

The Nelson Tribune

ESTABLISHED 1892

TUESDAY MORNING, NOVEMBER 12, 1901

DAILY EDITION

GUN PLAY ENDED

CITY MARSHAL WILL DISARM EVERYBODY.

IMPORTED MISSOURIANS PARTICULARLY WILL BE PROMPTLY ATTENDED TO.

NORTHPORT, November 11.—[Special to The Tribune.]—A citizens' mass meeting was held here this morning to take action to prevent the recurrence of shooting scrapes like that which happened on Saturday. Addresses were made by prosecuting attorney Bailey, sheriff Ledgerwood, and several others. The practice of carrying concealed weapons was severely censured, and the sheriff was requested to disarm both the citizens and the non-union men at the smelter. Mr. Ledgerwood announced that he would comply with the wishes of the citizens, and promised to station special deputies here to enforce the law against carrying concealed weapons. He stated that he would thoroughly disarm the Joplin smelter men by peaceful means if possible, but that he would not hesitate at any steps in his power to prevent the recurrence of bloodshed here.

Smelter foreman Edward Kearnsey, who was shot on Saturday, is in a very precarious condition. An operation will be necessary this evening to drain the lungs, which are now almost filled with blood. Peter Schoenhof, a Joplin smelter man, who was arrested yesterday for participating in a row in Pottery's saloon, was arraigned this afternoon. He pleaded guilty and was fined \$20 and costs for carrying concealed weapons.

Rossland Local News.

ROSSLAND, November 11.—[Special to The Tribune.]—McKenzie King, the deputy minister of labor at Ottawa, has been busy all day inquiring into the strike situation. He has had a lengthy conference with the union executive to-day, but it is not likely anything will come of his visit.

Smith Curtis, M.P., has gone off to Victoria to speak at the political meeting there tonight.

The secretary of the miners' union and other union officials have been under cross examination all day before registrar Seofield for discovery in the Le Roi damage suit. The examination will probably last all week and the action will come up for trial at the supreme court sittings here next month.

Opinion here is somewhat divided over the Northport shooting. Possibly when the whole story is made clear it will be different.

Greenwood Local News.

GREENWOOD, November 11.—[Special to The Tribune.]—Bruce Craddock is closing out his cigar and tobacco business here and will return to Trail. The C. P. R. telegraph office has been removed to Craddock's premises, which are centrally situated.

Two car loads of furnace and structural material for the smelter have arrived, and the erection of the new furnaces will now be pushed. It is anticipated that they will be ready for operation by New Year. The treatment capacity of the smelter thereafter will be between 750 and 800 tons daily.

Five Fathoms Deep.

CHATHAM, Massachusetts, November 11.—A three-masted schooner lies in five fathoms of water at Little Round Shoal and in all probability the members of the crew are on board another schooner, which at dusk was going out to the shoals to the southward. The disaster was due to the fierce gale that swept the coast yesterday and the presumption is that the vessel sprung a leak while at anchor and being coal laden went down. The masts were seen from Moncton life saving station this morning and Captain Marshall Eldridge took his crew out for a long pull to the wreck, but when he got within halting distance the objects had disappeared. His opinion was that a schooner seen near the wreck had sent out a boat and taken off the men. Captain Eldridge thought the wreck was of a 400-ton vessel. Nothing had washed to the surface which would give an idea as to its name or port.

In Pugilistic Circles.

TRENTON, New Jersey, November 11.—The bout tonight between young Peter Jackson and Jimmy Handler was stopped by the police in the 15th round and was declared a draw by the referee. When the fight was stopped Jackson was hammering Handler hard and at will, and it was evident the latter would have been beaten in a minute or so if the contest had continued.

Buffalo, November 11.—Curley

Supplies of New Orleans was given the decision over "Spike" Sullivan after a 20 round bout at Fort Erie tonight.

Advices From Panama.

NEW YORK, November 11.—When the report that the city of Panama had been occupied by the Colombian insurgents reached here a few days ago cou-

sul general Aturo De Prigara cabled general Alban, the governor of the department of Panama. The message told of the reports in circulation here and asked for information concerning the military situation on the Pacific side of Colombia. An answer to the inquiry has been received as follows: "No truth in the story of the fall of Panama or change in the situation here. We are preparing to recover Tumaco."

Wedded Widow of Victim.

BANGOR, Maine, November 11.—A sensation was caused in St. Stephen, New Brunswick, this week by the marriage of a man who has just been acquitted of a charge of murder, to the woman whose testimony saved him from the gallows. The bride was the widow of the murdered man. George H. McLaughlin was tried for the murder of Harris McLaughlin, a farmer, and the testimony of Lydia, widow of the victim, established an alibi for the prisoner, securing his acquittal. Immediately after the conclusion of the trial McLaughlin and the widow went to the office of the city clerk and there were married.

She Dare Not Complain.

SOPIA, November 11.—From another letter that has been received from Miss Ellen M. Stone, it appears that she is enduring the trials of her hard experience with fortitude, forgetting herself in her anxiety for her companion, Madame Tsilka. Miss Stone does not dare to complain of the treatment to which she is subjected, but she finds the confinement irksome and the weather extremely trying.

ORE AND BULLION RECEIPTS

For a Week at Northport.

NORTHPORT, November 11.—[Special to The Tribune.]—Custom house records at this port show the following receipts and shipments of ore during the week ending November 9th.

	Cars	Tons
November 4	10	274
November 5	20	593
November 6	15	422
November 7	20	592
November 8	17	468
November 9	23	678
Total	105	3027

Nelson to Newark, New Jersey.

November 3 1 car bullion
November 6 1 car bullion
November 8 1 car bullion

Total 3 cars bullion.

Nelson to San Francisco.

November 6 2 cars ore
November 8 1 car ore

Total 3 cars ore.

During the week 12 cars of merchandise left this port in bond to enter the United States at Nelson, Washington.

McKinley, the Forgiving.

WASHINGTON, November 11.—In his new book, "On the Great Highway," which appeared today, James Creelman, after describing the death-bed of president McKinley, said that when he last visited the White House Mr. McKinley said:

"My one ambition is to be known as the president of the whole people. I have no other desire than to win that name. After all, no American can harm his country without harming himself. This government was created by the people for themselves, and night or day that thought is in my mind. We all are together in this great political experiment. Some hard things have been said of me, but that thing is a necessary incident of popular government. It must always be so. My plan is to forget the evil and only remember the good. I never despair of converting an opponent into a supporter. The littler critic I have can come and see me and he will find a warm hand to greet him. It is the only way for an American to live."

"So he lived and so he died," adds the author. "Men of all parties will remember him as McKinley the Forgiving."

Naval Appropriations.

WASHINGTON, November 11.—The main report of the naval board headed by rear admiral Taylor, which prepared plans for the new naval station at Olongapo, Philippine islands, shows that the station will cost this government \$19,359,500, exclusive of the defensive works, signal stations, magazines, hospital, encampment grounds, and a native village under the control of the naval authorities, which it is proposed to employ regularly at the Olongapo dockyard. The board recommends that an additional fort be built besides the four recommended by admiral Remy's board. The board estimate for equipping the station for efficient work of repair and outfit of vessels, pending general development, is \$12,533,500. The report concludes with a statement that much of the material for the station must come from the United States, though a good part of it can be obtained at Hong Kong.

Gompers Makes a Protest.

WASHINGTON, November 11.—Samuel Gompers, president of the American Federation of Labor, protested to the president today against the arrest of Santiago Iglesias, who was sent to Porto Rico by the American Federation to organize the workmen of the island. Mr. Iglesias was arrested

according to a cablegram received from him as he layed ashore at San Juan. He was placed in jail. The nature of the charges against him is not known. President Roosevelt immediately sent an inquiry to governor Hunt as to the cause of the arrest.

Matters in the Orient.

WASHINGTON, November 11.—It is understood here that Chan Yen Tung has been appointed to succeed Yuan Shi Kai as governor of the Chinese province of Shan Tung. Chan is a civil service man and not a soldier. He is understood also to have been only recently appointed director of transportation, a very important position in China.

