoon laden down with an armful of good things for his children.

The city has decided to call for tenders for the work of erecting the weigh master's building at the city scales. The building is to cost something under \$100.

Owing to some differences as to membership the local painters' union has decided to withdraw from its affiliation with the Nelson Trades and Labor Council.

Hugh Nixon will be tomorrow on the work of raising the outlet of Cottonwood lake with a view of increasing the storage capacity of the lake for electric light purposes.

The district deputy grand patriarch will install the officers of Nelson Encampment No. 7, I. O. O. F., on Friday evening. All patriarchs and visiting patriarchs are asked to be present.

Moonlight excursions promise to be having cards during the hot weather. There were over two hundred on the Knights of Pythias excursion last evening and a very enjoyable time was had by all.

There is considerable rivalry between three of the saloons for the title of the best advertiser. "Baked egg-nog" with dressing; the Nelson Hotel Bar advertises "frozen egg-nog;" and the Manhattan has on sale six kinds of beer and one kind of buttermilk.

The city has now a direct telephone line from the district messenger office to the fire hall. This will avoid all delay in sending in fire alarms from places in which the messenger boxes are installed, the direct wire making the fire hall at once accessible to the messenger office.

Arrangements are being made for a cricket match on Saturday afternoon between two local elevens. A number of the cricketers have been seen and all express their willingness to play. The names of the teams will be announced tomorrow if all the places are filled by that time.

The members of the local company of the R. M. R. will meet at the armory this evening for the purpose of attending drill at the rifle ranges. A special car has been arranged for to carry the men out and all are requested to be at the armory by 7:15 sharp, as it will not be possible to keep the car waiting after this time.

Pun is being poked at Nelson because one of the wholesale houses here has decided to withdraw from business. Yet Nelson is yet quite a commercial center. According to the business done by the Dominion Express Company, Nelson is the third city in importance west of Fort William. Winnipeg is first, Vancouver second, and Nelson third.

The C. P. R. freight shed at Three Forks was destroyed by fire on Tuesday evening with a box car loaded with merchandise. The fire originated in some mysterious manner in the box car, which was supposed to have been sealed. The extent of the loss can not be estimated at present, as it is not known definitely what the shed contained.

E. E. Chipman of Kaslo, who has more government titles than most crowned heads, was in Nelson yesterday. He was in search of a special provincial constable to preserve the morals of the public along the Lardo railway grade. He says that at Lardo and vicinity the residents are turning the place into fashionable watering resorts such as there are at Manhattan Beach, only that in the Lardo the residents appear to have overlooked the bathing costumes.

It has come to the attention of the provincial government officials that several of the men who are entitled to the exemptions and free homesteads by reason of their service as volunteers in South Africa have sold their privileges to other parties, which has resulted in an attempt to file a blank record upon a large tract of land as representative of a pool of volunteers' grants. This scheme has so far failed for the reason that the act requires that the land so taken up shall be staked in the same manner as the ordinary pre-emption.

The sale of the New Denver town lots, upon which purchase was not completed by the original purchasers, takes place at New Denver today. That it will lead to further trouble is almost certain, as the authorities at Victoria appear to have a very hazy idea of what they are offering for sale. That such is the case is evidenced by the fact that in the list of lots advertised for sale appears those upon which the provincial government buildings stand. Whether the sale will work a hardship or an easement of terms for the original purchasers remains to be seen, as there is not much likelihood of the first sale prices being reached today. Charles A. Waterman & Company have the auction in hand for the provincial government.

A good start has been made on the wagon road which is to give Nelson direct communication by wagon road with mines between here and the May and Jennie property near the head of Party-nine creek. It was originally proposed to continue the road to Ward's Crossing and also to the headwaters of Forty-nine creek, but the appropriation was not sufficient and the extra pieces of the road will now have to go over till next year. In addition to serving the mines the new road will when completed give Nelson a very excellent drive as well as open up a section of country of considerable possibilities in the way of gardening and fruit raising, but which have no means of communication save such as is afforded by a pack trail. Some difficulty was experienced yesterday with the officials of the Nelson smelter who were not prepared to give their consent to the new road passing under the smelter spur, but when informed that their consent was not necessary and that the road would not wait upon it, the smelter men came off their perch and no further objection was offered.

Le Roi and Its Output.

The management of the Le Roi company is evidently as ill thought of in London as it is at Rossland. In the last issue of the B. C. Review, a mining paper published in the interests of mining in this

province, the following appears: The superintendent's report for May has been published, and it contains similar misleading statements to its predecessors. The average value of the ore raised for May is given as \$11.54 per ton. It should be \$9.98. The average value for the first five months of this year is stated at \$12.57, as a matter of fact it is only \$11.22. The average value for February, March, April and May is only \$10. It would be interesting to know why the superintendent persists in giving inaccurate information of this kind to the shareholders and the public. We would also like to know whether in view of the above amended figures, the secretary considers himself justified in stating that the average value of the ore is \$12.63. The value of this ore, as of any other, is what it will bring. Let the smelter figures be published, and we are confident they will prove our statements to be correct.

PERSONAL.

