### LOCAL OPTION LEAGUE

At the annual convention of the Local Option League held last week in this city it was decided to continue the work of the League, but with a somewhat limited scope of the policy. It was the consensus of opinion that the League had been interfering with lines of work well provided for by other organizations and the convention concluded that the most effective work would be done by confining the efforts of the League to advancing the cause of Local Option. In this action the general public will concur and the coming year should be more successful than hitherto.

It was also decided that the introduction of the Canada Temperance Act should not again be attempted, but that an organizing and educative campaign should be undertaken in the interests of a Local Option Law for the Province.

The following were appointed as the executive committee:

President—R. H. Cairns.  
Vice-Presidents—The chief officer of every denomination in British Columbia, also Dr. Ernest Hall (Victoria), Dr. Sawyer (Okanagan), G. O. Buchanan (Kaslo), C. N. Haney (Vancouver), presidents of I. O. G. T., R. of T., W. C. T. U. etc.

Financial Secretary—W. J. Faris.  
Treasurer—P. G. Drost.  
Victoria—W. A. Gleason, W. M. Mitchell, Geo. Carter, Wm. Marchant, Dr. Russell, A. B. McNeill.

Vancouver—T. T. Langlois, E. B. Morgan, J. A. Thomson, Prof. Odium, S. Des Brislay, T. Corbett, John Horner, J. M. Patullo, W. H. Higgins, A. C. Callander, A. J. Passage, J. J. Dougan.

New Westminster—N. R. Brown, D. S. Curtis.

Kootenays—J. C. Harris (New Denver), J. Patrick (Nelson), Dr. Connolly (Cranbrook), Dr. Wolverton (Nelson).  
North British Columbia—Mr. Wm. Duncan (Courtenay), W. W. Millard (Cumberland), W. T. Kergin (Prince Rupert).

Nanaimo—H. Skinner, J. E. T. Powers.

Chilliwack Valley—Mr. A. Thompson (Dewdney), C. H. Cowan (Chilliwack).

Kamloops—Dr. Archibald.

Revelstoke—Mr. R. Howson.

Okanagan—Mayor G. Bell (Enderby), John Speer (Vernon), C. S. Stevens (Summerland), J. L. Logie (Summerland), Mr. Wanless (Kaledon), Mrs. M. A. Cunningham (New Westminster), Mrs. R. S. Day (Victoria), Mrs. Griffin (Vancouver), Mrs. Lashley Hall (Vancouver).

The following resolution on policy was unanimously adopted after an exhaustive discussion which guarantees a hearty support.

"That the policy of this league for the coming year shall be one of education and organization, with a view to secure eventually a provincial Local Option law; that we concentrate our efforts for the purpose and leave other matters to the organizations to which they more particularly pertain; that we request the incoming executive to devise such plans for the financing of the league campaign as will adequately provide the necessary funds."

The standard of the speeches of the convention were of a very high order. Special mention might be made of that of Rev. E. A. Henry who related to prohibition, also that of Rev. R. Newton Powell on "Policy and Patriotism" in which he expressed regret for the introduction into the Province of the Canada Temperance Act.

Among others who spoke were: R. H. Cairns of Chilliwack, Rev. A. M. Sanford, Rev. Mr. Davis, Rev. P. C. Parker, Rev. Mr. Hedley, W. J. Faris.

## The Jungle

### Even That

Representative Nye, of Minnesota, has much of the wit of his lamented brother, Bill Nye. Himself a lawyer, Representative Nye said at a lawyers' banquet in Minneapolis:

"Lawyers have grand reputations for energy and perseverance. A lad said to his father one day:

"Father, do lawyers tell the truth?"

"Yes, my boy," the father answered.

"Lawyers will do anything to win a case."—Washington Star.

### His Wife

"What do you do for a living, Moses?"

"I'm de manager ob a laundry."

"What's the name of this laundry?"

"Eliza Ann."—Louisville Courier-Journal.

### Musical Notes

The Virtuoso—"He paid \$4,000 for a Whistler."

The Drummer—"Gee! You can get a Singer for about fifty dollars."—Brooklyn Life.

### Where the Treasurers Are

Burglar—"Better tell me where the valuables are."

Householder—"Well, old man, here's the combination of the refrigerator."—Life.

### Premature

The Fair Purchaser—"Your eggs are all very small today, Mr. Jones."

Mr. Jones—"Yes'm, they are; but I'm sure I don't know the reason."

The Fair Purchaser—"Oh, I expect you took them out of the nests too soon."—London Sketch.

Two Souls With But a Single Income  
"I'm thinking of getting married."

"Then you will be. Congratulations."

"But how much will it cost to live?"

"That's simple. Add about \$5 a week to what you get."—Cleveland Leader.

### The Top of the Medical Ladder

"Has the doctor a large practice?"