Minister Wu has not been advised officially of the reported purpose of his government to relieve him at Washington. He has had no overtures from any responsible educational institution in America looking to his becoming a member of the faculty.

The United States so far has not named its representative on the committee of bankers at Shanghai who are to act as the collectors and distributors of the international indemnity fund, 450,000,000 taels with interest. The delay in the cases of the United States government is caused by the absence of an American banking concern in China. Unless American financiers can become interested in this subject to the extent of opening a bank in the Orient, the United States probably will be obliged to name a British fiscal agent. A threat to trade is said to be involved in such a selection, in view of the fact that at least three other of the nations party to the protocol are likely to make the same choice, thereby placing an enormous and unusual power of regulating the rates of exchange in the hands of one foreign concern.

One Claim Dismissed.

LONDON, November 11.—The South African compensation commission today heard counsel in behalf of a fresh claimant, Martin, now of New York, who demanded £2000. The chairman remarked that it was clearly established that Martin had not been deported by the British military authorities and that therefore his claim was not within the scope of the commission. Major general sir John Ardagh, the representative of the government, announced that the government had settled with the Netherlands claimants for an aggregate sum of £37,500.

Another Convict Captured.

KANSAS CITY, November 11.—Another of the 26 convicts who escaped from the military prison at Fort Leavenworth last week was wounded today near Quebec, forty miles southwest of the penitentiary, when Lawrence Lewis, white, aged 20, received a bullet in the back while attempting to escape from the city marshal. This makes a total of thirteen prisoners captured since the outbreak Wednesday last, leaving thirteen still at large.

NEW IMMIGRATION RULES

Which Apply to Canada.

WASHINGTON, November 11.—T. V. Powderly, of the immigration bureau, has entered into an agreement with the principal steamship and railroad lines of Canada for the regulation of immigration to the United States through Canada.

This agreement, which takes the place of the former agreement, which expired three days ago, is regarded as much more favorable to the United States than the last one and will be more effective in keeping out the prohibited classes of immigrants. It provides that aliens arriving in Canada destined to the United States shall be inspected at Halifax, Nova Scotia, Quebec, Point Lewis, Vancouver, St. John, New Brunswick, and Victoria, by United States commissioners, who shall issue certificates to such as are entitled to enter this country, and the holders of these certificates shall be entitled to enter the United States without further examination. The examinations at these points shall be similar to those conducted at the ports of the United States. All aliens adjudged inadmissible shall be returned to the countries from which they came by the lines bringing them over.

The steamship lines shall pay a head tax of \$1 to the commission, the tax to become a part of the immigration fund of the United States. All aliens not provided with certificates of examination signed by a commissioner at one of the stated points who shall apply for admission to the United States at the border within one year shall return to the port of entry for the payment of the head tax and for examination. The various Canadian steamship lines agree to return from ports of the United States such aliens as become public charges within one year after landing, the same as is now done by lines running to United States ports direct. It is a greed also that the immigration laws and regulations of the United States shall apply to the inspection of aliens coming through Canada destined to the United States.

Want Treaty Abrogated.

WASHINGTON, November 11.—Representative Pontelle of Illinois today arranged for a future conference with the president on the subject of the abrogation of the treaty of 1817 with Great Britain, by which the building of war vessels on the great lakes is prohibited. Mr. Pontelle says there are a dozen or more shipyards on the great lakes and that the antiquated treaty of 1817 prevents them from sharing the work of building smaller vessels of the navy with the seaboard shipyards.

COUNCIL MEETING

LYNCH'S LIGHTING PLAN DISFAVORED.

MAYOR FLETCHER WILL MAKE A TRIP TO VICTORIA IN CITY'S INTEREST.

The consideration of John Lynch for the supplying of power for the city electric lighting by the installation of a Taylor air compressor was the chief business at the meeting of the city council last evening. Since submitting his proposition Mr. Lynch has had interviews with a number of aldermen, but it was evident from the manner in which his proposition was received that he was not successful in convincing them that his scheme was desirable.

Alderman Selous said that in the conversation which he had with Mr. Lynch the latter informed him that a plant capable of developing all the power required for the city lighting could be installed on Kootenay river at a cost not to exceed \$75,000, but the speaker added that it would be a very great surprise to him if it could be demonstrated that the use of compressed air would be cheaper than the use of water direct. This view of the matter appeared to be generally shared by the members of the council. The merit of the Taylor process was not assailed in any way, but it was contended that in cases in which there was an abundance of water the use of the water to develop compressed air for the driving of electrical machinery was a round about way of going at things, and while there may be a saving in one way it would also mean the purchase of engines to apply the air to the electric light dynamos. The Lynch communication was received and filed.

The report of the finance committee was received and payment authorized for the several amounts therein contained. Among the other items was one for \$498 to the West Kootenay Power & Light Company for the supplying of power for a month and a portion of a second month. There was some discussion upon this item as to the rate upon which the charge for power was based and the mayor explained for the benefit of the members of the council that the charge was made for 119 horses power on the basis of \$3.75 per month per horse power, the amount covering a period of one month and a tenth.

A petition was received from H. E. Croasdale and others asking for a sidewalk on Ward and Observatory streets. The council decided that the improvements asked for were necessary and 6-foot walks were ordered to be laid. Two communications were received from the representative of the Commercial-Union-Insurance-Company, in which complaints were made with the fire department. The first complaint was with respect to the accumulation of rubbish in the rear of business premises, and the second was that upon the occasion of the fire alarm, when the department was called to the residence of A. H. Buchanan, there was but one fireman in the hall. The members of the council were of the opinion that the statement contained in the letter were incorrect and the clerk of the council was instructed to notify the writer to this effect. With respect to the rubbish nuisance it was decided to have the chief of the fire department make a report upon the condition of the rear of the business premises so that such action as may be necessary can be taken.

E. C. Arthur, of the school board of trustees, had a communication before the council asking for \$1000 worth of furniture for the new school to be purchased at once. It was decided to leave this matter in the hands of the mayor with power to order such furniture as he might consider necessary, the opinion of the council being that only such furniture as might be necessary for present requirements should be purchased. In the discussion on this communication alderman Selous stated that the mayor had expressed his opinion of making a trip to Victoria with a view to interviewing the government on this and other matters. It is understood the mayor will endeavor to persuade the government to respond more generously to the cost of school construction and furnishing, and also to secure the site for the city's electric light power plant on Kootenay river.

City engineer McCulloch reported that the construction of a 6-foot sidewalk on the south side of Mill street, from Hendryx to Cedar street, would cost in the neighborhood of \$200, and the work was ordered to be done.

Steamship Man in Vancouver.

VANCOUVER, November 11.—[Special to The Tribune.]—Mills, Managing director of the Union Steamship Company of New Zealand, which owns a half interest in the Canadian-Australian line, arrived today from England. He says that Australian and Canadian mail subsidies expire in eighteen months. If these are renewed, as they probably will be, his company will put on a line of larger and faster steamers to handle the increasing business. Mills has two

large steamers now building in the old country for intercolonial trade.

Important Tariff Changes.

BERLIN, November 11.—Count Von Buelow, the imperial chancellor, after giving this morning to Potsdam to confer with emperor William, called a cabinet meeting this afternoon. The North German Gazette asserts that the object of the meeting was to act upon the changes made by the bundersrath in the tariff bill. It was learned by a representative of the Associated Press from sources inside the bundersrath that some important changes have been made.

Narrow Escape From Fire.

NEW YORK, November 11.—Fire in the plant of the Planet mills in Brooklyn destroyed \$25,000 worth of property and endangered many lives. There were 800 women at work on the upper floor of the building. William Stewart, elevator man, kept his cage going until the last woman had left the building and then fell unconscious from the smoke and fire fumes he had inhaled.

They Rescued the Sun.

PEKIN, November 11.—In conformity with a notice which the foreign office sent to the foreign legations all the Chinese officials at the capital gathered today at the board of rites to "Rescue the Sun" which was suffering from a partial eclipse. The rescue was accompanied by burning of incense and the beating of drums. A few foreigners for the first time in history were permitted to witness the ceremony.

