

### A GLOBE-TROTTER

### VISITS HIS BROTHER IN NELSON.

### EXPERIENCE OF A VENTURESOME CANADIAN IN VARIOUS COUNTRIES.

David Nelson is in the city on a visit to his brother "Bob." The two Nelsons have not seen each other for several years and have not yet completed the relation of their experiences to each other. The visitor has the most to tell. During all the years that "Bob" has been prospecting over the hills of the Kootenays and pounding a drill in the hope of securing a competence his brother has been globetrotting and laying in a store of experiences for just such a meeting as that of the past couple of days.

Just how much money David brought back with him is unknown, but he could not be very much loser on the trip, since when he started out for Australia he had nothing but the clothes in which he stood. This no doubt accounted for the manner in which he started. He shipped on a vessel as an A. B. The trip occupied close upon three months and at the end of it he was rated one of the best sailors in the fast lane. He spent a couple of years in mining in Australia, but it is now so long ago that most of his experiences have been forgotten. From Australia he struck out for the Transvaal. He was in Johannesburg, in 1888 when it was but a small town and without railway facilities, his first trip being made in on an ox-wagon. David is of the opinion that he might have been there yet had it not been for the war. He was in Johannesburg at the time of the ill-fated Jameson raid. The people who were behind the raid were the Reform party. When the raid first crossed the Transvaal border the Dutch in Johannesburg all made tracks for Pretoria. This left the mining town in the hands of the Reform party, and its leaders at once started in administering it. Their first move was the drafting in of a force of police and about 1000 men were armed and started to drill. David was one of the 600. He was not an enthusiastic drillee, but there was little choice for those in the town at the time. The Reform police was divided into squads according to their nationality. On one square there would be a company made up of Irishmen. Further along there were Scotchmen and Colonial and the Americans were known as the George Washington company. The Reformers had plenty of arms. When their movement was well started they produced 4000 Lee-Metford rifles and several Maxim guns, but their use was more difficult than had been imagined. Nelson says he probably knew as much as any of the town-guard of the use of firearms, but he could not have loaded his rifle when it was served-out to him—his life had depended upon it, and as far as the Maxim: went there was none but a few army men and police knew anything about them. The Reform party lasted about seven days in Johannesburg. At this time Jameson had started on his victorious march to Pretoria and met his Waterloo. It was not so much the fault of Jameson or the men he had with him that his raid ended so disastrously. They did not appreciate the magnitude of the task they had mapped out for themselves. The Boers were well prepared and they arranged for the reception of the raiders with the precision which characterized the first portion of their campaign with the British. Jameson was hopelessly surrounded, and the only thing left for him to do was to get out of the Cape as best he could. Then the Dutch came back to Johannesburg and it was time for the Reform sympathizers to get out. The leaders who did not were all roped in and the reform movement was dead.

Nelson remained in Johannesburg until the declaration of war. Following this the passenger business to the Cape was very brisk. He traveled to the Cape almost as light as he started on his sailing trip from Vancouver. This trip to the Cape comprised about all the hardships of war that came under his personal observation, but even this was sufficient. The trip is about 1000 miles long but so little consideration was shown to the women by the refugees that they were obliged to remain upon their feet throughout the entire journey. When he left Johannesburg Nelson did not intend to do more than take a holiday until hostilities should cease, but a few weeks' experience with famine prices at the Cape and the uncertainties of war convinced him that his financial resources would not be equal to the strain. He waited long enough to participate in the welcome of general Buller at the Cape, but did not wait for him to eat his Christmas dinner in Pretoria.

During his years of residence in it Nelson was very favorably impressed with the Transvaal as a mining country. The conditions, however, are altogether different from those which obtain in this province. All of the manual labor is done by blacks. These are recruited by the mining companies from

the different tribes, some of them being brought several hundred miles. The usual practice was for the company to contract for the supply of a bunch of such much per head. The man supplying the blacks generally dealt with the chief of the tribe. The supposition was that the commission or head money was divided between the agent and the chief. At any rate the chiefs generally made a draft from their tribes of the number of men required, and as a rule the men so drafted went along with the agent without trouble. All blacks brought in this way were required to sign an agreement for three years' work. They were paid at the rate of from \$15 to \$20 per month and found, and the amount paid to the agent for securing them came out of their wages. Without the black labor the mines of the Rand could not work. The most surprising thing in connection with their employment was the facility with which they learned how to drill, and they were worked in the mines as close as flies in a molasses barrel. They had white superintendents who directed the work, but the blacks should be driven and when they were drilled they were charged and shot by the superintendents. Small as their wages appeared the blacks were a very happy lot. As a rule they all sang at their work, and where there were a number of them working together they sang in chorus and kept time with their hammers. Upon the wages paid by the companies the blacks, if they saved their earnings, could retire for life at the end of six years' work. In this respect they were not unlike the whites—they had great appetites for anything in the way of stimulants and the price did not stand in their way if they had it. This, together with a general disposition not to work too hard, resulted in considerable loss to the companies in the way of time, the average black not getting in more than four days' work in the week.

The employment of white miners in the Transvaal is restricted almost exclusively to superintending the blacks and in taking work for the companies under contract. In the latter case the manual work is also done by the blacks, the company for whom the work is being done furnishing the labor as well as the other supplies. All company blacks are furnished with a pass and when found away from their quarters are returned by the police, but the desertions are frequent. There are also some blacks who refuse to work underground in any capacity, but there is no scarcity in the labor market.

### A LONG LIST OF SUICIDES

#### At Winnipeg.

WINNIPEG, November 5.—The following suicides and attempts at suicide have taken place in the city within the past three weeks: October 18th, N. F. Davin; October 19th, Robert Nichol; October 20th, Robert Nichol (second attempt); October 28th, Mrs. Hamilton; November 3rd, Albert Miller; November 4th, John McDonald. The last name is that of an American, who registered a week ago last Saturday at the Exchange hotel from South Bend, Indiana. He was accompanied by Frank Tracey, who registered from Buffalo, New York. Both McDonald and Tracey appeared to have plenty of money and seemed to wish to become acquainted with the country. About half past 7 o'clock last evening the hotel porter looked into McDonald's room and found him lying on the floor in a pool of blood. Another look showed that the man's throat was cut and that the bed was also saturated with blood. Dr. Baird was called in and found the man still alive. Constable Baker took McDonald to the hospital, where he was placed in a ward adjacent to Albert Miller, who lies between life and death from an act committed under similar circumstances. The razor which McDonald cut his throat with was found on the floor of the room. It was a new one and had apparently been procured for the purpose. No reason beyond a fit of despondency is assigned by his friends for McDonald's act. This act is believed to have been very desperate and no vital point was touched. The doctors say he has a good chance of recovery.