"So large that when people have nothing the matter with them he tells them so."—Pittsburg Post.

### Up Against It

She—"Lizzie's bloke calls 'er 'is peach and the apple of 'is eye. Why can't you call me things like that?"

He—"Yus, that's all very well; but 'e's in the vegetable business. I'm in the whelk trade, remember."—Punch.

### Domestic Wrappers

"Your friend is rather indelicate," remarked Mrs. Wombat. "Says he gave her husband some panettellas for Christmas."

"What's wrong with that?"

"I wouldn't think of mentioning sleeping garments in public."—Louisville Courier-Journal.

### A Common Devisor

Plaintiff (in law suit)—"So you think I will get the money, do you?"

His Counsel—"I think we will get it."—Puck.

### Told of Two Cities

Two of those cranks who do that sort of thing were debating the relative merits of St. Louis and Kansas City.

"At any rate, we don't have to call this a city," said the St. Louis man.

"Nor do we have to call our town a saint," the other retorted.—St. Louis Post Dispatch.

SOME IMPERIAL STATISTICS

LONDON—Some very striking and interesting figures are contained in the forty-seventh statistical abstract which has just been issued as a Blue book. The period covered by the volume now issued is that from 1895 to 1909. According to the latest returns the total area of the British Empire is 11,199,000 square miles. Some of the most important increases in population during the period from 1891 to 1909 are as follows:—Canada, 4,883,239 (1891), 7,185,000 (1909); Australia, 3,174,392 (1891), 4,374,138 (1909); New Zealand, 626,658 (1891), 995,266 (1909); Natal, 543,913 (1891), 1,249,634 (1909).

**Fifteen Years' Progress**

The following table of Empire trade should also be instructive:—

Total imports	£169,490,000	£366,286,000
Total exports	£195,525,000	£403,785,000

The work of the Oversea postal department has enormously increased during the last few years. During 1909 the 18,399 post offices in India dealt with 767,922,728 letters and cards, 101,192,285 newspapers, book packets, and circulars, 6,140,189 parcels, and letters dealt with numbered 372,501,343; newspapers, etc., 201,839,873; parcels, 2,917,464; telegrams, 18,890,277. The Canadian figures have been more than doubled in nine years, letters alone totalling 479,670,000.

### NEW SOUTH WALES THIRD PARTY

SYDNEY—A third party has again sprung into existence in New South Wales politics. It includes all the Independents and a number of members at present supporting the Hon. C. G. Wade (the former Premier). The leader of the new party is Mr. Storey, M. L. A. for Randwick, and the party will be known as the "Democratic Party." Its policy is described as aiming at "Justice to all classes, justice in legislation and administration, and tolerance in politics and religion." The leaders say that they have adopted this course on account of the growing danger to the interests of the country by the continuance of machine politics, the tyranny of Liberalism as lately practised, and the tyranny of the Labor caucus. The Democratic Party declares that if a measure is brought down next session for the repeal of the (land) Convention Act, one of the biggest political fights ever known in New South Wales will take place on the question of leasehold versus freehold.

### SOME AFRICAN PROGRESS

During the eleven months ended November 30, 1910, the total volume of merchandise entering the Union amounted to £30,933,651, as against £23,680,291 for the same period in 1909, an increase of rather more than 23 per cent. Not the least remarkable of the detailed figures published are those dealing with imports of machinery. During the first eleven months of 1909 machinery of all kinds to the total value of £1,948,039 was imported. In the corresponding period of 1910 this figure had risen to £3,347,912.

Union exports during the eleven months totalled £50,219,355, as against £45,430,731, an increase of 10.5 per cent.

### GREAT CANAL PROJECTS

The government is considering estimates for the work of deepening the Welland Canal to 24 feet, and for constructing the Georgian Bay Canal. The cost of the former will be about \$2,000,000, and for the latter \$3,000,000. No definite decision has yet been arrived at, but it is probable that the Welland Canal improvement will be under way this year, and the Georgian Bay Canal deferred until 1913.

### AUSTRALIA ABANDONING CONTRACT LABOR SYSTEM

SYDNEY—Ministers are generally adopting the day labor as opposed to the contract system in carrying out public works in connection with their departments.

### GOVERNMENT RAILWAYS A SUCCESS IN AUSTRALIA

Striking testimony to the commercial prosperity of Victoria is borne by railway revenue returns just put before the Railway Commissioners (says the Melbourne "Age"). An increase of £2400 a day was maintained during the week ended December 7, and the increase since the commencement of the financial year has amounted to £191,769, or an average of £1500 a day. During the seven days under review the revenue was £113,001, as against £96,280 for the corresponding period of last year. Since July 1 the revenue has been £2,012,366 compared with £1,820,597 for the 1909 period. Two years ago the great achievement of reaching £4,000,000 in one year was heralded with enthusiasm. The revenue for this financial year promises to be £4,500,000.