A Premature Report.

LONDON, November 11.—The story circulated in the United States by a news agency today under an American date, purporting to give the peace terms which the Boers are willing to accept and alleging that they are to be embodied in a formal document for circulation among the powers, was seemingly stated in an English provincial paper and is denied by the Boer delegates at The Hague.

Mutiny Leader Captured.

TOPEKA, Kansas, November 11.—Frank Thompson, the negro leader of the mutiny at Fort Leavenworth prison, was captured after a hard fight this evening near Council Grove, Kansas, by a posse under deputy United States marshal Prescott. Thompson was slightly wounded in the head. None of the posse were injured.

Fell From the Fourth Floor.

NEW YORK, November 11.—Richard Mayo Smith, a professor of political economy at Columbia university, was killed tonight by falling from a window in his study on the fourth floor of his residence on West Seventy-seventh street to the street flagging in the rear. So far as the police have investigated the case they conclude that the fall was accidental.

PAID FOR OUT OF PROFITS

Improvements at Granby Smelter.

The statement made by Mr. Miner, president of the Granby Mining Smelting and Power Co., the other day that the improvements at the Granby smelter, now under construction, are being paid for entirely out of the profits of the last and this year's operations is extremely satisfactory. This company has not been very forward in bringing out a balance sheet and report, but, on the contrary, the main subscribers to the shares are the original subscribers when the various companies now consolidated were promoted, and if they are satisfied the public has not any serious reason of complaint. This company's operations have for some reason or another always been subjected to more than the ordinary criticism, but in looking back over its history it is difficult to see where greater economy of organization or efficiency of working could have been attained. The ore in the Knob Hill and Ironides is exceedingly low grade. It has always been felt that its successful treatment was in the nature of an experiment. But, certainly, if it had not been successful there would have been something very far out in the original calculations of its nature and value. It has, apparently on the contrary, proved fully as amenable to treatment as was expected, and the various economies originated in connection with the mine and smelter have proved most efficient and valuable. According to Mr. Miner the cost of smelting has already been reduced from \$1.90 a ton and the increase in the plant, now being paid for out of the profits, is expected not merely to double the tonnage but to still further decrease the cost of treatment per ton. Under these circumstances there is fairly good authority for the assertion that the enterprise is a proved success. This of course does not touch the question of the capitalization of the company which, if it were considered as anything but a mere conventional figure, is excessively high. It must be years yet, at the best, before the company can hope to pay such dividends on a capital of \$15,000,000, not to mention \$20,000,000, as would justify the buying and selling of the shares at par. In the meantime a report and balance sheet giving the average value per ton of the ore treated (for this is a fact that has never been disclosed by the management) will be awaited with great interest and, if satisfactory, will finally set at rest the fears of the most skeptical.

Buried Under a Landslide.

TROY, New York, November 11.—A big landslide at Mechanicsville today caused the death of three Italian laborers, who were buried under about 1000 tons of clay. One body has been recovered. Four other workmen escaped.

Earl's Famous Hotel Burned.

BANFF, Alberta, November 11.—Last night the Grand View hotel at this place was burned to the ground. Very little of the contents were saved. The loss was partly covered by insurance.

Verdict of Not Guilty.

WINNIPEG, November 11.—The jury returned a verdict of not guilty in the case of J. G. Thomson, charged with having received money knowing the same to have been stolen from registered mails in the Winnipeg postoffice.

London's Chief Magistrate Dead.

LONDON, November 11.—The death is announced of sir Franklin Lushington, chief police magistrate for London. He was born in 1823.

He Played With Matches.

WINNIPEG, November 11.—Bertie Conn, aged four, was burned to death at Douglas, his clothes catching fire while playing with matches.

at Boston, on Saturday last, says: "If, as believed, Mr. Lodge's speech reveals the mind of president Roosevelt, this country will have nothing to complain of. The isthmian business will be settled next year in a manner honorable and satisfactory to both countries, which means, we presume, that America will get her own way in the matter. The Munroe doctrine is to be upheld by a great navy, if needed. This is in the interests of peace. As the Munroe doctrine does not affect that part of the American continent which belongs to the British empire, the announcement will cause no friction."

Japanese and Chinese Industries.

TACOMA, November 11.—Oriental advices received by the steamer Victoria state that the Japanese naval department is preparing to establish a steel plate factory at a cost of 6,000,000 in three years. Harun Masahide of Tokio has obtained from director Shen of the Chinese railway commission a concession for the erection of important telephone lines which will connect the largest cities throughout China. The preliminary arrangements now made contemplate that China shall furnish the funds and the Japanese the experts and material.

Boers Appeal to Be Heard.

THE HAGUE, November 11.—The administrative council of the arbitration tribunal will meet November 20th to decide on the appeal of the Boers against the ruling that the war in South Africa is not subject to the court's consideration.

THE DOMINION OF CANADA

Happenings in Brief.

LONDON, Ontario, November 11.—Seven thousand barrels of apples, valued at \$20,000 have been shipped to Winnipeg from this district this fall.

MASSEY, Ontario, November 11.—While ascending a shaft in a bucket at the copper mine near here this morning, Antoine Mousseau fell out and was dashed to pieces at the bottom. He leaves a large family of small children.

QUEBEC, November 11.—Le Soleil, which is regarded as the federal government organ here, says it has been informed that the Ottawa government has decided to refuse to Canadian officers and soldiers permission to leave their posts for the purpose of going to South Africa.

MONTREAL, November 11.—Mayor Prefontaine today announced himself as a candidate for a third term in the mayoralty chair, giving as his reasons his desire to see the harbor works in a more advanced state of completion before relinquishing his seat on the harbor board, which he is entitled to as long as he is mayor.

MONTREAL, November 11.—F. G. Gridleson, general manager of the Bristol & Avonmouth docks, addressed the board of trade today. It was a heart to heart talk, Gridleson expressing his mind freely about the tardiness in completing harbor improvements, poor buoy and light service in the river, etc. All concerned came in for some hard knocks.

MONTREAL, November 11.—Lord Strathcona left tonight for New York by the Liverpool on the Oceanic Wednesday. Before leaving, referring to the proposal of his appointment as governor-general, he said it would not do. That official constituted the most valuable tie between the colonies and the mother country and nothing should be done to weaken it. He would not say anything about the fast Atlantic service which he had enjoyed on the Oceanic.

TORONTO, November 11.—David Hawes, a colored railway porter, was found guilty of criminal assault upon Louisa Lehar, 17 years of age today, and sentenced to ten years' imprisonment. Passing sentence, chief justice Ferguson observed that hanging once was the penalty for the offense and the law was still on its statute books. In view of the increasing prevalence of the offense it was a question whether it might not be again resorted to. The Lehar girl was en route from Winnipeg to Oshawa. While waiting for a train at the union station she struck up an acquaintance with Hawes, who enticed her into the private car in which he was employed and assaulted her.

Buried Under a Landslide.

TROY, New York, November 11.—A big landslide at Mechanicsville today caused the death of three Italian laborers, who were buried under about 1000 tons of clay. One body has been recovered. Four other workmen escaped.

Earl's Famous Hotel Burned.

BANFF, Alberta, November 11.—Last night the Grand View hotel at this place was burned to the ground. Very little of the contents were saved. The loss was partly covered by insurance.

Verdict of Not Guilty.

WINNIPEG, November 11.—The jury returned a verdict of not guilty in the case of J. G. Thomson, charged with having received money knowing the same to have been stolen from registered mails in the Winnipeg postoffice.

London's Chief Magistrate Dead.

LONDON, November 11.—The death is announced of sir Franklin Lushington, chief police magistrate for London. He was born in 1823.

He Played With Matches.

WINNIPEG, November 11.—Bertie Conn, aged four, was burned to death at Douglas, his clothes catching fire while playing with matches.

VERY MUCH ALIVE

CLUMSY EFFORT TO GET INSURANCE

A DESERTER FROM THE ARMY NOW HELD ON SUSPICION OF MURDER.