### The Treacherous Filipino.

MANILA, November 5.—A plot to massacre the American garrison at Manocada, province of Taraca, island of Luzon, has been revealed by the wife of one of the conspirators. Several of the lower officials are implicated in the murderous scheme. The woman who revealed the plot hid a detective beneath a house in which the leaders of the conspiracy were meeting. Arrests followed and many incriminating papers were seized. The plan was to set fire after dark to a house close to the barracks and when the soldiers came out to extinguish the flames, 150 conspirators armed with bolos were to rush on them, capture the arms and proceed to massacre the garrison.

The United States Philippine commission today passed the treason laws with slight alterations. Several Filipinos spoke against them.

### English Coast Still Fog Bound.

LONDON, November 5.—Although the streets of London were traversable today without the aid of lamps the coasts were still fog-bound and railroad and other traffic much impeded. The cross channel steamers had the utmost difficulty in making their ports in spite of the fact that the fog guns were being continually fired. Traffic on the Clyde has been blocked for twenty-four hours and steamers bound for Ireland have been unable to leave port. A number of steamers bound for Glasgow have taken twenty hours to traverse the twenty-

four miles of river. On the Humber all traffic is suspended. There have been minor wrecks here and there, and it is reported on the coast. On the Thames traffic is at a standstill. The hospitals of the metropolis say that there were about 100 cases of accidents treated during the night. The mercury hovers about the freezing point. Continental reports show that Calais, Ostend, Lyons and Munich are among the points fog-bound.

### Frenchman's Report on Nome.

SEATTLE, November 5.—In his report to the French government on Alaska, A. Schneider, the French consul at Nome, will discourage investments by capitalists of that country in the north until better laws have been passed by congress for the protection of vested interests there. At the same time he will report that Nome and the adjacent districts are wonderfully rich in gold and to the man with means they offer a splendid opportunity for mining ventures. The consul arrived here recently on one of the last boats from Nome and left for Paris to report to his government.

### Insane Mother's Awful Act.

MILWAUKEE, November 5.—An Evening Wisconsin special from Baraboo, Wisconsin, says: "At Merrimac last evening Mrs. George Lee opened the large stove door and thrust her baby into the fire in the presence of her husband and nurse. The baby was but three weeks old and was practically consumed before being gotten out. Mrs. Lee tried to kill another child three years ago with a hammer. She was in the Mondota asylum for some time and was taken there again today."

### BEAR IT IN MIND.

AND IT IS UNDERSTOOD THAT THE HIGHEST MINIMUM LOAD FOR ANY MONTH DURING THE CONTRACT HEREUNDER SHALL BE THE MINIMUM LOAD FOR EACH OF THE ENLARGING CONTRACTS DURING THE CONTRACT, UNLESS THE MINIMUM IS INCREASED BY THE CORPORATION.

The words in capitals are a part of section 4 of the Power by-Law No. 101.

### Both Safe and Well.

NEW YORK, November 5.—A dispatch to the World from Samakov, Bulgaria, says Miss Ellen M. Stone and Mrs. Tsilka have been seen within the last few days by emissaries sent by American diplomatic agent Dickinson from Sofia to treat with the brigands who abducted the missionaries about a ransom for the American woman. Both captives are safe and well. It is expected that their release will be arranged soon.

### The Exchange of Communication with the Brigands.

The exchange of communication with the brigands are still going on. It has been ascertained that the band intended to kidnap Mr. House, missionary at Salenica, at the same time as Miss Stone, but the design failed. Two days before Miss Stone was abducted the brigands fired five shots at a guardhouse near Raslog, and the local authorities knowing there were bandits in the neighborhood should have supplied an escort.

### Lord Kitchener's Reports.

LONDON, November 5.—Lord Kitchener in a report to the war office under date of November 4, giving further details of the recent engagement near Brakenlaage, eastern Transvaal, between colonel Denison's column and the Boers, says: The Boers were unable to remove the guns they captured until a British ambulance went out, when under cover of the ambulance the burghers captured them off. The Boer losses were undoubtedly heavy, but no correct estimate of them is obtainable. Commandant Opperman was killed and Chris Botha was wounded. Lord Kitchener further reports that Cape Colony to the eastward of the western railway is cleared of Boers with the exception of the Fouches-Mayburg-Wessels commando of 400 men, with which general French is dealing.

### Schley Court of Inquiry.

WASHINGTON, November 5.—The time of the court was entirely devoted today to hearing arguments in the case of admiral Schley. Mr. Hanna closed his argument in behalf of the department which had begun yesterday and captain James Fyler did not conclude his argument for admiral Schley. Mr. Hanna considered the retrograde movement today, the bombardment of Colon and the charge made against admiral Schley of disobedience of orders. Captain Parker had only reached the coaling question when the court adjourned. He defended the conduct of his client at all stages of the campaign so far as he went. It is said that captain Parker will conclude his speech tomorrow, when Mr. Raynor will begin.

### Chicago Murder Mystery.

CHICAGO, November 5.—The body of a man about thirty years of age, whose head had been almost cut off, was discovered in a hour barrel on a strip of prairie near Rice street and Western avenue early today. The victim's feet were securely bound together and the body doubled in a sack. Besides the wound in the neck the face had been gashed and disfigured. From a letter in the man's pocket the body is believed to be that of Antoine Napole, who with 25 other Italian laborers rescued Chicago last night from Iowa Center, Iowa. Chief of police O'Neil believes the man was the victim of some vendetta.