**For the Home**

**When Busy Mothers find that outdoor exercise is impossible the following plan may help them, as it has the originator, who says that after breakfast the children, too small to go to school, were clad in their outdoor clothing, while the mother, too, dressed herself warmly, and then opened every window and the door to a porch, and the mother washed dishes, made beds, swept and dusted, etc. The fresh air coming in while she briskly did her work was nearly as good for her as a walk. After the house was in order the windows were closed, the baby was washed and put to bed, where he slept soundly from the effects of fresh air. The mother took up her sewing or went on with her housework, better and more cheerful from the same good cause.**

**When Cleaning Upholstered Furniture**  
It is often either impossible or inconvenient to move it outdoors. In such cases place a wet cloth over the piece of furniture and then beat it, changing the cloth several times during the process. The dust will adhere to the cloth and will not rise in the room.

**A Shoe Shelf in the Closets**  
will be found an inexpensive and helpful device, either when planning a new home or improving the old. A board ten inches wide is cut to rest by its back end on the baseboard in the rear of the closet. If the space is quite long a centre bracket may be required. The board should be stained or painted to match the woodwork. The shoes thus being kept off the floor, the sweeping of the closet is made easier.

**Mark Perforations in Patterns With Crayons**  
Instead of with a pencil, as the colors can be clearly seen on the materials that are to be cut out, and the crayon marks may be easily brushed off when no longer needed.

**To Avoid the Tape Strings in Boys' Blouses**  
which are often un tidy in appearance, put in the lower hem a mercerized elastic band, about half an inch wide, and not quite so long as the boy's waist measure. Fasten the elastic at each end, sew a button on one side, and make a buttonhole on the other. This plan will be found much more satisfactory than the use of tape.

**Boiling a Pudding in a Double Boiler**  
will be found an improvement on the use of the old time pudding bag. Fill the lower part with boiling water and keep it boiling. In the upper kettle put first a disk cut from oiled paper; then pour in the pudding. It will come out in good shape.

**Make a List of Medicines**  
that are kept in your medicine cabinet and post the list close by. In time of sudden illness, or whenever a nurse comes into the house, a glance at the list will tell whether any particular remedy which may be required is on hand.

**In Laundering Table Linen**  
the wearing quality will be preserved and a greater whiteness secured if the cloths are not hung on the clothesline to dry. When the tablecloths are properly washed, boiled and rinsed, first pass them through a good wringer, then spread them on a dry cloth, and finally roll up tightly. In two hours they may be ironed if you wish; or they may be left till the next day. Use very hot irons on the linen and a beautiful sheen will be imparted to it.  
**Keep Sugar and Salt in the Medicine Closet**  
upstairs, using small glass jars for that purpose. When a little sweetening is needed in medicine, or salt is wanted for gargling the throat, a trip downstairs may be saved by having these articles conveniently near.

**Most Kitchen Tables Are too Low**  
and women get tired stooping over them when working. An improvement on a low table may be accomplished by putting at the back and on the sides of the surface some boards six inches high; then joining a new cover to these supports. If finally a hinged drop-board is so hung as to cover the opening in front the housekeeper will have a dustproof compartment for pastry board and rolling pin.

**To Keep Steel Knives Clean**  
cut a piece of carpet about two feet square and make a bag with the pile side in. Put in the bag some emery powder or powdered bathbrick. After washing the knives rub them in this bag and they will come out clean and polished without soiling your hands. The bag may be made to hang up in a convenient place.

**When Undoing a Parcel**  
If you make a practice of putting away paper and string together—folding the paper and winding its own particular piece of string around it—there will always be string to fit a bundle without having to look for one.  
**The Top of the Dining Room Table**  
may be kept in good condition in the easy way: Make a bag of several thicknesses of fine cheesecloth and fill

it with powdered pumic stone. Dip this in good sweet oil and rub the table well. Polish the table afterward with a clean piece of flannel or chamois skin. If this is done once a week the surface of the table may be kept in excellent condition.

**The Man Who Smokes Without Permission**  
If a young man while in my company begins to smoke without asking permission what should I do?  
I should advise you not to take it too seriously, but, with exaggerated indignation and head held very high, you might say in a light, jesting manner: "I did not hear you ask my gracious permission to smoke, sir!" The suggestion of his omission may thus be conveyed without implying your displeasure, though I think some little reproof is called for.

**Removing Gloves at a Banquet**  
Please tell me if it is correct to remove one's gloves while being served at a reception or banquet.  
It is not customary to remove one's gloves unless one is being served while seated at table. It is quite possible to use a fork in eating ices, cakes, salads, etc., without soiling the glove in the least.