LOUISVILLE, Ky., November 11.—Newell C. Rathbone, who was supposed to have been dead in a Jeffersonville, Indiana, hotel Thursday, was arrested in Louisville today. According to Rathbone, the corpse which was shipped to Little Rock for burial as the body of Rathbone was the body of W. L. Teneyck. The police say Rathbone has confessed to desertion from the United States army and to having forged a plan to fraudulently collect \$70,000 insurance on his life, but denies killing the man who was found dead in Jeffersonville. He is held as a fugitive from justice. The arrest was made on information from sergeant Skinner of the United States recruiting station. Rathbone enlisted under the name of Lou Root from Detroit. Sergeant Skinner had read the story of the Jeffersonville case and the circumstances connected with the new recruit aroused his suspicions. One of these was the fact that the man had on a government suit of underwear. Rathbone said he had bought the garments from a soldier friend. Another circumstance was his knowledge of army affairs about Little Rock. He passed the examination and enlisted successfully. The police are trying to establish the identity of the dead man. One of their theories is that he was a trooper that Rathbone had fallen in with. The police have telegraphed to the Little Rock authorities to hold the corpse. A gold watch bearing the name of "W. H. Ellis" was found on Rathbone. He refused to say where he got it. The police say the handwriting of "Lou Root," the recruit, was very similar to the signature "W. L. Teneyck" on the Jeffersonville hotel register. Coroner Coats of Jeffersonville states that he examined the stomach of the dead man and found traces of enough laudanum to kill two men.

Ned Stokes Denies Marriage.

NEW YORK, November 11.—The will of Edward S. Stokes, the man who killed Jim Fiske years ago, was filed this afternoon in the office of the surrogate. It was executed on February 13th, 1891. W. E. D. Stokes, cousin of the testator, is appointed executor. With the exception of three nephews, all of whom he has adopted, his sister Mrs. McNutt and his mother, Nancy Stokes, the entire estate is left to Horace Stokes and Mrs. McNutt. If they die intestate the property goes to W. E. D. Stokes under the will. In a brief paragraph at the conclusion of the will Mr. Stokes declared that he was unmarried and had no children. No mention is made in the will of Rosamond Barclay, the young woman who asserts that Mr. Stokes was her husband.

Want Duty on Tea Removed.

NEW YORK, November 11.—The Tea Duty Repeal Association, consisting of some of the leading wholesale grocers, jobbers and importers of tea in this country, has just been organized. M. Waldo Smith, of Smith & Sills, president of the Wholesale Grocers' Association of New York City and vicinity, is president. The object of the association is to attempt to secure the removal of the present tariff of ten cents per pound on all the tea imported into the country.

A Proposal From Kruger.

LONDON, November 11.—The Daily Mail gives today another alleged peace scheme which Mr. Kruger is said to be willing to conclude. This would be on the basis of granting autonomy to the two republics under a convention guaranteed by France and Russia in exchange for a session to Great Britain of the Rand district and the gold fields, which should be regarded as the total Boer indemnity.

Insurgents Suffer From Famine.

CATAGOLIN, Island of Samar, November 11.—The insurgents are flocking northwards. They are suffering greatly from famine. Many isolated bolomen have surrendered. Only fear caused by Lukban's proclamation, threatening those with death who surrender, prevents a general submission of the insurgents, but it is expected that this will be secured in a few days.

Fire Loss in Boston.

BOSTON, November 11.—Fire in a group of buildings at the corner of Broad and Franklin streets in the wholesale district this morning did fully \$100,000 damage to one building, chiefly occupied by the Murphy Varnish Company. Numerous mercantile firms in adjoining buildings have losses, but the extent will not be known for some hours.

New Consul Appointed.

WASHINGTON, November 11.—The president today appointed V. Herdlicka, District of Columbia, consul at Kingston, Jamaica.

HUDSON'S BAY COMPANY
INCORPORATED 1870

GROCERY AND LIQUOR DEPARTMENTS

WHOLESALE RETAIL

The following goods are now in stock, or will arrive in the course of a few days:

- Two carloads of Ontario Canned Goods.
- One carload assorted Groceries from the East.
- One carload assorted Groceries from the West.
- A direct shipment from England of Peek, Freen & Co's Fancy Biscuits, of Pascal's Sweets, and of Rowntree's Confections.
- New Evaporated Fruits direct from California.
- One carload of Canadian Whiskies.
- One carload of Imported Liquors from Victoria.
- A direct shipment of the Celebrated Kilmar-nock Whiskey straight from Glasgow.
- A direct shipment of Sherry and Claret from France.
- A direct shipment of Port Wine direct from Spain.
- One Carload of the Celebrated Hudson's Bay Flour.
- Half a carload of choice fall-made Creamery Butter.
- One carload of Timothy Hay.
- One carload of Upland Prairie Hay.
- Three carloads of Ashcroft Potatoes.
- One carload of Oats.

Ask for Price List.

THE HUDSON'S BAY COMPANY
BAKER STREET, NELSON, B. C.

WHOLESALE DIRECTORY

ASSAYERS' SUPPLIES.

W. F. TEEZEL & CO.—CORNER OF Baker and Josephine streets, Nelson, wholesale dealers in assayers' supplies. Agents for Denver Fire Clay Company, Denver, Colorado.

ELECTRICAL SUPPLIES.

WALL PAPER

Perhaps it's a bedroom you're going to have papered, the hall or parlor. It really makes no difference which it is, we have paper to suit all rooms. Papers were never so pretty as they are this season. Just now we are opening our new fall stock and having a clearance sale of the short lots left over from the summer's business, all good papers, too, and many of them are in quantity sufficient for any room. Ceilings and borders to match in most cases.

THOMSON STATIONERY CO. LTD.

NELSON, B. C.

The Tribune

NOTICE TO SUBSCRIBERS BY CARRIER.

On Saturday next, subscribers whose Tribunes are delivered by carrier will be expected to pay the carrier TWENTY CENTS, the subscription price for the current week.

That low grade ores can be treated at a profit has been demonstrated at Lead City, South Dakota, where a thousand stamps are dropping on ore that yields less than three dollars a ton. This has been going on for years, and the great Homestake Mining Company with a capital of \$21,000,000 has paid over \$10,000,000 in dividends. For ten years after the discovery of ore in the mines at Lead City, every pound of mining supplies had to be hauled hundreds of miles by ox and mule teams, and fuel and water were both procured at great expense. These mines and mills have always been operated by white labor. At Mercur, Utah, is another low-grade proposition, which is being worked by a company with \$5,000,000 of share capital. It has paid \$370,000 in dividends this year. Up in Alaska is the lowest grade proposition on earth. Last year the Treadwell company crushed 457,802 tons of ore that yielded \$1.58 a ton, yet the company made a net profit of \$52,559; and paid a dividend of \$300,000 on a share capital of \$5,000,000. These are three instances where gold ore that is lower grade than any of the gold-copper ores of British Columbia is paying good dividends on large capitalization. If such results can be obtained in another country, why not in British Columbia? It is only a question of time, patience, money, and brains. The best results were not obtained in South Dakota or in Utah or in Alaska at the first. Small mills had to be increased to large ones; the best appliances and methods for mining had to be adopted; and capital had to be invested. Small smelters will have to give way to large ones; the latest machinery for cheap mining will have to be procured; and the capital stock of the companies will have to be increased, if like results are to be obtained from working the ores of the Boundary. Smelters that are now smelting 500 tons per day will have to be quadrupled in size; machinery will have to take the place of men in mining; and certificates of stock will have to represent cash investments. When this is done, the low-grade ores of the Boundary will be worked at so good a profit that shares in well-managed mining and smelting companies like those operating at Grand Forks and Phoenix and Greenwood will be sought for as gilt-edge securities instead of for speculation.

MINERS' UNION, NO. 95, W. F. O. M.—Meets in Miners' Union Hall, northwest corner of Baker and Stanley streets, every Saturday evening at 8 o'clock. Visiting members welcome. M. R. Mowat, president; James Wilks, secretary. Union scale of wages for Nelson district per shift. Machine men \$3.00, hammermen \$2.25, muckers, cutters, shovelers, and other underground laborers \$2.