## VALE, TAMMANY

### LOW'S SWEEPING PLURALITY IN NEW YORK.

### MAYOR-ELECT SAYS IT IS THE PEOPLE'S VICTORY—CROKER'S PHILOSOPHY.

NEW YORK, November 5.—A drizzling rain was falling and a chill wind swept the streets when the polls opened here today and the early vote was seriously affected. In many of the up-town polling places there were no voters on hand when the boxes were opened at 9 o'clock, but in the more densely populated districts there were crowds at the polls. In the nineteenth election district, of which state senator Timothy J. Sullivan is Democratic leader, 560 men voted in the first 42 minutes. The polling places were all closely watched, the Democrats and the Fusionists each having at least two poll watchers in every election district. Two city policemen were on duty in each election district, seventy-five policemen were on reserve at police headquarters and two patrol platoons were on hand so that men could be hurried to any part of the city where they might be needed. Seth Low, Fusion candidate for mayor, voted at 8 o'clock and 20 minutes later Justice William Travers Jerome, Fusion candidate for district attorney, cast his ballot.

OYSTER BAY, N. Y., November 5.—President Roosevelt cast his vote about 10 o'clock today in the polling place in the second story of Fisher's hall. He voted in the presence of a crowd of his old neighbors of Oyster Bay.

NEW YORK, November 5.—Seth Low, former president of Columbia University, and four years ago the citizens union candidate for mayor of Greater New York was today elected the second mayor of Greater New York by a plurality ranging anywhere from thirty to forty thousand. Defeated Edward Sheppard Hargreaves, the Democratic nominee of Brooklyn, has challenged the result. The campaign was an exciting one and the vote, though somewhat less than the presidential election a year ago, was the largest ever polled in a municipal contest in this country. In addition to the canvass for mayor, public interest largely centered in the nomination by the Fusionists of William Travers Jerome for district attorney and Justice Robert Van Wyck by the Democrats for justice of the supreme court. Both the candidate for district attorney and justice of the supreme court were voted for only in the territory contained in New York county. Returns received up to 11 p.m. indicate that Jerome has been elected by a comfortable plurality and that mayor Van Wyck has been defeated. The latter ran behind his ticket from 15 to 20,000. Returns also indicate the complete triumph of the Greater New York fusion ticket. Charles Vincent Fornes, the nominee of the Citizens' Union, and the Republicans defeating George Vanhooken, the Democratic nominee, E. M. Grout, for the past four years Democratic president of the borough of Brooklyn, now the Fusionist nominee for controller, also defeated W. W. Leard, Democrat. Reports as received from the various sections of New York state show that the Republicans will retain control of the lower house of the state legislature. In the various municipal contests reported from up the state, the most interesting elections noted were those of Albany, Troy, Rochester, Syracuse and Buffalo. The city of Albany will carry the Republican ticket. Senator David B. Hill took no active part in the local canvass.

The election in Troy was lively, a number of arrests for illegal voting being made. Former United States senator Murphy headed the fight for the candidate of the Democrats, while former governor Bluck managed the campaign for the progressive Democrat-Republican ticket. In Buffalo the entire Republican city and county tickets were elected, Erastus C. Knight, the state comptroller, being chosen mayor. The result in Rochester was close, but mayor Warner's friends claim his election over the Republican candidate. In Syracuse mayor McGuire, for a number of years past the Democratic mayor of the city, was defeated by Kille, the Republican nominee.

The following papers concede the election of Low (Fusion candidate for mayor) by a plurality anywhere from 30,000 to 55,000: Brooklyn Daily Eagle, the Evening and Morning World, the Evening Journal, the Times, the Herald and the Press.

Seth Low at 9 o'clock tonight said at his home where he was receiving election returns: "I suppose it is safe to assume the result of the election is now assured. It bears out what my friends have anticipated and I am very much gratified by the result. This is a pleasant outcome of a hard struggle. I appreciate heartily the splendid support the newspapers have given this movement. I think they have been a splendid and important factor in bringing about the result.

"The outcome of this election is a splendid vindication of universal suffrage. From all points of the city have come the votes that have rebuked the Tammany orgy of the last four years. All the patronage of city and limitless money have not availed against the aroused indignation of the people, and it is safe to say that absence of government and government for private gain will not be seen again in New York City for many a day. This is no man's tri-

umph, but is the people's victory. The agencies that have brought it about are many. Those who labored so long to bring about the successful fusion so largely are entitled to the greatest credit. For myself, I ask for the generous and constant support of the community in the great task to which it has summoned me, and I dedicate every power that I have to its loyal service.

Richard Croker at 8:45 tonight conceded the election of Seth Low, Fusion candidate for mayor, but Mr. Croker was not willing at that time to give up the county ticket. He said he was very much disappointed at the Brooklyn vote, as he had expected Sheppard to make a good showing there, it being his home borough. As to the cause for the defeat of the Democratic ticket, Mr. Croker said he was inclined to ascribe it to the large silent vote and the fact that the people sometimes feel that they want a change.

Mr. Croker, Maurice Untermyer and senator T. D. Sullivan were together at dinner tonight and it is said on good authority that a little later Mr. Croker asked senator Sullivan who he desired as leader. Senator Sullivan answered that John P. Carroll would be pleasing to him. The leaders of Tammany Hall and turned it over to John P. Carroll. The party proceeded to Tammany Hall, where John P. Carroll was awaiting them. He was apprised of the purpose of Mr. Croker but said nothing. He accompanied Mr. Croker to the Democratic club in a cab and going upstairs remained almost an hour closeted with him. It was after this conference that Mr. Croker announced: "This is my last campaign."

### Boxers Shown Imperial Favors.

PEKIN, November 5.—Na Tung, former Boxer leader, has been appointed to the Chinese foreign office today by an edict. This appointment is considered a test of the attitude of the Chinese to the restoration of the Boxers to imperial favor. Not long ago Japan sounded some of the powers regarding the propriety of another protest against the Manchurian convention between Russia and China and was disappointed by a lack of interest in the question on the part of the United States and Great Britain.

### ELECTIONS IN OTHER STATES.

California.

SAN FRANCISCO, California, November 5.—8:15 p.m.—Incomplete returns received up to this hour show that Schmidt, the union labor candidate for mayor, is running far ahead of his Republican and Democratic competitors.