A. Chisholm of Slokan is at the Madden.

A. G. Mackenzie of Vancouver is at the Phair.

C. B. Bowes, advance man for the Georgia minstrels, is at the Queen's.

E. W. Ruff, Rossland's most popular mining broker, is stopping at the Phair.

C. H. Green of Salmo is stopping at the Queen's.

T. A. Rickard of Denver and W. F. Stevens of Leavenworth, Washington, are registered at the Hume.

T. McMannus, proprietor of the Junction hotel at Slokan Junction, was in Nelson yesterday securing supplies for his popular resort.

R. J. E. Scott and wife of Montreal, C. C. Cotton and wife of San Francisco, and J. Brownlee and wife of Medicine Hat are registered at the Phair.

J. B. McKilligan, surveyor of taxes and inspector of revenue for the province, is registered at the Phair. He has just completed a very trying trip through the Boundary district, going in from Vernon.

A. H. Walbridge, who does the cash register business of the province, is registered at the Phair. He has just completed a trip through the Slokan and along the line of the Crown's Nest. He says things are beginning to pick up in the Slokan and that Fernie is the liveliest point he has visited in the province this season.

R. I. Kirkwood of the Slokan is registered at the Hume. He is on his way to look up some properties on Fish creek in the Lardero, which he and his partners have held for thirteen years. Ten years ago they had a chance to sell out for \$50,000, but the offer was refused and since then nobody has wanted the property bad enough to offer anything like this price.

Rossland Miner Changes Owners.

The Rossland Miner is no longer owned by F. Augustus Heinze of Butte, Montana. The present owners are not the Mine Owners' Association, as the interest of that association in newspapers was closed out by sheriff Tuck yesterday, when he disposed of the Nelson Miner and its effects to Miller & Richard, type founders, Toronto. The owners are the Le Roi and War Eagle Mining Companies, and the former company is the real managing editor of the Miner, as ex-governor Macintosh has found out.

Mining Records.

Six new locations, was recorded at the Nelson record office yesterday: Bright Morning, in the Alpine basin, by James Melly; "Dillon" Evening mountain, by Thomas M. Pater; Eastern Fractional and Western Fractional, on Road mountain, by John Adams; and the William Tell, on Falls creek, by Ernest Meyers.

Certificates of work were issued to Thomas Gallon on the Good Hope and Green Horn mineral claims.

Bridgemen Are Rovers.

Speaking of American bridge builders in an article relating to structural iron workers, a writer in Leslie's Monthly says: "It is now here, thousands miles away tomorrow, with these men. Their trade makes them rovers, going wherever a great job may be. At this moment they are in Philadelphia, now in a town on a Canadian river, in camp far in the thinly settled parts of the southwest, even abroad. In New York today there are some men who have only recently returned from India. A gang came back from Egypt a few months ago, having performed a notable exploit in bridging the Nile. There are American iron men down in Cuba, and contracts have been signed for over a score of bridges in South Africa, all to be done by Americans, to be started when the Boer war has run its course."

The Coronation Oath.

NEW YORK, July 24.—In the British house of lords last night the second reading of the bill altering the terms of the royal declaration was carried by an overwhelming majority, says a dispatch to the Tribune from London. The Roman Catholic peers were divided, but the Protestants were alarmed lest the security for the maintenance of a Protestant succession should be diminished, it is impossible to expect that the measure will be passed into law without prolonged acrimonious debate.

A Fatal Fall.

CHICAGO, July 24.—Early today a young woman, supposed to be Mrs. B. Degraft of Racine, Wis., fell from a window on the sixth floor of the Hotel Morrison. She struck an awning and her fall was broken so that she was not killed outright. It is not thought she will recover. It is believed she fell asleep in the window while trying to get air.

STORES AT

KASLO

SANDON

Iowa and Wisconsin at 5 o'clock yesterday afternoon dropped anchor off the naval station at Bremerton. A salute was fired by the battery on shore, which was answered by the guns of the Iowa. It is not definitely known when these vessels will be docked, except that work on them is to be taken up and pushed to completion before the Oregon goes into dock, which will be early in October, when material for her repairs will have arrived. Work on the Wisconsin will be taken up first and will consist of fitting flying bridges, some cabinet work, etc. The Iowa will be docked between the 1st and 15th of September, but it is not possible to say what her movements will be prior to that time. The orders of the Concord have been changed and that vessel will remain at Bremerton until the arrival of commander Blocklinger.

Brooklyn Bridge Accident.

NEW YORK, July 24.—About 6:20 o'clock a number of the vertical supporting cables of the Brooklyn bridge pulled out of their sockets and are now dangling in the air. The accident happened at the north side of the New York end of the bridge and this end sagged from four to six inches. This completely stopped all street car traffic over the structure, but after a temporary delay pedestrians and wagons were allowed to proceed. What caused the pulling out of the vertical cables is not known. The accident caused great excitement and the police reserves were called out.

Auction Sale

HARDWARE, TINWARE,
CROCKERY, GLASSWARE.

Acting under instructions from A. P. Hay, assignee of the estate of George M. Frank, the undersigned will offer for sale by public auction, on the premises on Baker street on

Thursday, August 1st,

at 2 p. m. Sharp.