TRADES AND LABOR UNIONS.

COAST LUMBER OF ALL KINDS ON HAND
OFFICE AND YARDS: CORNER HALL AND FRONT STREETS.

Shoe Shape.

Ever have a pair of shoes that twisted out of shape before they were half worn out?

That was because of poor lasting—the stretch had been left in them.

"Slater Shoes" are lasted on machines which automatically stretch the leather to the exact point where there is no stretch left.

Only good leather can stand this process, but it takes all the stretch forever out of the shoes.

No breaking in, no bursting out, no twisting, no unsightly warping—"Slater Shoes" keep their shape till worn out. Goodyear welted.

Branded with makers' name and price, in a slate frame, \$4.00, and \$5.50.

"The Slater Shoe."

ROYAL SHOE STORE, Aberdeen Bldg. L. GODBOLT (Successor to Lillie Bros.)

South African Concentration Camps.

LONDON, November 10.—The Daily News today exhaustively surveys the concentration camps in South Africa.

The truth is that the death rate is incomparably worse than anything Africa or Asia can show. There is nothing to match it even in the mortality figures of the Indian famines, where cholera and other epidemics have to be contended with. Statistics are produced in order to prove this assertion. The government's advertisements for teachers for the children setting forth that the "term of employment will be one year certain" is prominently displayed as evidence that the authorities have no intention of ending the "wholesale destruction of human life." The Daily News wants all humane men not to wait for official reports but to insist on the camps being broken up and the people distributed amongst their friends, or removed to districts where a fresh attempt can be made under competent organization and with due regard to the preservation of life.

Negotiations Still Under Way.

COPENHAGEN, November 11.—The premier, Dr. Deunzter, in an interview today on the subject of the negotiations for the sale of the Danish West Indies, is quoted as saying that the Washington and London dispatches declaring that the islands have been sold to the United States for \$4,000,000, with the understanding that the inhabitants are to be granted citizenship and free trade, are incorrect. The negotiations are progressing, but the result cannot be definitely predicted. The negotiations, the premier said, would be concluded at Copenhagen, the treaty would be signed at Washington and it would be ratified by the United States senate before it received the ratification of the Danish rigsdag.

J. M. LAY, Manager.

THE PROVINCE IN A DOZEN LINES.

MOYIE—The members of the Moyie
Miners' Union are talking of giving a
dance on the evening of December 12th,
the anniversary of their organization here.

GOLDEN—Sheriff Redgrave left on
Monday for the Thompson district,
where he will visit his daughter.
FIELD—Thomas Tompkins, C. P. R.
contractor, has completed the new hotel
at Field. It contains 60 bedrooms and
20 bath rooms, besides a large number
of parlors and sitting rooms.

TROUT LAKE—The Trout Lake Topic
says: "Trout Lake is likely soon to
have a bank of its own, which will
be established at Ferguson might be the
sufficient to look after all the 'long
green' lying loose around the district.
We have reason to believe that during
the course of a few days a representa-
tive of the bank proposing to open the
branch will arrive in Trout Lake."

GOLDEN—Captain Armstrong has re-
turned to Golden after spending the
greater part of the summer to the south
of the boundary line. The captain won't

down to secure the steamer North Star
for the Upper Columbia Navigation
Company to run between Golden and
Lake Windermere. On his arrival at
Ferguson he found that owing to the
construction of the line being built by
Jim Hill to tap the Crow's Nest coal-
fields, there was a profitable business
to be done between Jennings and Crow's
Nest Landing. The boat may be brought
to Golden next spring.

TROUT LAKE—Dr. Newcombe, a
graduate of McGill University, arrived
in town yesterday. He is looking the
situation over carefully with the object
in view of establishing a practice in the
district. There is certainly a good open-
ing for a physician in the country and
were he to undertake the establishment
of an hospital, there is little doubt but
that he would receive the support of the
entire district.

SANDON—The Paystreak says: "It
is reported that some of the mine owners
think Pat Burns is getting too much for
his beef and they contemplate going into
the meat business on their own account."

If the kicking mine owners could handle
their mining interests half as well as
Pat handles his meat business they
would probably make all the money
they want at their own risk, without
bothering about any body else's cinch.

SANDON—N. A. Wood, formerly of
the Last Chance mine, but now in Flor-
ida, is in the city renewing acquaint-
ances. He has a fruit ranch down there
that takes some of his time, but withal
he has not decided to make that section
his permanent home. On this latter he
has not decided. He looks well himself
and reports all down there as well, and
doing well.

TROUT LAKE—During the past forth-
night over seventy-nine pack loads of
supplies have left Trout Lake for the
new camp on Trout creek and more are
to follow. The most of this outfit was
for the Kathleen, where the cabins are
now well under way and are likely to
be completed during the week. Work on
the property will then commence and be
proceeded vigorously during the com-
ing winter.

One Postoffice in Two Countries

The most curious postoffice in America
is the one which stands in Beebe Plain,
a town half in Vermont and half in the
province of Quebec, Canada. The old
postoffice was built about seventy-five
years ago exactly on the boundary line
between the United States and Canada,
so that it stands in two countries and
serves in the postal service of two na-
tions. The cellar of the building connects
the two countries, and some years ago,
when the postoffice was a general store,
whiskey was known to be sold in one
country and delivered in another without
ever having gone out from under the
roof of the old structure. This combina-
tion postoffice is now being run by par-
ent and child, the father being post-
master for Quebec and the daughter
postmistress for Vermont. Standing in
front of this strange postoffice is a large
post which marks the boundary line, and
it is said that one time a man who want-
ed to get a roadway to his premises
moved this post, and many thousands of
dollars and no little time was spent to
establish the exact line again.

Until a short time ago a very peculiar
postoffice was used in Argyleshire, Eng-
land. It was situated in the lonely hills
between Drimmin and Barr, three miles
from any habitation, and consisted of
a simple slit in a rock, closed up by a
nicely fitting stone. When any letters
arrived at Drimmin for the district of
Barr they were conveyed to the rock by
the first shepherd or crofter going so
far. Having been dropped in and the
slit reclosed, they were left until a shep-
herd or crofter from the other side hap-
pened to come along, when they were
taken up and delivered at their due des-
tination. No letter was ever known to
be lost at this primitive postoffice.

At Barra, Shetland, an old tin canister,
made water-tight with newspapers and
pitch, was once picked up on the shore.
It contained ten letters, with the correct
cash for postage. With these was
also a letter for the finder, urgently re-
questing the posting of the accompany-
ing missives, as they were important
business communications. After the
letters had been carefully dried they
were at once posted to their destinations,
which they reached without further ad-
venture.

Dogs Trained to Lead the Blind.

Among the many careers that a dog
who has to work for his living may fol-
low is that of leading the blind. Of
course, the work is one that requires
some training, and there are, in fact,
a number of what may be called prepara-
tory schools for this sort of business.
The most reliable guides are the pro-
duct of the instruction of a man whose
kennels are in a little village in Eng-
land. As the dog which is destined to
act in the place of a pair of eyes has no
easy task before it, only the most intelli-
gent puppies are chosen to be trained for
the two purposes. Having selected the lit-
tle animal whose life work it will be to
lead the blind, the breeder leaves it with
its mother until it is at least four
months old. Its playful babyhood at an
end, the puppy begins to go to school,
taking, as a first step, lessons in the
art of walking in a straight line and at
a steady pace. The schoolroom to begin
with is the kennel yard, later it is a
country lane, and by-and-by the village
street.

It takes some time for a lively young
animal to learn that sudden dashes here
and there must not be indulged in while
some one has hold of a chain attached to
its collar. But after two months
constant daily practice the lesson is driv-
ing home. By making excursions in all
directions, leaving the dog to do all the
piloting home, the blind expert-tests and
develops its sense of locality. He fur-
thermore accustoms it to traffic, and by
kindly insistence impresses on it the
necessity for not only withdrawing itself
from danger but its charge as well.