### Utah.

SALT LAKE, November 5.—Returns from 33 voting districts of Salt Lake indicate the election of Thompson (Rep.) for mayor over Laedy (Dem) by about 500 plurality.

### Virginia.

RICHMOND, Virginia, November 5.—Colonel J. Hampton Hogge, Republican candidate for governor, was formally elected from the voting booth at Blackburg today. He challenged the votes of some cadets at the Virginia Polytechnic Institute and several stalwart cadets elected the candidate.

### Kentucky.

LOUISVILLE, Kentucky, November 5.—Charles F. Grainger (Democrat) is elected mayor of Louisville by over 8000. Every member of the school board of Louisville elected today is a Democrat. Returns and reports from all over the state indicate that the Democrats have been successful.

### Massachusetts.

BOSTON, Massachusetts, November 5.—Returns from forty cities and towns give Crane (Republican) 5214; Quincy (Democrat) 3413. The same last year gave Crane (Republican) 11,029; Paine (Democrat) 4198. This shows a falling off in each party of about 27 per cent and indicates that the Republicans have carried the state by 79,000.

### Iowa.

DES MOINES, Iowa, November 5.—Returns from this state are coming in very slow, the polls having been held open until 7 o'clock in most precincts. Figures from ten precincts show a Republican vote of 1102, Democrats 711. The same precincts two years ago gave the Republicans 1233, Democrats 913. This shows a net Republican gain of 147, which if continued in the same ratio will make about 32,000 net Republican gain in the state and give Cummings for governor a plurality of \$7,000.

### Maryland.

BALTIMORE, November 5.—Late returns show large Republican gains in the city and it is asserted the Republicans have carried it by 5000. They also claim all the legislative districts in Baltimore city.

### South Dakota.

SIoux FALLS, November 5.—At midnight the indications are that the Republicans have elected eight judges, but the Democrats claim the election of Bennett in the Third and McGee in the Seventh districts.

### Nebraska.

LINCOLN, Nebraska, November 5.—Indications at 10 o'clock based on scattering returns were that Nebraska had reaffirmed her verdict of last year in favor of the Republicans. Figures up to that hour, mainly from the smaller towns and a few country districts, showed a Republican gain of 4 per cent from a year ago, when the average Republican majority was \$900. If these gains are maintained, Segsworth (Republican) for supreme court judge will carry the state by 6000 to 10,000.

### New Jersey.

NEWARK, New Jersey, November 5.—The early returns received from all points in the state indicates that Murphy (Republican) for governor has been elected and that the election is simply a matter of plurality. The returns thus far received indicate that Murphy will have a larger plurality in the state than Voorhes received three years ago. The Republicans claim the state by 10,000. The returns thus far indicate the election of Murphy by at least 7,000.

Later returns bear out the indications that Franklin Murphy (Rep) has been elected governor by about 10,000 plurality. Both branches of the legislature will be Republican.

### Preparing the New Treaty.

WASHINGTON, November 5.—Ambassador Choate, who arrived in Washington last night, called upon secretary Hay today and had a long talk about the projected Hay-Pauncefote treaty and other matters which the United States ambassador at London has been concerned in during the last month. Mr. Choate will remain in Washington until tomorrow. Lord Pauncefote, British ambassador, has notified secretary Hay formally that the British government expects the American proposition relative to the Clayton-Bulwer treaty to be the basis for a new treaty. Within a day or two the state department will begin the preparation of the convention itself. As this document is expected to come in for the most minute scrutiny and the closest criticism when it reaches the United States senate, the department officials are preparing to exert themselves even more than usual to insure absolute accuracy of expression and to avoid ambiguities which might lead to misunderstandings in the future. It is possible that this work will be finished in about two weeks.

### Boxers Shown Imperial Favors.

PEKIN, November 5.—Na Tung, former Boxer leader, has been appointed to the Chinese foreign office today by an edict. This appointment is considered a test of the attitude of the Chinese to the restoration of the Boxers to imperial favor. Not long ago Japan sounded some of the powers regarding the propriety of another protest against the Manchurian convention between Russia and China and was disappointed by a lack of interest in the question on the part of the United States and Great Britain.

### BEAR IT IN MIND.

AND IT IS UNDERSTOOD THAT THE HIGHEST MINIMUM LOAD FOR ANY MONTH DURING THE CONTRACT HEREUNDER SHALL BE THE MINIMUM LOAD FOR EACH OF THE ENLARGING CONTRACTS DURING THE CONTRACT, UNLESS THE MINIMUM IS INCREASED BY THE CORPORATION.

The words in capitals are a part of section 4 of the Power by-Law No. 101.

### LIPTON IN A BIG LAND DEAL.

#### Gets Options on Truck Farms.

SAVANNAH, Georgia, November 5.—Captain Sam B. Hunter of Macon, Georgia, representing a company of English capitalists, has taken options on lands in Dougherty, Lee, Calhoun, Terrell, and other counties in this part of the state, and there has been much inquiry and speculation as to what it all means.

A representative of the Lipton Company of London, Limited, called upon secretary of state Phillip Cook in Atlanta last Friday in reference to a matter that may mean a great deal to the South, and especially the southern part of Georgia, and which bids fair to revolutionize the farming industry of the South.

John Alton of London, who came duly accredited as the agent of the company of which Sir Thomas Lipton is the president. The public has been duly informed heretofore of the 3000 stores which the Lipton company has in all parts of Europe, the headquarters of which are located in London. The management has found it difficult to supply the demand for the products of the truck farms, and, after duly considering the magnitude of the undertaking, with all the accompanying drawbacks has hit upon the scheme to establish a large stock of trucks at intervals in the southern part of Georgia. In order to export the products the company will establish a line of steamers between Savannah, Georgia, and Liverpool, England. It is proposed to bring over a thrifty class of German gardeners, and they will serve the double purpose of bringing the land up to the full measure of its productivity and in inculcating the lesson of diversified farming among the "naïve." The company will establish cold storage plants and will contract with the farmers in the neighborhood to take all the products of their farms, paying cash there for them, except the cotton and corn. This they do not propose to touch at all. All other things raised, such as beans, potatoes, squash and sweet turnips, kershaws, onions, sugar cane syrup, in fact everything producible except cotton and corn. They will take all the steers raised, and will contract with the neighboring farmer for all these things, so that the farmer may be reasonably assured of a market before planting.

### Colombia and Ohio.

LONDON, November 5.—It is reported that Colombia has signed a secret treaty with Chili, undertaking to support Chili at the Pan-American congress in Mexico City, says the Buenos Ayres correspondent of the Times. Chili promises to supply Colombia with munitions of war against Venezuela. It is stated that Chili had previously offered warships to Ecuador.

### Jennings, Louisiana, November 5.

FIVE blocks of the main business part of the town were destroyed by yesterday's fire, which started in the restaurant of J. Dudley. The loss is estimated at \$160,000, insurance about one half.

## HIGH-GRADE ORE

### JOHN L. RETELLACK MAKES A LUCKY STRIKE

### ON THE WASHINGTON, ONE OF THE OLDEST LOCATIONS IN THE SLOCAN.

SANDON, November 5.—[Special to The Tribune.]—A good strike is reported from the Washington, in McGuigan basin, today. The miners in the lower tunnel have broken into a body of high grade ore. The extent of the find is not yet known, but it is valuable beyond a doubt, and establishes the Washington as a steady producer. The Washington is one of the oldest properties in the Slocan and was at one time a heavy producer, but until recently the property was considered to have been dug out. The former management was poor and involved the company in debt. John L. Retellack was a heavy stockholder and also a creditor of the company to the extent of \$8000. In order to get even he took a lease and bought last summer on the Washington and the American Boy, which adjoin. He has been working a small force all summer with reasonable success in the upper levels, but had at last decided to abandon the lower crosscut when the strike was made. The old company spent a lot of money on this tunnel in the summer of 1897, but never exposed any values.

### Construction Work Commenced.

PHOENIX, November 5.—[Special to The Tribune.]—The active work of construction on the pole line of the Cascade Water, Power & Light Company from Cascade to Phoenix was begun yesterday. The contract for the erection of the poles and the stringing of the wires was awarded this week to Lorne A. Campbell of Rosland, manager of the West Kootenay Power & Light Company. B. O. Bowman, who was also in the employ of the latter, contracted until the added improvements to that plant at Bonington Falls was discontinued as a result of the Rosland strike, has been appointed superintendent of construction of the new Boundary power line. Both gentlemen were in Phoenix yesterday making arrangements to push the work as fast as possible. Between 50 and 60 men will be employed and a large share of them have already started to work. For the time being headquarters for the construction gang will be located at Hartford Junction, two miles from Phoenix. The poles for the new line have been distributed along the right-of-way for some weeks, and the cross-arms were recently also distributed.

The right-of-way has been cut out from Cascade to Phoenix, a distance of 21 miles, and is 132 feet wide. Two separate duplicate lines will be put up of the most substantial and up-to-date description, and every possible means will be used to ensure a continuous current being maintained. The heaviest copper wire will be used to this end.

A contract has also been let for the construction of the power house at Cascade, which will be according to the engineers' plans, 200 feet long by 45 feet wide. John Copp of Rosland has been awarded the contract for the erection of the power house and head works at Cascade. It is estimated that the two contracts will amount to between \$50,000 and \$60,000.

The owners of the Cascade water power stand in the unique position of having business awaiting them as soon as they get the line constructed and in operation. Both the cities of Greenwood and Phoenix will use the power for lighting purposes as soon as it is available, and it is anticipated that a number of the mines in the Boundary will also utilize it at no distant date.

### Rosland Local News

ROSSLAND, November 5.—[Special to The Tribune.]—Mr. McEwan, who for the past three weeks has been busy measuring and sampling the Le Roi mine, under J. R. Fritchville's direction, was asked this evening if he had accepted the position of general manager of the Le Roi in the place and stead of Bernard McDonald, as mentioned today in a Spokane paper; but the mining engineer in question declines to discuss the matter or make any statement.

Julius de Latharhe, the new manager of the Northport smelter, is in town this evening receiving the congratulations of his friends on his appointment. There was a general fight last night among the non-union employees of the Josie, at the mine boarding-house, and some 20 or more of them were badly cut up in the row.

A charge was made today that in one of the non-union mine boarding-houses on the hill whisky is being sold daily to the miners, although no license has been taken out, and the row in the Josie is said to have resulted from the free sale of liquor.

### Railway Station Burned.

WINNIPEG, November 5.—News reached the city today of a disastrous fire at Mariapolis, a station on the Morris-Brandon section of the Canadian Northern railway between Greenwood and Swast Lake. The railway station was burned to the ground and all records destroyed.

# HUDSON'S BAY COMPANY

## THE BALL ROOM

We cannot go into details, but we would ask you to have a look at

## OUR WINDOWS

We have the choicest, newest and daintiest goods procurable in the best markets of the world, and at prices which will agreeably surprise you.

# THE HUDSON'S BAY COMPANY

BAKER STREET, NELSON, B. C.

### WALL PAPER

Perhaps it's a bedroom you're going to have papered, the hall or parlor. It really makes no difference which it is, we have paper to suit all rooms. Papers were never so pretty as they are this season. Just now we are opening our new fall stock and having a clearance sale of the short lots left over from the summer's business, all good papers, too, and many of them are in quantity sufficient for any room. Ceilings and borders to match in most cases.

THOMSON STATIONERY CO. Ltd  
NELSON, B. C.

May, June, July, and August. The average property owner will imagine that \$4500 a year is not much to pay for 100 additional horse-power for a year. But suppose the city, from natural causes, is required to obtain 300 horse-power in February, during extreme low water, the city must then pay for 300 horse-power for ten months in the year, or \$10,250 for power for ten months, although the city may not use 50 horse-power during seven months of that time. Had the city gone to the West Kootenay Power & Light Company and said: "We will take 100 horse-power from you for a year, with the understanding that if we need more during the months of low water, and you can supply it, we are to have it for the time actually used at the same rate per horse-power as we pay for the 100 horse-power," the city would have been protected, and the West Kootenay Power & Light Company would not have been treated unfairly. The mayor is reported as saying, the city officials will see that no more than 100 horse-power is ever used. Then why contract for more than 100 horse-power? City officials cannot always control the elements, and those who follow Mayor Fletcher and alderman Selous may be just as negligent of the city's interests as these two worthy gentlemen have been. Every property-owner should carefully read the by-law before marking his or her ballot, and if they do the cross mark can only be placed against its ratification.