After four or five months' training
the dog is ready to lead the blind. It is
then perhaps some nine months old, and
is kept in constant practice until a pur-
chaser is found. The breeder who has
had the dog trained does not advertise,

but he is known to the officials of the
various charitable organizations which
assist the blind. When a blind man is
unable to get about and has no child
who can lead him, a dog is ordered from
the breeder, who receives between \$10
and \$15 for each animal supplied. Then a
clever little doggie makes a long jour-
ney by rail, and after it has got to know
its new master settles down without
complaint to a life of quiet, faithful
self-sacrifice.

The Belgian Prisons.

A Belgian when convicted of a capital
crime is not shocked to death or
hanged on the gallows. Indeed, the
death penalty is not exacted at all in
Belgium. The criminal, being sentenced
to prison for life instead. This punishment
is, however, the refinement of barbarism.
Few criminals can endure it longer
than three years. Of the actual torture
of this wretched condition the following
details give but the most meagre idea.
The condemned man is placed not in
a cell but a dungeon. This is not only
dark and dirty and bare of every vestige
of comfort, but it is so separated from
the other part of the prison that no
sounds penetrate its formidable isolat-
ion. From the moment the malefactor
enters it he never hears the sound of
human voice, never sees the sight of a
human face again.

His food is pushed through a sliding
panel in the door of his cell. Attentions
of other sorts he has none. The authori-
ties have striven to extend the limit of
the prisoner's life by varying the
food as much as possible, but in vain.
Those who are moderately or lightly
nourished gradually waste away, while
those who are generously fed go mad
and die raving maniacs. Until recently
little Belgium had two public execution-
ers, although one was sufficient for her
big neighbor France. The king of the
Belgians recently ordered the retire-
ment or a pension of \$450 of one of his
executioners—"the executor of high
works," as he is termed. The other ex-
ecutioner still holds his place at Brus-
sels. The duties of public executioner
are singular, but not arduous. The
courts still continue to sentence male-
factor; to death, but the guillotine is
replaced by a scaffold on which is
posted a copy of the sentence.

Charles Coghlin's Body.

ATLANTA, Georgia, November 11.—
Gertude Coghlin, who is playing an
engagement in this city, has received a
letter which states that the body of
her father, Charles Coghlin, lost dur-
ing the great storm, will now be
recovered. He died in Galveston,
and his body was placed in a vault with
the idea of having it removed to New
York. The storm came before this could
be done and the storm and food washed
away the vault. Miss Coghlin at once
began a search and employed a firm of
lawyers to represent her. A letter came
today in which it was stated that three
caskets had been found at Virginia
Point, near the city of Galveston, and
that the body of Charles Coghlin was in
one of them.

CORPORATION OF THE CITY OF NELSON**BY-LAW NO. 101.**

A by-law in regard to purchasing cer-
tain power from the West Kootenay
Power & Light Company.
The Municipal Council of the Corpora-
tion of the City of Nelson in council
assembled enacts as follows:
1. Subject to the terms, conditions
and provisions hereinafter contained it
is agreed that the corporation shall take
and the company shall supply electric
power at the sub-station of the company
in the City of Nelson for the power and
lighting purposes of the corporation.
2. The quantity of power to be taken
by the corporation from the company
will not be less than 100 horse-power,
such horse-power to be delivered at a
pressure of 2200 volts.
3. The company will supply all the

regulating apparatus in their sub-station
for regulating the power necessary for
properly operating incandescent lights.

4. The company shall supply power
from 100 horse-power to 150 horse-power
if required by the corporation at the
same rate as hereinafter agreed upon.
Without further notice, the excess of
power over 100 horse-power to be charged
for according to the horse-power used.
In case of the corporation requiring fur-
ther power the company will agree to
supply the same upon thirty days notice
upon the following basis: In case 150
to 200 horse-power is required by the
corporation the company will agree to
supply the same up to 200 horse-power
at a minimum charging for a minimum of
150 horse-power, and for the excess of
horse-power, over 150 according to the
horse-power used. In case 200 to 250
horse-power is required by the corpora-
tion the company will agree to supply
the same, charging for a minimum of 200
horse-power and from that up to 250
horse-power according to the horse-power
used. In case 250 to 300 horse-power is
required by the corporation the company
will agree to supply the same charging for
a minimum of 300 horse-power and from
that up to 350 horse-power according
to the horse-power used. In case 350 to
400 horse-power is required by the corpora-
tion the company will agree to supply
the same charging for a minimum of 400
horse-power and from that up to 450
horse-power according to the horse-power
used. In case 450 to 500 horse-power is
required by the corporation the company
will agree to supply the same charging for
a minimum of 500 horse-power and from
that up to 550 horse-power according
to the horse-power used. It being the
intention that the company will always
keep in reserve 50 horse-power over
and above the minimum stated by the
corporation to be required and shall
charge for the said 50 horse-power ac-
cording only to the horse-power used.

And it is understood that the high-
est minimum load for any month during
the contract hereunder shall be the min-
imum load for each of the ensuing
months during the contract, unless the
minimum is increased by the corpora-
tion.
5. Calculations of the quantity of
power used by the corporation are to be
based upon the daily average peak
load, such peak load to be arrived at by
taking volt-ampere readings, and the
calculations made from such readings.
Such readings shall be taken after the
power has passed through the regulators.
6. The corporation will pay to the
company monthly on the 20th day of
each month for the power used (not be-
ing less than 100 horse-power) during
the preceding month at the following
rates: For all horse-power, up to 300
horse-power at the rate of \$3.75 per
horse-power per month; and for all
horse-power in excess of 300 horse-power
at the rate of \$3.33 1-3 per horse-power
per month.
7. The power supplied by the com-
pany shall be continuous as required
during the whole twenty-four hours of
each day.
8. If by reason of any accident or
any cause whatsoever over which the
company shall have no control, a stop-
page in the supply of power shall at any
time occur, the corporation shall be al-
lowed a rebate from the price in the
agreement provided proportionate to the
actual time of the said stoppage.
9. The duration of the agreement
hereunder shall be for the period of one
year from the date the company shall
commence the delivery of power to the
corporation, which date shall not be
later than December 1st, 1901.
10. In the event of any dispute or dif-
ference arising between the company
and the corporation in regard to the
construction to be placed on this by-law
or the contract to be executed embody-
ing the provisions hereof or the admin-
istration thereof or any details of busi-
ness between the corporation and the
company in respect thereof, the same
shall be referred to the arbitration of
three arbitrators, one to be chosen by

the company and one by the corporation
and these two arbitrators so selected
shall select a third, and any decision
upon the point or points arrived
at by the majority of such arbitra-
tors shall be final and binding upon both
the corporation and the company. Such
arbitration otherwise shall be governed
by the provisions of the Arbitration Act,
being Chapter 9 of the Revised Statutes
of British Columbia, and any amend-
ment thereto now or hereafter made.

11. A contract embodying the pro-
visions hereof and covenants on the part
of the company to conform to and fulfill
all matters and provisions hereby re-
quired of it shall be drawn and shall be
executed by the corporation and the
company within one month after the
date on which this by-law shall take
effect.

12. It is understood that nothing in
this by-law contained shall be construed
as conferring upon the company any
right or privilege to generate or dis-
tribute or dispose of electric light or
electric power within the limits of the
City of Nelson except to the corporation.

13. In this by-law the expression
"the corporation" wherever used shall
refer to and mean the Corporation of the
City of Nelson, and the expression "the
company" wherever used shall refer to
and mean the West Kootenay Power &
Light Company, Limited, its successors
and assigns.

14. This by-law shall take effect and
be in force on and after the 26th day
of November, 1901.

15. This by-law may be cited as "the
Power By-Law No. 101."

Done and passed in council assembled
this 11th day of November, 1901.