The manager of the West Kootenay Power & Light Company says that the machines in the city electric light station are not efficient. He says the Edison machines, which have been in constant use for six years show a loss of 16 per cent of efficiency, that is, they show 84 instead of 100 per cent efficiency. They are rated as having a carrying capacity of 2500 16 c.p. lights. They therefore should not carry over 2100 lights. How many are they carrying? According to the city electrician's report they are carrying 2475 16 c.p. lights, or 375 more than they should carry. According to the manager of the W. K. P. & L. Co., the alternating machine, which has been in use since the fall of 1899, or only two years, is not efficient by 30 per cent. It is 70 instead of 100 per cent efficient. It is rated as a 2500 16 c.p. light machine. Seventy per cent of 2500 is 1750. According to Mr. Campbell that machine has been carrying 1900 lights, or 150 more than its present capacity. These figures would show that the city's plant is overloaded 525 16 c.p. lights, or to the extent that could be remedied by using 93 of Mr. Campbell's electrical horse-power, for is he not supplying 1900 lights now with 117 horse-power? Yet in order to get the 33 horse-power which it really needs, the city must take and pay for 100 horse-power, according to the by-law that has been so skillfully arranged between Mr. Campbell and Mayor Fletcher.

According to the statements of the manager of the West Kootenay Power & Light Company, Limited, of Rossland, that company is now supplying Nelson with 117 electrical horse-power. In other words, it takes 117 effective electrical horse-power to supply efficient lights to all those who were formerly served by the alternating dynamo which is now in a repair shop in Spokane. That alternating dynamo when in use is belted to a Pelton wheel that was guaranteed to develop 185 effective horse-power. If the Pelton develops 134 effective horse-power and all the lights on the dynamo to which it is belted only require 117 horse-power to make them effective, what becomes of the 63 horse-power the Pelton wheel develops that is not used? There is a screw loose somewhere. The Pelton wheel must be loosing or the alternating dynamo must be out of order. Which is it?

The majority of the city council did not appear to like the petition that was presented to the council on Monday night. The petition is the first step that must be taken if the city is to have a power plant that will place the city in an independent position. All sorts of excuses were made, in order that the prayer of the petitioners be not granted. It did not take the council two weeks in which to make up their minds to submit a by-law when the West

### NOTICE TO SUBSCRIBERS BY CARRIER.

On Saturday next, subscribers whose Tribunes are delivered by carrier will be expected to pay the carrier TWENTY CENTS, the subscription price for the current week.

A reading of the West Kootenay Power & Light Company by-law that is to be submitted to the property-owners of Nelson for their approval shows very clearly that the manager of the company that has its headquarters in Rossland knows more about making a deal which is advantageous to his company than the city council of Nelson know about protecting the city's interests. The proposed by-law is a jug-handled one, and the manager of the West Kootenay Power & Light Company has hold of the handle. Section 4 of the proposed by-law contains the "nigger in the woodpile." The W. K. P. & L. Co.'s nigger is the word "minimum." That word means that at no time can the city take less than so much power, no matter if it should not need one-half of the minimum amount of power used in any month during the life of the agreement. The city must pay for 100 horse-power from the beginning of the agreement whether it uses it or not. Should the city use 151 horse-power in January, it must continue to pay for 150 horse-power for the remaining ten months of the year. Should 201 horse-power be used in February, then the city must pay for 200 horse-power for the remaining nine months of the year. Should the city use 251 horse-power in March, then the city must pay for 250 horse-power for the remaining eight months of the year, notwithstanding the fact that the city has an abundance of water, much more than it can use, during April,

Kootenay Power & Light Company, petition was laid before them. That petition was hawked about for signatures by Mayor Fletcher and another paid city official, and as soon as it was received it was acted on by the council. The machine was specially greased for that occasion. On Monday night the machine had not been oiled, and it will not be for another two weeks yet. But everything comes to those who can wait.

What do people say of those who deride the credit or financial standing of their neighbors? They say such people are "knockers." What should people say of a man who derides the financial credit of the city he serves as mayor? Mayor Fletcher says the City of Nelson could not sell \$350,000 of its debentures, which is an open declaration that the city of which he is mayor is not in good standing financially. Is that not the worst kind of "knocking"?

More Deaths From Anti-Toxine.  
ST. LOUIS, November 5.—The twelfth death from tetanus resulting from the treatment of diphtheria patients with anti-toxine supplied by the city occurred today, when Mamie Keenan succumbed. Her brother is not expected to recover. Her death makes three victims in the Keenan family.

CITY AND DISTRICT.
All holders of provincial licenses for hotels in Nelson and Ainsworth districts which expire on December 31st should tend to their applications for renewals without delay to W. H. Bullock-Webster, chief license inspector.
Chief Lillie of the fire department returned from Rossland last night. He did not purchase the team of horses he went after as they were too light, only weighing 2500 pounds with their harness on.
Jerry McBride, a rancher, died in the Kootenay lake hospital yesterday from an aggravated form of erysipelas. The deceased was well known in Nelson, having taken up a ranch a short distance above Robson upon the completion of the Columbia & Kootenay branch.
P. F. and Andrew Johnstone arrived in Nelson last evening with the body of their brother Thomas Johnstone, who was drowned in Moyie lake on Wednesday last. The body was recovered by grappling 150 feet from the point where the canoe upset. It will be taken to Olympia for burial.