Take notice that the above is a true
copy of the proposed by-law upon which
the vote of the municipality will be taken
on Tuesday, the 19th day of Novem-
ber instant, between the hours of 3
o'clock a.m. and 4 o'clock p.m., for the
East Ward at the city police court on
the east side of Josephine street, and for
the West Ward at the office of Ward
Brothers, between Stanley and Kootenay
streets, in the City of Nelson.

J. K. STRACHAN,
Clerk of the Council.
Nelson, B.C., November 8th, 1901.

CORPORATION OF THE CITY OF NELSON**Notice to Municipal Voters.**

NOTICE is hereby given that under the pro-
visions of the "Municipal Elections Act" the fol-
lowing are entitled to vote for mayor and alder-
men at the City Municipal Election, viz:
Any male or female, being a British subject, of
the full age of twenty-one years, who has paid
on or before the first day of November all muni-
cipal rates, taxes, assessments, and license fees
payable by him or her, and
"Who is the assessed owner of lands, or of
"improvements, or the assessed occupier of lands
within the municipality, or
"Who is a resident of and carries on business
and is the holder of a trades license in the
municipality, or
"Who is a householder within the munic-
ipality."
Householders are required on or before the
first day of December to enter with the under-
signed their names, as a voter, and deliver at the
same time a statutory declaration in the form
provided by the statute.
J. K. STRACHAN, City Clerk.
Nelson, B.C., October 18th, 1901.

CORPORATION OF THE CITY OF NELSON**PUBLIC NOTICE.**

Public notice is hereby given that the vote of
the electors of the Municipality of the City of
Nelson will be taken on by-law No. 101, in re-
gard to purchasing certain power from the
West Kootenay Power & Light Company, on
Tuesday, the 19th day of November, between the
hours of 8 o'clock a.m. and 4 o'clock
p.m.
For the East Ward, at the City Police Court on
Josephine Street, and for the West Ward at the
office of Ward Brothers, on the north side of
Baker Street, between Stanley and Kootenay
Streets, in the City of Nelson.
Any male or female being of the full age of
twenty-one years who is the assessed owner of
land or of real estate property within the munic-
ipality shall have a vote either by himself or by
proxy, and the said vote shall be counted as a
valid vote if the voter is assessed for the year
or the year in which the vote is taken, or if he
has expended two hundred and twelve
dollars and twenty-five cents (\$225.25) in labor
and improvements upon the above mentioned
mineral claim in order to hold said mineral claim
under the provisions of the Act in relation to the
mining division of the City of Nelson, and if
within ninety days from the date of this notice
you fail or refuse to contribute your portion
of all such expenditures together with all
costs of advertising, your interests in the
said claims will become the property of the
subscriber under section 1 of an act
entitled, "An Act to Amend the Mineral
Act, 1900."
Dated at Nelson this 11th day of September,
1901.

NOTICE TO DELINQUENT CO-OWNERS.

To John J. McAndrews or to any person
or persons to whom he may have trans-
ferred his interest in the Black Diamond
mineral claim, situate on the north side
of Bear creek, about three miles from
the town of Nelson, in the City of Nelson,
joining the Evening Star mineral claim,
Nelson mining division of West Kootenay
district, and recorded in the recorder's
office for the Nelson mining division.
You and each of you are hereby notified
that you have expended two hundred and
twelve dollars and twenty-five cents
(\$225.25) in labor and improvements upon
the above mentioned mineral claim in order
to hold said mineral claim under the pro-
visions of the Act in relation to the mining
division of the City of Nelson, and if within
ninety days from the date of this notice
you fail or refuse to contribute your portion
of all such expenditures together with all
costs of advertising, your interests in the
said claims will become the property of the
subscriber under section 1 of an act
entitled, "An Act to Amend the Mineral
Act, 1900."
Dated at Nelson this 11th day of September,
1901.

L. Keller, 153788; and Fredrick S. Aikens, 118575,
intend, sixty days from the date hereof, to apply
to the Mining Recorder for a Certificate of Im-
provements for the purpose of obtaining a Crown
Grant of the above claim.
And further take notice that action under sec-
tion 37, must be commenced before the issuance
of such Certificate of Improvements.
Dated this 13th day of October, A.D. 1901.
N. F. TOWNSEND.

CERTIFICATE OF IMPROVEMENTS.

NOTICE—Ino mineral claim, situate in the
Nelson Mining Division of West Kootenay Dis-
trict.
Where located: On the east slope of Wild
Horse Mountain, about one mile southwest of
the Falls.
TAKE NOTICE that I, N. F. Townsend, acting
as agent for Edward Baillie, free miner's cer-
tificate No. 156165, intend, sixty days from the
date hereof, to apply to the Mining Recorder for
a Certificate of Improvements for the purpose
of obtaining a Crown Grant of the above claim.
And further take notice that action under sec-
tion 37, must be commenced before the issuance
of such Certificate of Improvements.
Dated this 24th day of August, 1901.
N. F. TOWNSEND.

CITY AND DISTRICT.

The Allen liner Corinthian arrived in Montreal on Sunday evening.

Certificates of work were yesterday issued to the Alhambra Gold Mines, on the Little Hope; and to E. C. Arthur, on the Recluse.

A white man who knows how to saw wood can make an honest dollar by applying at the southwest corner of Hall and Carbonate streets.

Judge Leamy, who has been gazetted a judge of the county court for Yale as well as Kootenay, has decided to take up his residence in Rossland.

The imports at Northport for the past three days from the mines of the Slocan and the Nelson smelter were not up to the usual standard, the total value of the imports being less than \$15,000.

The steamer Kaslo is securing good business at present in the moving of ore from the mines of Slocan to the Nelson and Trail smelters. Yesterday the Kaslo brought down 185 tons and on Sunday the ore cargo amounted to something over eight cars.

In the case of the Bank of Montreal vs. the Noonday-Curley mining Company, judge Fern yesterday made an order for the sale of the defendant company's interest in the Noonday-Curley group of claims to satisfy a judgment for some \$600.

The mortgage sale of lots 15, 16 and 17 in block 44, at the northeast corner of the junction of Ward and Hoover streets, will take place this afternoon at 2:30 o'clock in the office of Messrs. Charles A. Waterman & Company in the K. W. C. block. The terms of the sale may be learned at the office of the auctioneers.

The stenographer has completed his transcript of the evidence in Robitaille vs. Mascen and Young, an action for damages arising out of the arrest of the plaintiff upon a charge of stealing a flat belonging to the tramway company.

The appeal in the case of Marino vs. Alexander has been adjourned till the next sitting of the court. The defendant has been permitted to put in new affidavits respecting the discovery of fresh evidence in the shape of the Marino company's books of account which had been lost. The plaintiff Marino has been granted the right to cross examine upon the affidavits filed.

The appeal in the case of Vice and Williams vs. Brydges has been allowed by the full court, thus reversing the decision of Judge Fern. This case was followed with considerable interest by the real estate men of the city. It was an action for the recovery of certain purchase money paid to Brydges upon the ground that there were misrepresentations made with respect to the property. The defence set up by Brydges was that he was merely acting as the agent of the man Dixon, the vendor of the property, and that the money sued for had been applied by him to Dixon's account with Brydges, and that the right of action was against Dixon and not against Brydges. At the trial of the action Judge Fern gave judgment against Brydges.

In the case of Lawr vs. Parker the full court has decided in favor of the plaintiff. This was an action brought by plaintiff Lawr to have the Rebecca declared to be a valid mineral claim as against a claim owned by defendant Parker. The case was tried by Justice Falkem, who gave judgment for the defendant under the section of the Mineral Act, which sets out that the free miner should not be made to suffer through any act of omission or commission on the part of any representative of the government. The trouble with the Lawr was that a certificate of work had been secured with respect to the Rebecca for work done upon a claim which did not adjoin, the evidence of the plaintiff being that the mining recorder of the time had informed him such work could be made count upon the Rebecca. The full court upheld the decision of Justice Falkem but rested it upon a different section of the act, section 25, which sets out that the issuance of a

certificate of work cured any defect with respect to the due performance of the same.

Born, at 10:30 o'clock last night to the wife of Harry Wright, a boy; weight 10 pounds. Harry will survive, and the mother and child are doing well.