It is reported that the London & British Columbia Goldfields has made a payment of 5 per cent upon its bond on the gold prospect recently discovered by Godfrey Birtch on Sheep Creek. The bond is generally understood to call for the payment of \$35,000 if the development of the property warrants a completion of the purchase.
Yesterday was Guy r'ox day, the anniversary of the famous gunpowder plot which nearly 300 years ago created somewhat of a sensation in Great Britain. The feeling which prompted the conspirators long ago to wipe out Britain's king, house of lords and house of commons in one blast has died out years ago and the plot is all but forgotten everywhere save in England. But in Merric England the king's best servers make a search of the parliament building vaults as often as the anniversary of the plot comes round for any powder that may be secreted there.
Residents of Nelson who endeavored to avail themselves of the offer of free lands made by the province of Ontario to all the veterans who served in the Fenian raid have been disappointed. From replies that have been received it is evident that there are more applicants for free lands, after a lapse of more than 35 years than there were volunteers in service at the time of the trouble. One of the Nelson applicants has received the following reply to an inquiry set on foot by himself: "When in Toronto about the beginning of October I called at the crown lands office with regard to your claim for land. I was told by one of the men in the office that nothing was being done at present and that some new regulations and very likely a new act of parliament would have to be passed before any action could be taken beyond simply filing applications. He stated that the department had up to date received over 15,000 applications, and as such a number was absurd, nothing could be done at present. I therefore filed your application and the matter will have to stand for the present."

The annual meeting of the Nelson Curling Club, which was held in the board of trade room last evening, was attended by upwards of fifty of the members. The chief business was the election of officers for the ensuing year and resulted as follows: A. H. Buchanan, honorary president; F. A. Tumblyn, president; John Rae, vice-president; Stuart G. Campbell, secretary-treasurer; A. Carrie, umpire; who, together with judge Forin, C. Morrison, and G. McLaghlin, will form the executive. It was decided to increase the membership fee to \$1. Judge Forin, A. H. Buchanan, and John Rae were appointed delegates to represent the club at the meeting of the executive of the Kootenay Curlers' Association, which meets in Rossland shortly. At this meeting the place for the holding of the annual bonspiel will be decided upon and an effort will be made to secure it for Nelson, there being a promise that Nelson should have the bonspiel this winter. It is said the bonspiel will either go to Nelson or Sandon. Messrs. Tumblyn and Rae were appointed a membership committee, the work of which will be to drum up members for the season.
Nelson Mining Division Records.
The following new locations were recorded at the Nelson record office yesterday: Kopon, on Cayuse creek, seven miles from Lower Arrow lake, by John Stinson; Kirel, on Cayuse creek, by J. R. Cranston; Baltic, on North fork of Wild Horse creek, about one mile north of the Elise mine, by J. T. Mackenzie; Vienna Fractional, on north side of Wild Horse creek, two and a half miles from Ymir, by J. H. McDonald; Hunter, just north of Ymir, by W. G. Sivger; and Ella, two and a half miles southwest of Ymir, by Robert Spencer.
Certificates of work were issued to J. M. Gill, on the Heather Dew Fractional; Joseph Duhamel, on the Pelton, Republic and Republic Fractional; and Henry Reichart, on the Monarch.
Four transfers were recorded. D. T. Mowat transfers to Frank Seaman the Royston, Royston Fraction, Nellie, Skendow, Barrie, Atoums, Bruce, Lady Minto and Golden Queen, and all his interest in the Royston Gold Mines, Limited; J. L. Stanford, Neil McColeman, Frank Seaman, James Skeene and B. B. Mighler transfer to the Royston Gold Mines, Limited, all of the above claims; N. Hartman transfers to Moses St. Charles a fourth interest in the Air Castle on Stag Heap mountain; and J. Wilson transfers to Moses St. Charles a one-fourth interest in the Silver Crest on Stag Heap mountain.

MEDICINE HAT. N. W. T. November 5.—A lacrosse match for the championship of the Western League and the Taaf cup was played here yesterday between the Medicine Hat and the Wolsley teams. The result was rather one-sided, Medicine Hat winning by 9 goals to 0.
Happenings in Brief.
WOODSTOCK, Ontario, November 5.—The Woodburn Milling Company's premises were destroyed by fire last evening. Loss \$16,000; \$8000 insurance.
NORTH SYDNEY, November 5.—A steamship burst on the last trip of the steamer Bruce to Port au Basques, killing Dan McLean of North Sydney and fatally injuring three others.
STRAITFORD, Ontario, November 5.—Michael Jantz, proprietor of a planing mill at Newton, 20 miles from here, got entangled in the shafting while oiling the engine yesterday and was so injured that death ensued ten minutes afterward.
ST. JOHN, November 5.—The city council last night decided to protest against the shipment of Canadian horses for South Africa via Portland, Maine, and at once wired Hon. A. G. Blair and sir Wilfrid Laurier to secure shipments via a Canadian port.
JAVIS, Ontario, November 5.—J. W. Jarvis, editor and proprietor of the Jarvis Record, shot himself through the head with a rifle at noon today, the ball entering the mouth and passing out at the top of the head. It was a supposed case of suicide.
TORONTO, November 5.—A Pittsburg special says the two Biddle brothers, Canadians convicted of murdering a policeman, will suffer the death penalty for their crime unless a technical blunder by the governor is allowed by the courts to intervene.
MONTREAL, November 5.—A telephone message from Dorionville, about 30 miles from this city, says eight houses were burned there this morning. No lives were lost. The houses were principally frame. A portion of the Montreal fire brigade was sent and subdued the flames.
MONTREAL, November 5.—The annual meeting of the Canadian Manufacturers' Association met here at 10 this morning when delegates were received and welcomed by mayor Prefontaine and afterwards entertained around the city and luncheon by the city council. The weather was chilly but the drive was enjoyed.
TORONTO, November 5.—Fruit men from various parts of the province who are in the city preparing for the annual meeting of their association at Cobourg, December 3rd to 6th, declare that the San Jose scale is making much greater ravages in Ontario than was at first thought, that many trees are dead before the ravages of the insect are detected.
TORONTO, November 5.—The jury in the case of Lewis, the Christian Science case, returned a verdict of manslaughter. The case will go to the court of appeals. In charging the jury chief justice Falconbridge said he felt obliged to tell the jury that according to law, Christian Science treatment was not

PERSONALS.
R. Bowman, head storekeeper for the C. P. R., arrived in Nelson last evening from Vancouver.
A. B. Hodges, superintendent of the Granby smelter at Grand Forks, came in on last evening's train from the Boundary.
Neil McMillan, who is reported to have the contract for the hauling of the Molly Gibson output this winter, arrived in Nelson yesterday from a trip to the mine.
A. E. Rand, one of the largest shareholders in the Athabasca mine, has been in Nelson for several days and will probably leave for his home at New Westminster this morning.
AT THE HOTELS.
TREMONT—James Murray, Vancouver.

GRAND CENTRAL—J. Boyer, Kaslo; Neil McMillan, Molly Gibson Landing; John Freeman, Erie; F. P. Hughes and W. R. Knowlton, Hall Sliding; J. W. Holmes, Rossland.
PHAIR—Sydney H. Lee, Toronto; E. Nelson, Bell; Athabasca; C. H. Hutchins, Toronto; W. Hart McHarg, Rossland; A. R. England, Three Forks; A. B. Hodges, Grand Forks; R. Bowman, Vancouver; Bruce White and wife, Boston.
HUME—W. N. Drayton, Kaslo; J. R. Miller, Montreal; D. W. Wallis, Vancouver; H. W. Gerhardt, Winnipeg; H. P. Jones, Rossland; S. C. Matthews, Montreal; J. M. Stark, Jennings, Montana; J. W. Leathorn, Winnipeg; John H. Blisley, Montreal; D. Simpson, Vancouver.

THE DOMINION OF CANADA
Happenings in Brief.
WOODSTOCK, Ontario, November 5.—The Woodburn Milling Company's premises were destroyed by fire last evening. Loss \$16,000; \$8000 insurance.
NORTH SYDNEY, November 5.—A steamship burst on the last trip of the steamer Bruce to Port au Basques, killing Dan McLean of North Sydney and fatally injuring three others.
STRAITFORD, Ontario, November 5.—Michael Jantz, proprietor of a planing mill at Newton, 20 miles from here, got entangled in the shafting while oiling the engine yesterday and was so injured that death ensued ten minutes afterward.
ST. JOHN, November 5.—The city council last night decided to protest against the shipment of Canadian horses for South Africa via Portland, Maine, and at once wired Hon. A. G. Blair and sir Wilfrid Laurier to secure shipments via a Canadian port.
JAVIS, Ontario, November 5.—J. W. Jarvis, editor and proprietor of the Jarvis Record, shot himself through the head with a rifle at noon today, the ball entering the mouth and passing out at the top of the head. It was a supposed case of suicide.
TORONTO, November 5.—A Pittsburg special says the two Biddle brothers, Canadians convicted of murdering a policeman, will suffer the death penalty for their crime unless a technical blunder by the governor is allowed by the courts to intervene.
MONTREAL, November 5.—A telephone message from Dorionville, about 30 miles from this city, says eight houses were burned there this morning. No lives were lost. The houses were principally frame. A portion of the Montreal fire brigade was sent and subdued the flames.
MONTREAL, November 5.—The annual meeting of the Canadian Manufacturers' Association met here at 10 this morning when delegates were received and welcomed by mayor Prefontaine and afterwards entertained around the city and luncheon by the city council. The weather was chilly but the drive was enjoyed.
TORONTO, November 5.—Fruit men from various parts of the province who are in the city preparing for the annual meeting of their association at Cobourg, December 3rd to 6th, declare that the San Jose scale is making much greater ravages in Ontario than was at first thought, that many trees are dead before the ravages of the insect are detected.
TORONTO, November 5.—The jury in the case of Lewis, the Christian Science case, returned a verdict of manslaughter. The case will go to the court of appeals. In charging the jury chief justice Falconbridge said he felt obliged to tell the jury that according to law, Christian Science treatment was not

the treatment the law called for in such cases.
OTTAWA, November 5.—It is officially denied here that the Royal Canadian Regiment at Halifax will be sent to South Africa.
HALIFAX, November 5.—It is reported here that the Canadian regiment in garrison here, has volunteered for service in South Africa, the offer being made to colonel Biscoe, British commander here.
News Notes From Victoria.
VICTORIA, November 5.—Heavy storms delayed shipping considerably today. Among the steamers delayed was the R. M. S. Empress of Japan bound for the Orient, which laid in the roads all day waiting for the wind to subside. The N. F. R. steamship Queen Adelaide, coming from the Orient, is 17 days out and is no doubt being delayed by the storm, which is general along the western coast of the island.
Ralls have been ordered for the building of a line from the British Columbia terminus of the Great Northern to the mouth of the Fraser, with which connection is to be made with a ferry for Victoria. Work on the necessary extension to the inland section of the road has been commenced.
Information was sworn to today charging D. Falconer, editor of a weekly paper, with criminal libel. The information is sworn to by mayor Hayward in the article complained of charging the mayor and the city officers with corruption and favoritism.
Opening Slot Machines.
PHILADELPHIA, November 5.—A locksmith, on Magistrate Eisenbrown's order, yesterday afternoon, opened 40 of the slot machines captured on Tuesday by Law and Order agents, and found slightly more than \$400. The money in all nickels or quarters, except ten silver dollars, displayed as a decoy in the front of one particularly enticing machine. Two machines taken in a licensed saloon in Fairmont park contained \$73.55. A score of slugs were found. Several professional and business men who witnessed the opening used these slugs to experiment with. Into the most enticing machine one after another the counterfeiters were dropped, but not a lucky strike was made. Almost every time the wheel stopped within a notch or two of the winning number, but never on it.
Manufacturers in Session.
MONTREAL, November 5.—At the afternoon session of the Manufacturers' Association reports were received from different committees on yesterday's work. An open meeting was held in the evening, when president Ellis delivered his annual address. The most striking paragraphs in it were devoted to British preference and reciprocity. The former Ellis was not wholly disposed to discourage if it gained any advantage for Canadian farmers, but pointed out that Canada's first duty was to Canadians. The report of William Whyte of the C. P. R. on his recent trip to Russia was read by secretary Russell in Whyte's absence. It was devoted to a description of the country. James Cummings contributed a paper on South African trade and C. J. Alexander one on Canadian manufacturers from a British view.

The business men's lunch at the Imperial Cafe, from 12 to 2, is the best in the city. Price 25 cents.
The Imperial Cafe is open day and night as a short order restaurant. It offers the best service in the city.