Fred Irvine & Co. have just received the special Christmas number of the Do-linacitor, which is an exceptional addition to every lady in Nelson.

There will be a rally of the local union of C. E. in the Methodist church tonight. Rev. J. B. Morgan will speak and a good program of music has been arranged.

J. W. Masterson of Ymir, was in Nelson yesterday closing up the deal for the purchase of the Ymir hotel from Grant Morris. The terms of the sale were \$4000 cash, the money being paid over yesterday.

With snow on the ground, people are beginning to realize that summer clothing must be laid away and winter clothing procured. Fred Irvine & Co. know what you need in the way of furs and announce a special sale in that line for the remainder of this week.

Rev. father Ferland has returned from a 7-weeks' visit to points in the East, including St. Louis and Salt Lake City. Everywhere he found Canadians in positions of responsibility and often at the head of vast industrial enterprises. Canada is too small for her most energetic and enterprising sons, and the United States gets them and keeps them.

Provincial constable Barnes of Fernie arrived in Nelson yesterday, having in charge Chauncey Boyington, who will stand his trial upon a charge of bringing stolen goods into the country. Boyington is said to have secured a horse in some way south of the international boundary line and attempted to dispose of it after he had got into this province.

For sixteen years "Charlie" Olson of Ainsworth has been smiling, appearing happy and talking hopeful of the future of the camp in which he lives. "Charlie" has made money in Ainsworth and spent it there. He is the kind of men that make a country. He never talks politics or religion, and has always a good story of a strike on one of the creeks that flow into Kootenay lake from the west. Mr. Olson is in Nelson purchasing supplies.

F. E. Simpson of the Cranbrook Herald was in Nelson last night looking for printers. He says the construction of the smelter at Marysville has put new life into that section of East Kootenay, the people now have increased confidence in the permanency of its mining towns and camps. Marysville has ten or eleven business houses and will have a newspaper in a few days. Mr. Simpson left for home this morning on the 5 o'clock boat.

The Economist is printing the voters' list of the W. K. P. & L. C. by-law. It will be ready for distribution by Thursday. As soon as a copy can be procured, the names will be printed in The Tribune. Assessed owners of property are the only people who can vote on the by-law. If expressed public opinion counts for anything, the by-law will be defeated, as it should be; for no more unfair and one-sided bargain was ever submitted to the people of a city in Canada for their approval.

The high tea given in the Methodist church last evening was largely attended, the seating accommodation of the church being taxed to its utmost capacity. The feature of the evening was the address by Rev. James Turner, the pioneer missionary of the church in the interior of the province, as well as the interesting talk and the brought-out fund of amusing incidents connected with his missionary labors of thirty years.

A. L. Davenport yesterday made the first payment upon the Bayoune group of mines at the head of Summit creek. He will be ready for distribution by Thursday. As soon as a copy can be procured, the names will be printed in The Tribune. Assessed owners of property are the only people who can vote on the by-law. If expressed public opinion counts for anything, the by-law will be defeated, as it should be; for no more unfair and one-sided bargain was ever submitted to the people of a city in Canada for their approval.

G. O. Foss, of the railway constructing firm of Foss & McDonnell, was in Nelson yesterday. He has a slice of the work on the Hill extension in East Kootenay. He says there is work enough on the railway grade for 2000 men, and there are not more than 500 men on it. The contractors are getting things in shape, but it is evident that there will be a great scarcity of labor. When Mr. Foss left Morrissey there were 14 inches of snow on the ground.

W. S. Drewry arrived in Nelson yesterday from the True Blue mine, near Kaslo. He says things are being shaped up at the True Blue for the reworking of 100 tons of high grade ore. It is expected that this initial shipment will average 15 per cent copper, so that it will be in demand at the smelters. Mr. Drewry says the True Blue vein has been traced on the surface for a distance of 2000 feet. The vein has been opened in several places, and the lowest vein received was 3 per cent copper, and from this the assays ran up to 15 per cent.

The members of the Trades and Labor Council are making an effort to discourage the employment of Chinese. In this effort they should have the aid of those who believe that the country would be better without the men from the Orient. Many of the people who employ Chinese are forced to do so from two causes: The first is the scarcity of white labor; the second is the unreliability of the white labor that is available. The hotels are often left without a working force in their kitchens at a moment's notice, and the proprietors cannot do anything else than call in Chinese, who can be obtained at a moment's notice.

ents' notice. For household work there is a scarcity of efficient help, and those who must have servants are, by force of circumstances, compelled to employ Chinese. According to a circular issued by the Trades and Labor Council, the following hotels, restaurants, and saloons employ white help only: Victoria, Clarke, Tremont, Madden, Sherbrooke, Grand Central, Lake View, Rossland, Grand, and Klondyke hotels; the Imperial and Delmonico restaurants; Spear's chop-house; the Manhattan, Bodega, and Gluepot saloons. This list will probably be added to from time to time.

PERSONALS.

Ben Gordon of Victoria was in Nelson yesterday on a visit to his son, Hunter Gordon, a member of the staff of the local branch of the Canadian Bank of Commerce.

H. C. Killen, provincial engineer in charge of roads and bridges, arrived in Nelson yesterday from the Boundary district. He reports the public works in that district as completed and will leave today for East Kootenay to close up the work there for the winter. Mr. Killen says he has no knowledge of the rumors respecting his appointment to any of the provincial government offices in the north riding of East Kootenay and further he was quite content with the position which he is at present filling.

AT THE HOTELS.

TREMONT—James Mack, Slocan; Thomas Pecord, Sandon; E. Charles, Rossland.

QUEEN'S—A. N. Winlaw, Slocan; Mrs. Mason, Athabasca; J. S. Milvill, Eight-mile; J. A. Letterfield and J. D. McSweeney, Rossland.

Nelson Will Be on the Main Line.

According to the Toronto Globe, "it is believed in British Columbia that all doubts will soon be removed as to the possibility of building a railway

CRUELTY TO ANIMALS.

A public meeting will be held in the Court House tomorrow (Tuesday) evening at 8 p. m. for the purpose of forming a branch of the British Columbia Society for the Prevention of Cruelty to Animals in this city.

Ladies and gentlemen are earnestly requested to attend. Good speakers. C. J. SOUTH, Secretary B. C. S. P. C. A.

Sealed tenders addressed to the undersigned and endorsed "Tenders for Albert-Clayton Telegraph," will be received at this office until Tuesday, December 3rd, 1901, for the supply of telegraph poles for a line from the Telegraph Office at Albert, in the County of Vancouver, Province of British Columbia, along the route described to Claydon, a total distance of approximately five miles more or less; also for the construction of the above line of telegraph in accordance with the specification.

Specifications can be seen and forms of tender and all necessary information obtained at the office of Mr. W. Henderson, Clerk of Works, Victoria, B.C., and at the Department of Public Works, Ottawa.

Accepted cheques on a chartered bank, payable to the order of the Minister of Public Works, equal to ten per cent of the amount of the tender, must accompany each tender. The cheque will be forfeited if the party declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender.

connection between the western terminus of the Crow's Nest line and Hope, on the main line of the Canadian Pacific railway. Hon. Edgar Dowdney, who was appointed to make a survey of the route for the provincial government, has completed his work much earlier than was anticipated, which is regarded as a sign that a feasible route has been discovered. The main line of the Canadian Pacific now makes a long northern detour, which will be cut off if the contemplated link is constructed. The attractions of Banff, the great glacier, and other features on the present main line will insure its popularity for tourist travel, but the shorter and more level route through the Crow's Nest Pass will be the more advantageous for freight and commercial passenger business."

Entered School Aged 87.

KNOXVILLE, Tennessee, November 11.—Emma Henry, aged 87, has been the star pupil in Eastport Colored School at Knoxville for six weeks. The aged woman, who lost her husband, who was 103 years old, about a year ago, concluded to enter school as a cure for ennui. She was a hard student in the second grade and acquired great influence with the children. She has, however, come to the conclusion that schooling is useless to her and has now re-entered domestic service.
